#### Deafness Cannot be Cured

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by consitu-tional remedies. Deafness is caused by an in-mamed condition of the mucous liming of the Eustachian Tube. When this tube gets inflam-ed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deaf-ness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarth, which is nothing but an inflamed con-dition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can-not be cured by Hall's Catarrh Cure. Send for circulars, free. B. J. CHENEY & CO., Toledo, O.
