HAPPENINGS IN CENTRE CO

What Our Army of Alert Correspondents See and Observe Worthy of Note—The Local Happenings of Every Community Will be Gladly Published—Send the News, We will Publish it.

WOLF'S STORE.

W. H. Zeigler was kept busy last week putting up wire fence.

Mr. W. H. Zeigler has taken a contract to cut 100 cords of wood for A. W. Corman.

Mr. E. G. Hosterman and wife spent Friday, Saturday and Sunday visiting friends at Lock Haven.

Mrs. Barbara Condo, from Jacksonville, was visiting at Mr. Jonathan Spangler's over Sunday.

The foundation wall of Daniel DelCamp's barn is finished and the carpenters are beginning their work on same this week.

Mr. Jerome Brumgart will after harvest go to the army to drive a mule team and sell stove polish. Jerome is full of patriotism.

Mr. George Bright who works for Ira Brumgart this summer, expects to go to the army. He is an expert rider. He gives grand exhibitions by riding Ira's bull.

Last Saturday the trustees of the United Evangelical church had public sale and disposed of all nails, shingles and lumber that remained after the building was completed.

Wonder why Geo. Bright left W. B. Haines the other Sunday morning without a hat and traveled as far as Ira Brumgart till he found one. Ton Greeninger can you explain?

The following were visitors in our midst over Sunday last—Cephas Sheatz, from Wolf's Chapel; Mr. Homan and Anna Sheatz from State College; W. K. Haines and wife, from Aaronsburg; Chas. Brumgart, from Nittany; and Harry Bair and family, from Rebersburg. Come again, we will welcome you.

Recently a Grainger from this end of the county took a pleasure trip to Nittany visiting friends and relatives. At the same time the Odd Fellows picnic took place at Hecla Park, and he being anxious to see a couple thousand of the I. O. O. F. together went to the park and to his surprise says he only seen one fellow odd, and he being Anam Brumgart, from this place. Newt must also have looked very odd.

Stop that Cough! Take warning. It may lead to Consumption. A 25c. bottle of Shiloh's Cure may save your life. Sold by Krumrine Bros., Bellefonte.

MADISONBURG.

If might doesn't always make right, it seldom gets left.

Geo. Kidder, who is working at State College, was home over Sunday.

Geo. Rauchaw, who was in Williamsport painting all spring, returned home last week.

After a long absence Wm. Royer, of Bellefonte, called to see his many friends here on Saturday and Sunday.

Mrs. W. E. Keller, who was seriously ill at different times during the past week, is able to be about again.

Misses Nettie Stover and Tessie Royer, two of Rebersburg's young ladies, were the guests of Miss Bertha Fiedler, over Sunday.

Lost—A young man by the name of Shilling was last seen in "Little Sugar Valley" taking out a window of Mr. Reas' Shanty. Any information will gladly be received by Miss K. S. "Fishing Party," glimpse.

It was not the "W. A. Stone" faction, that had a rally in this town last week, when a party found a supposed suitable stone in Little Sugar Valley to place in front of one of our churches, and after having it nicely located in front of the church, the so called owner laid claim on the stone as "his property" (personal property we suppose). The party politely took the stone which weighs about two tons across the mountain again to its original location in Little Sugar Valley.

Nobody has any objections to a man defending his own claims and civil rights, but a man should first be sure that he is free from false records before he poses as a pillar of purity to guide others. The men who take up a witticism in a news paper and call it a defamatory writing, affailing the character of some one, if no same is in connection, is the most ridiculous declaration we have ever heard from persons making a pretense of at least ordinary intelligence. It is notable for some to detract attention from their own unworthiness by pointing out imaginary evils in others.

For Constipation take Karl's Clover Root Tea, the great Blood Purifier Cures Headache, Nervousness, Eruptions on the face, and makes the head clear as a bell. Sold by Krumrine Bros., Bellefonte.

INGELBY.

Mr. Keen left our town. We are sorry to see him go as he was a good sawyer.

Mrs. Henry Eisenhuth is at Poe Mills, attending her daughter who has typhoid fever.

Samuel Alters lost a good horse by breaking his leg. He lost a cow and several hogs also.

Henry Eisenhuth went to Panther Run to look after the job he is doing the for P. B. Crider & Son. He made a lot of trouble.

Henry Eisenhuth & Co are getting out the bark, on the lumber job, below Coburn. They say it does not pay to handle bark.

John Korman is able to work again; he had his fingers sawed in Henry Eisenhuth's mill. Harvey Luder also cut a big gash in his arm at the same mill. Both men are getting along well.

What Dr. A. E. Salter Says.

BUFFALO, N. Y.—Gents—From my personal knowledge, gained in observing the effect of your Shiloh's Cure in cases of advanced Consumption, I am prepared to say it is the most remarkable Remedy that has ever been brought to my attention. It has certainly saved many from Consumption. Sold by Krumrine Bros., Bellefonte, Pa.

