Fatal Collapse at a Political Meeting in Canada.

# TWENTY-FOUR PERSONS KILLED.

The Breaking of a Beam Precipitates Over a Hundred People to the Floor Below, and Then a Fearful Rush For Life Ensues.

London, Ont., Jan. 4 .-- One of the hottest and most stubbornly contested municipal elections ever known in this city was followed last night by a fatal accident that has put the city in mourn-Thirty persons were killed and others injured by the collapse of a crowded floor of the city hall. Twentyfour dead bodies were taken from the wreck.

The list of the dead follows: F. Heaman, C. Beckett, E. Luxton, N. Carothers, R. Leigh, James Harris, L. W Burke, John Smith, Henry Talbot, A. Phillips, John Turner, Ben Nash, J. W. Borland, George Hilburn, Frank Robison, James McLean, John Barridge, Oswald Bruce, B. Jacques, W. H. Dell. Stephen Williams, John Fellows and Allen Towe.

There were a large number injured, among them the following: Dr. Wilson, the mayor-elect, leg broken; Alderman Carothers, slightly injured; William Gray, leg broken; George Fleming, both arms broken; William Jones, water commissioner-elect, badly bruised.

How many were injured will never be known, as those who suffered but slightly at once made for their homes or were taken care of by their friends. Those who were more seriously injured were carried to neighboring drugstores, whence they were taken to the hospital or to their homes after their injuries had been attended to. The dead were taken to the committee rooms of Alderman Parnell, the defeated candidate for mayor.

At the close of the polls a crowd gathered in the city hall, where it has been the custom for years past for the successful candidates to address the electors. The building was crowded to the very doors, probably 2,000 people being jammed in its narrow space. There was a full in the proceedings, the audience called for several of the newly elected aldermen at once, and there was some delay in securing a speaker to address them. Alderman Carothers joined the mayor in an effort to secure quiet. In response to numerous calls R. M. Toothe was pushed forward to the platform on which the speakers stood. As he reached it there was an ominous crackling and the raised platform on which the mayor and newly elected aldermen were seated seemed to pitch forward to the floor.

There was a sagging of timbers, and the next moment 150 people were hurled 20 feet to the floor below. A beam running 20 feet along the center of the hall had given away, and the crowded mass standing above that section of the floor was thrown in a heap at the bottom. A large safe stood in one corner of the hall, and a huge steam coll, weighing a half ton, crashed down on the heads of the victims.

#### Don't Let Your Horse Slip.

Every man in the town slips more or less daily as he walks about. That is because his shoes are smooth. A horse slips for the same reason. Especially when he is pulling loads. It happens in dry weather in summer. And in winter it is vastly worse. The only way to prevent or mitigate slipping is to keep the calks constantly sharp, an expensive and troublesome thing. The shoes WESTWAR must all come off and be re-set, and in ic weather everybody wants that job done a the same time. Hence loss of time of ma and beast, irritation over the delay, mayb a bad job and the usual bill to pay.

Horse owners are learning to avoid this

by using the Neverslip Shoe and Calk. Th shoe is as good as a shoe can be 0 made and the calks are screwed into it with a wrench made for the purpose. You can do it yourself and remove them when worn. The whole Arrive at Snow Shoe set can be changed in twenty minutes while the horse stands in the stable. They are as firm and solid as the old style calk. Thus your horse is sharp shod quickly on an icy morning without removing his shoes. Kept well calked the Neverslip Shoe Wrench will last an entire winter on horses worked daily, when two or three sets of common shoes would be worn out, to say nothing of sharpening and re-setting.

Following the crash there was a wild rush for the doors. At the south door, where the majority of the crowd had entered, there was a terrible panic. Those in front were thrown down by the oncoming rush, shricking and fighting for the door and safety. Only onehalf of the rear door, a space of probably three feet, was open, and in the mad rush no one thought to open the door in its entirety, and 500 people struggled through the narrow space. the strong bearing down the weaker.

Within a moment after the floor coliapsed there were not half a dozen persons on that portion which had not fallen, and the work of rescuing the injured and the bodies of the dead was quickly proceeded with.

In the theater adjoining, where "The Girl from Paris" was being performed, a panic was narrowly averted.

### WAS A PRESBYTERIAN LEADER.

#### And Yet in His Will Denounced Ail Forms of Religion.

New York, Jan. 5 .- One of the most remarkable wills ever filed in the office of the surrogate is that of Henry Morehouse Tabor, offered for probate yesterday. In spite of the fact that Mr. Taber was president and the secretary of the board of trustees of the First Presbyterian church, in the opening clauses of his will he denounces all religion as sham and as having its origin in superstition. He requests that no services be held over his body, and that it be cremated. Mr. Taber died ou Christmas eve at the age of 73 years. Two children, Sidney Richmond Taber and Mary Taber, survive the testator, and to whom the entire estate, valued at over \$1,000,000, is given absolutely.

France Cialms Clipperton Island. Paris, Jan. 5 .- The Liberte asserts that Clipperton Island (over which the Mexican flag is reported to have been hoisted by a party of marines from the gunboat Democrata, after the Stars and stripes had been hauled down, in spite of the protest of the Americans there) really belongs to France, and adds: "Naturally the Americans have asked for the protection of their government, but it is France's duty to reestablish order in that island, adjudicate between the Americans and Mexicans, and demonstrate our own rights, which have never been contested."

The loss to the guests is placed at \$3.000 Pittsburg, Dec. 31 .- Another strike of window glass workers, which may prevent the general resumption on Jan. 8. is threatened. After the settlement of the wage differences the factory of W. P. Jones & Co., at Eaton, Ind., was started with cutters and flatteners who are not members of the league, but are connected with the Blowers' assembly of the Knights of Labor. The flatteners and cutters claim that they are non-union men, and say a strike will be ordered if members of the Flattoners' and Cutters' organization are not substituted. President Burns, of the Biowers and Gatherers, insists that the men shall not be disturbed, and declarge that if the manufacturers discharge them he will order out his men. From this it would seem that if the manufacturers as not live up to theh agreement with the cutters and flatteners they will have a strike of these two trades on their hands, and if they do live up to their agreement the gatherers and blowers will strike. In holding their men in line the "combine" is having trouble with some of the 65 Democratic members. It is believed that Mayor McKisson will give way to Mr. Kurtz for the short term for senator, while Governor Bushnell has all along been regarded as the candidate for the long term. Several radical free silver Democrats are not satisfied with Kurtz and Bushnell, and if they are to vote for Republicans

they want them with pronounced silver records, like that of Gerrard and others that are named. Some of the Democratic members insist that the breach is so wide and deep now between the Republicans that John R. McLean or some other free silver Dem-

ocrat could be elected over Hanna. The announcement by the Republicans that they would have no joint senatorial caucus tonight or at any time previous to the balloting for sen ator will compel all to continue in this guerilla warfare for another week, but with the result depending on the action of two or three doubtful members neither side could show its hand without exposing the recruits or deserters to a terrific fire for at least a week

The "combine" is charging that Senator Hanna is in such desperate straits as to be forced to "swap horses" while crossing the stream, owing to the Re-publicans deciding to hold no caucus, They also charge that he has been an ex-senator since the legislature met.
