Baby's Smooth, Fair Skin

Is Due to Hood's Sarsaparilla-It Cured Him of Dreadful Scrofulous Sores-Nowinc: walth.

"At the age of ico months, my baby began to have sores break out on his right cheek. We used all the local external applications that we could think or hear of, to no avail. The sores spread all over one side of his face. We consulted a physician and tried his medicine, and in a week the sore was gone. But to my surprise in two weeks more another accofulous looking sore made its appearance on his arm. It grew worse and worse, and when he was three months old, I began giving him Sarsaparilla, and before the first bottle was finished, the sores were well and have never returned. He is now four years old, but he has never had any sign of those scrofulous sores since he was cured by Hood's Sarsaparilla, for which I feel very grateful. My boy owes his good health and smooth, fair skin to this great medicine." MRS. S. S. WORTEN, Farmington, Delaware.
