

THE MEXICAN LYNCHING

Further Indications That Police Lynched Diaz's Assailant.

PROSECUTION WILL BE PUSHED.

President Diaz Determined That the Full Rigor of the Law Shall Fall on the Guilty Officials—Chief of Police Dismissed.

City of Mexico, Sept. 17.—Ignacio Anulo, a violent character, assaulted President Diaz yesterday during the military procession. The man was felled by a cane by a companion of the president and was immediately taken into custody. Later a mob broke into the municipal building, and Arroyo, who was in a straight jacket, was stabbed to death, so the police officials assert. But the alleged lynchings, many of whom were arrested, have been released, and police officials, including an inspector, are under arrest on suspicion.

City of Mexico, Sept. 22.—The murder of Arroyo, presumably by members of the police, continues to be the one topic of discussion in this city, and newspapers sell extra editions in order to supply the demands of the public. Fresh arrests have been made, mainly among the officers attached to the Second police station, supposed to be implicated in the bloody drama. One of the men arrested, named Carmona, is alleged to be the person who wielded the dagger so effectually. Among those arrested are servants of the late inspector general of police and the assistant chief detective, it being believed that they knew much of what took place, if they were not directly implicated in the killing. All these prisoners were consigned to the grim old prison at Belem.

It is said some of the prisoners, including the inspector general and assistant chief of detectives, are confronted by innumerable proofs that the police were the real authors of the crime, and have begun to admit their knowledge of the affair. Probably the man most intimately connected with the crime was Inspector Villa Vincendo, of the Second station, who was said to have suggested the killing of Arroyo, and disguised the secret police and gendarmes who penetrated the police headquarters where their victim lay.

Another version, which newspapers are giving as a rumor, is that for excellent reasons, which will be revealed, the police officials felt sure that Arroyo had accomplices. Failing to secure from him an admission confirming their suspicions, they proceeded to string him up by the thumbs, and he being an epileptic went into a swoon, and the idea arose of getting up a pretended lynching in order to prevent the blame coming upon themselves.

The hall of the chamber of deputies was crowded to overflowing yesterday afternoon on the occasion of the appearance at the bar of the house of the minister of the interior. He said that inasmuch as from the report of the chief of police the criminal had not been properly guarded, and had not been confined in the proper place, and this implied a serious responsibility of the police, the president had ordered that the chief should at once be discharged and that another be appointed to take his place provisionally. He said that the president has felt the utmost indignation at the crime, and has aided and will continue to aid the jury in charge of the case, that the crime may not go unpunished, and that the full rigor of the law may fall on the guilty.

Lehigh Valley Men on Strike. Scranton, Pa., Sept. 21.—Four hundred men and boys employed at the Heidelberg colliery No. 1, of the Lehigh Valley company, at Avoca, quit work yesterday. They have several grievances, but the principal one is said to be excessive dockage. Superintendent Connors and Assistant Superintendent Owens refuse to concede the demands of the men. The strikers are mostly Poles and Hungarians, and at a meeting last night were addressed by orators in their native tongues. They were reminded of the fate of their countrymen at Lattimer and urged to stand firm for their rights, but keep within the law. The men at No. 2 colliery also refused to go to work today, making the total number of workmen out about 550.

Off For the South Pole. New York, Sept. 21.—Dr. Frederick A. Cook, who was a member of Peary's Greenland expedition of 1891, sailed from here yesterday on the steamer Coleridge for Montevideo, where he will join the Gerlach Antarctic expedition. He hopes to reach the South pole. The Gerlach expedition, under command of Lieutenant Adrian de Gerlach, left Antwerp on July 25 on the Belgica, a whaling ship especially strengthened and fitted up for the perilous undertaking. The Belgica is provisioned for two years. As far as known Dr. Cook will be the only American in the party.

For Mayor of Baltimore. Baltimore, Sept. 22.—Henry Williams was nominated for mayor on the first ballot by the Democratic city convention held here last night. This is the second time Mr. Williams has been selected as the standard bearer of the Democracy in a municipal campaign, he having been defeated for mayor in 1895, along with the entire state and local ticket. At that time, however, he ran many thousand ballots ahead of the party vote.

