Some of the supporters of Wm. McKinley, the representative of the British gold policy and plutocratic combinations of corporations, monopolies and trusts with ramifications extending from Chicago to London, and readers of the famous fabulose "Chinese Gazette" have to their infinite pleasure found "A Story on Bryan," of which they are so unanimously proud and to their honor have posted it in the postoffice. This is indeed encouraging that they can find nothing more than a "story" to draw the attention of our blattant gold friends, who called our silverites "anarchists and government destroyers" last fall.

ANOTHER STORY. The writer has the following from an Elmira Daily paper which is "no story," and kindly asks the same party to post this also and let people compare facts from McKinley with "A story on Bryan."

CLEVELAND, O., Sept. 29.—A special from Akron says: During the meeting addressed by Senator Teller last evening, a sensation was caused by a letter read by General E. B. Finley, of Bucyrus, which had been written by Major McKinley to E. S. Perkins, of Wellington, Medina county, in the fall of 1890. Mr. Perkins was at that time a representative in the Ohio Legislature. He had written to Major McKinley regarding his position on the silver question. The Major's letter in reply was as follows:

Committee on Ways and Means, House of Representatives. Washington, D. C. Sept. 27, 1890. Hon. E. S. Perkins, Wellington, O.

"DEAR SIR:—I have been so busy for the past three weeks that it has been impossible for me to give any attention to matters in the district, which fact, I believe, my friends will appreciate. I have been waiting for a moment's time that I might answer two or three letters heretofore received from gentlemen in Medina county in relation to my position on the silver and other questions."

"I have always been in favor of the free and unlimited coinage of the silver product of the United States, and have so voted on at least two occasions during the time I have been in public life. I was not willing to extend this coinage to the silver of the world and open our mints to foreign countries without charge as proposed by gentlemen on the floor of the House. My purpose was to secure immediate legislation that would credit and dignify our silver coin."

"I believe the law which we enacted this session will accomplish that result. It utilizes every dollar's worth of the silver product of the United States, even those of the value of that legislation has already been apparent in the enhanced value given to silver."

"You may remember, as indicating my position on the subject, that I voted to pass the silver bill in the forty-fifth and forty-sixth congresses over the veto of President Hayes. I shall be very glad to write to you at any time upon any subject you may wish to be informed upon. With me political and economic questions are a conviction, and while I may not always be right, I am always willing to let those whose suffrage seek know exactly where they are."

Very truly, WILLIAM MCKINLEY.
