MOTHER! word so full

of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it.

Mother's Friend

so assists nature in the chagetaking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

MOTHER'S FRIEND

"My wife suffered more in ten minutes with either of her other two children than she did altogether with her last, having previously used four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a MOTHER," says a customer. HENDERSON DALE, Carmi, Illinois.