Uruguay's Rebellion Ended. Baltimore, Sept. 21.—Official advices have been received by F. De Murguendo, consul general from Uruguay, resident in this city, to the effect that articles of peace have been signed by the agents of the late revolutionary party and of the government of Uruguay. It is also announced that the articles have received the approval of the Uruguayan congress and that the rebellion in that country is at an end.

Ohio Miners Resume Work. Bellaire, O., Sept. 21.—All the large coal mines located on the Baltimore and Ohio, Cleveland, Lorain and Wheeling, Pedding banks in Belmont county, were started yesterday, operators paying the 56 cent rate. Two thousand miners returned to work.

WEST INDIA HURRICANE

Visits Florida, With Resulting Loss of Life and Property.

Jacksonville, Fla., Sept. 22.—Florida was visited by a West India hurricane yesterday. The rain in Jacksonville has been almost continuous for the past 36 hours, but it was not until yesterday that wind accompanied it.

The maximum velocity here has been between 30 and 40 miles, accompanied by sharp gusts. In Tampa the rainfall was more than six inches, while here it has been half that amount. Fears are entertained for the safety of the schooners R. W. Dasey, W. H. Skinner and J. H. Cannon, which left Monday with cargoes of lumber. The center of the storm on the east coast appears to have passed over Titusville and Cocoa, about 160 miles south of this city. At the former place 15 inches of rain fell, and washouts are reported on the railroads. At the latter place several buildings were demolished and several fishermen probably lost their lives.

At Ferdinandina great fears are entertained of serious damage to the entire water front. The schooner J. C. Woodhull has smashed into her dock about 12 feet. The steamer Roe Hampton broke her cable and rammed another vessel lying just ahead of her. The Minim parted her anchor chains and was blown high and dry upon shore and the pilot boat V. Francis Elizabeth parted her moorings and was blown upon Three Islands beach.

A pile driver and a lighter loaded with piles, besides several wood boats, have been wrecked and sunk, some in the rivers and others blown into the marsh. A captain and his wife from a wood boat, names unknown, were drowned in their boat. Many small boats were wrecked.

Injunction Made Perpetual.

Wheeling, W. Va., Sept. 21.—The feature of interest in the opening session of the September term of the United States court for the district of West Virginia was the application of ex-Governor A. B. Fleming, of Fairmont, to make the injunction against Eugene V. Debs and others perpetual. The governor was acting for his client, the Monongahela Coal company, and as there was no appearance for any of the defendants the injunction was made perpetual. In the course of his remarks in making this decision Judge Jackson said that if a like case were presented to him now he would make the same kind of order he had made at Parkersburg, where the temporary injunction was issued recently.

The President Eastward Bound.

Washington, Sept. 22.—President McKinley and party left the city last night via the Pennsylvania railroad for Adams, Mass., where they will be the guests of Hon. W. B. Plunkett. Accompanied by Mrs. McKinley and Miss Mabel McKinley, the president arrived at the station a few minutes before 9 o'clock, and went immediately to the special train in waiting, where they joined Secretary and Mrs. Alger. Attorney General and Miss McKenna and Executive Clerk Cortelyou, who had arrived a short while before. Secretary Wilson and Hon. H. H. Kohlsaat were at the station, and remained chatting with the president until the time of departure.

Yellow Fever Statistics.

Washington, Sept. 22.—Surgeon General Wyman yesterday sent the following telegraphic summary of the yellow fever situation to the state health authorities throughout the south and southwest: Total yellow fever cases officially reported as follows: Mobile, to Sept. 20, 19; Cairo, to Sept. 4, 4; New Orleans, to Sept. 20, 27; Barkley, Miss., to Sept. 18, 19; Biloxi, to Sept. 19, 22; Edwards, to Sept. 20, 18; Ocean Springs, to Sept. 18, 11; Pascagoula, to Sept. 19, 1; Scranton, to Sept. 20, 17; Perkinston, to Sept. 19, 1. Arrangements were made yesterday to expedite the mails through Mississippi and Alabama after thorough fumigation.

Discriminating Duty Illegal.

