A CURE FOR SCANDAL. Here's a cure for a terrible disorder of the mouth, commonly called scandal. Take of good nature, one ounce; of an herb called by the Indians, mind-your-business, one ounce; mix these with a little charity for others; one, two, or three sprigs of keep-your-tongue-between-your-teeth. Symptoms, a violent itching of the tongue, and roof of the mouth, which invariably takes place while you are in company of a species of animals called gossips. When you feel a fit of coming on, take a teaspoonful of the mixture, hold it in your mouth which you will keep closed till you get home, and you will find a complete cure. Should you apprehend a relapse, keep a small bottleful about you, and on the slightest symptoms repeat the dose.

On Tuesday night 24th, when the night train reached the depot, a horse ventured to cross the rail road bridge, and fell between the ties and could not get up. Some young folks close by heard the noise and started to see the cause and found the horse, James McMullen's little girl ran for a lantern to signal the train. In the mean time Howard Heaton started to the depot to tell the train men of the horse being on the bridge, thereby avoiding a wreck of the passenger train. In a few moments a large crowd gathered to learn why the train stopped at the bridge. It is said that a tramp was leading the horse, taking the saddle off turned him loose to go for its-self and wound up on the bridge. The train men took in the situation and decided to haul him off with the train cable, a large rope carried for an emergency. In a short time the horse was hauled off and now is in his grave. Wm. Potter was the first to discover the horse on the bridge and gave the alarm at once.

The scribe for the Keystone Gazette, in last week's issue, in mentioning all the business places and business men in Runville, forgot to tell about our veterinary surgeon who lives on the corner of the route from Mr. Poorman's store, to Mr. Sennet's carpenter shop. That man that killed the sick hog last winter, we hope his name won't have the same effect on the readers of the Gazette, that his salt had on the poor hog.