Washington, Sept. 22.—Attorney General McKenna yesterday announced his opinion in the matter of section 22 of the new tariff law, declaring that the imposition of a discriminating duty is illegal. He holds in effect that goods coming directly into the United States from foreign countries through Canadian ports are not subject to the discriminating duty of 10 per cent, and also holds that foreign goods shipped from countries other than British possessions in British vessels are not subject to the discriminating duty.

Peary Back From Greenland.

Sydney, C. B., Sept. 21.—The steam sealing bark Hope, with Lieutenant R. E. Peary and party on board, returned from North Greenland, arrived here at 5 o'clock last evening. All on board are well. The Hope came into port burning her last coal, and with her bulwarks and decks giving evidence of the furious seas of an unusually stormy summer. She is nearly as deep in the water as when she left here in the latter part of July, with her bunkers full of coal; for the huge Cape York meteorite, the largest in the world, is in her hold, and bedded in tons of ballast.

Steamer Sunk, Half a Hundred Lost.

Vienna, Sept. 22.—The steamer Ika, with a crew of ten and carrying 50 Austrian passengers, was entering the port at Fiume, on the River Flumura last evening, when she collided with the English steamer Tira, which was leaving. The Ika sank in two minutes. Boats hastily put off and saved the captain and seven others, but most of the passengers perished. The cries of the drowning were most distressing. The casualty took place in full view of thousands who crowded the piers in the greatest excitement and alarm.

Kentucky Leaders Acquitted.

Kentucky, Ky., Sept. 22.—After being out only a short time the jury yesterday returned a verdict of "not guilty" in the bribery cases of Dr. W. Godfrey Hunter, ex-Congressman Wilson and Mr. Frank. There were quiet demonstrations of approval in the court room, and congratulatory poured in on Dr. Hunter, Wilson and Frank. The defendants were Republicans, and all of the jurors were Democrats. Senator Deboe declares that Dr. Hunter will be appointed United States minister to Guatemala.

DEPUTIES ARRAIGNED.

Counsel Garman Withdraws From Prosecution of Martin's Men.

INCOGNITIVES ARE AT WORK.

Deconstruction of a Valuable Breaker at Beaver Meadow. Presumably by strike sympathizers—Two-thirds of the strikers Have Returned to Work.

Wilkesbarre, Pa., Sept. 22.—Sheriff Martin and his 64 deputies were given a preliminary hearing before the court yesterday charged with the killing of 24 striking miners near Lattimer on Friday, Sept. 10. The deputies were brought up from Hazleton under military escort. A large crowd met them at the depot, but they proceeded unmolested to the court house. Judges Lynch and Bennett presided. Judge Lynch announced that the judges would sit as justices of the peace to hear testimony in the case. John M. Garman, attorney for the prosecution, and stated that he was employed to investigate the shooting at Lattimer and inquire if the sheriff and his deputies were justified in killing 24 men. He began by referring to "Dictator Gobin," who refused to allow the deputies to be arrested when warrants were issued two days ago. The attorney also referred to Coroner McKee being a major in the Ninth regiment, and his manner of procedure in the arrest of the deputies, and to his bringing them here surrounded by a military company with guns and bayonets. Mr. Garman then made a motion asking that the warrants of "Squire Gorman" be given the preference, and that the deputies be returned to the regular officers of the law.

Attorney John McGahren supported the plea of Mr. Garman, and said: "Will your honor allow a military officer to overawe the civil authorities? As I understand it, the military authorities are subservient to the authority of the civil law." Judge Lynch replied that the judges did not act hastily, but issued the warrants after due deliberation. The judge said that this hearing has nothing to do with the conduct of General Gobin. The court said that the witnesses who were not present should be brought in, and that the hearing could be proceeded with such witnesses as were present. Attorneys Garman and McGahren then notified the court that they would withdraw from the case. District Attorney Fell then took charge. Sheriff Martin was seated at the defendant's table, surrounded by three lawyers.

John Welsh, of Hazleton, was the first witness. He declared that when the strikers started out some of them carried clubs, but upon his advice they threw them away. Walsh got on a car going to Lattimer, and Deputy Ed Turnbach, who got on the car, said: "I don't know what the sheriff means by taking us around like this without ordering us to shoot." Welsh then detailed the meeting of deputies and strikers, declaring that after a slight scuffle between Deputy Hess and a striker some one shouted "Fire." Then followed a shot, then another, and then a regular volley. The strikers began to run, but the deputies kept on shooting for five minutes. A few minutes later Deputy William Rought deliberately shot at a man running through the woods.

Jonathan Lichensberger, a Hazleton contractor, testified that Sheriff Martin had a scuffle with the strikers, who prevented him from using his revolver. Then the shooting began. Charles Goshott, the school teacher at Lattimer, gave important testimony for the commonwealth. At this juncture, in response to a question, Judge Lynch said that each man would be required to give bail in the sum of \$4,000 or else go to jail. Joseph A. Sinn, trustee officer of the City Trust Safe Deposit and Surety company, of Philadelphia, gave bail for all of the deputies, the amount required being \$25,000.

After further testimony the court adjourned until today.

It is doubtful if the evidence submitted will be strong enough to hold the defendants for court. No witness has yet testified that Sheriff Martin ordered the deputies to shoot. The withdrawal of Attorneys Garman and McGahren also weakens the case of the prosecution. Peace has been restored in the anthracite region and nearly every colliery therein worked yesterday. Included in these were the Lehigh and Wilkesbarre company's Audenried mines, employing 2,500 men. The strike was practically inaugurated by them, and their return to work on Monday caused a stampede of the other strikers. More than two-thirds of the strikers in the region are now working.

The Evans breaker of A. S. Van Winkle & Co., operated by Kennedy & Warner, at Beaver Meadow, four miles from Hazleton, was burned to the ground last night. The operators are convinced that it was incendiary. The loss will be about \$50,000. The breaker has been idle since noon last Tuesday, not as a consequence of the strike, but on account of a lack of water. Tapping for water was to have begun today, and the breaker would have resumed work immediately. The flames originated at the top of the breaker, 80 feet above the ground. About 50 men were employed in the breaker and several hundred in the mines connected with it. All these men have been working continuously since the Lattimer shooting. They were driven out on two occasions about two weeks ago by bands of strikers from Coleraine, but returned afterwards. There is a well founded theory that women had a hand in the fire, as one was heard to say yesterday: "If we can't get the men out we'll fix it so that they can't get in."

General Gobin knew none of the details of the fire until told by a newspaper correspondent. He said: "If they are beginning to apply the torch the situation is grave indeed. They are doing the very thing that will prevent them working or obtaining the redress they are asking. The troops cannot be moved while they are burning breakers."

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested by the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy, is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention The Centre Democrat and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

GETTING READY

Every expectant mother has a trying ordeal to face. If she does not

get ready for it, there is no telling what may happen. Child-birth is full of uncertainties if Nature is not given proper assistance.

Mother's Friend

is the best help you can use at this time. It is a liniment, and when regularly applied several months before baby comes, it makes the advent easy and nearly painless. It relieves and prevents "morning sickness," relaxes the overstrained muscles, relieves the distended feeling, shortens labor, makes recovery rapid and certain without any dangerous after-effects. Mother's friend is good for only one purpose, viz.: to relieve motherhood of danger and pain.

One dollar per bottle at all drug stores, or sent by express on receipt of price. Free books, containing valuable information for women, will be sent to any address upon application to

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

MADE TO ORDER CLOTHES

AT A FIGURE

that'll fit your pocketbook as handsomely as the suits do their wearers, presents a happy combination of artistic elegance and dressiness with practical economy seldom equaled and never surpassed. Ready-made approaches to a fit cannot pass for the real thing any more than a hit on the outer edge of the target can be counted as a bull's eye. Ready-made values are comparative only, and rate according to their distance from the center. Our suits are bulls' eye hits throughout. Give me a call.

JACOB GROSS, Fine Tailoring, High Street, BELLEFONTE, PENNA.

THE PENNA. STATE COLLEGE.

LOCATED in one of the most beautiful and healthful spots in the region; Undenominational; Open to both sexes; Tuition free; Board and other expenses very low.