There is more Catarth in this section of the county than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarth to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarth Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc.

—The price of the Centre Democrat and 3-times-a-week World has been reduced from \$1.75 to \$1.65 per year. This is a great combination at a low price. We always furnish "The Most News for the Least Money."

MYSTERY OF SHOE SIZES.

Meaning of the Markings on the English and French Shoe Sticks.

Although every one has his feet measured for shoes, there are very few persons who know what the sizes marked upon the shoe stick mean. There are two shoe sticks in use in America and Europe. The stick used in the United States was originally English and is still used in England. The rest of Europe uses the French stick.

The sizes on the English shoe stick were derived from the length of a barley corn, and they run three to the inch. The first mark on the stick, or size 1, is made arbitrarily, just 4 1/4 inches from the upright. Why this distance was fixed upon does not appear to be known. For some other reason which only can be guessed at, the graduated part of the stick is again divided into two sets of numbers. These numbers begin at 1 and run up to 13, and then they begin again at 1 and run up to 13. The first numbers from 1 to 5 are known as infant's sizes, those from 6 to 10 as children's, from 11 to 2 as misses' sizes, from 2 1/2 to 6 1/2 as women's, and from 7 to 13 as men's sizes.

The French shoe stick is divided into a great many more sizes than the English, and the French shoemakers subdivide these again, as is done with the English sticks, into half-sizes. There is no exact relationship between the markings on the two sticks, but the French size 16 corresponds to the English infants' 1, and their size 44 is the same as the English size 10 for men. A woman who wears a 2 1/2 shoe by English measure would get a 34 or 35 by the French measure, and a man with a 7 foot by English measure would wear a 40 shoe in France. Over here the width of the shoe is designated by a letter, while the French use figures. The with AAA is the French 000. B is the French 1 and EE is the French 5 width.

Where People Eat Concentrated Lye

"Strange, plant subject is this human frame; adapts itself to most anything! Feed it on alcohol a while and it craves more; give it arsenic, strychnine, or any old poison and a craving is at once set up." So began a popular railroad "talking man," as he drew back from his typewriter and wiped his glasses. "On my recent trip to west Texas I came upon a case in point. Out beyond Fort Davis there is a section of country which for unadulterated alkalinity beats anything on earth. What water there is tastes somewhere between castor oil and vichy and soda, while every bit of plant and animal life has become so impregnated with caustic potash that leaves and skins, barks and furs glisten like the costume of a ballet dancer in a 'ferrie,' and alkali has become as necessary to them as drink to a diplomat.

"I saw one family who had imbibed and eaten such quantities of alkaline matter that the neutralizing effect of the slightest acid was torture to them, what they craved being more and more of the burning salts. In their composite kitchen and dining room I noticed a row of bright new tin cans upon a shelf. I first took them to be condensed milk, but picture my horror when the mistress of the house took down one of the cans, which I then saw was concentrated lye, opened it, and gave a heaping spoonful to each of the children all around. They licked it down with evident delight and went back to their games."

The Eiffel Tower Twisted.

The daily movement of the Eiffel Tower, due to expansion and contraction, has been studied by Colonel Bassot, who recently explained to the Academy of Sciences that the expansion of the metallic components of the structure produces a torsion movement from sunrise to sunset. This movement is repeated in an inverse direction during the night, as the column becomes cooled, so that the lightning-rod on the summit of the tower is in constant motion. Colonel Laussedat, director of the Conservatoire des Arts et Metiers, being appealed to for confirmation of Colonel Bassot's statements, stated that he had carefully followed Colonel Bassot's investigations, which extended over ten years, and that the results given were perfectly exact. The laws of the expansion and contraction of iron by heat and cold are well known, and the tower simply obeys the physical law of temperature influence. In summer the expansion is greater than in winter, and the movement reverses at night, owing to contraction due to the cooling down of the mass. Yet this twisting, this torsion, in no case compromises the solidity of the structure, which is absolute.

Fish Saves a Vessel from Sinking.

A rock and a fish saved the good ship Nelson from sinking. The vessel was bound from Liverpool to New Zealand and when off the coast of New Zealand went on a rock in a heavy gale. She floated almost immediately and the sailors were enabled by great diligence at the pumps to keep her afloat until she could make port. The vessel was subsequently examined by a diver. In his report he stated that in one of the holes a piece of rock was jammed and in another a fish was tall first, and both were responsible for preventing the water flowing in to a greater extent.

Earth's Oldest Trees.

Some of the oldest trees in the world are to be found in Great Britain. The tree called William the Conqueror's oak, in Windsor Park, is supposed to be 1,200 years old. The famous Bentley and Wintarfarth oaks are at least two centuries older.

AN OLD BULLY.

People who live in fear of his attacks.

How to avoid him or beat him off.

If biliousness isn't the bully of the body then what is? When once biliousness gets the upper hand you don't dare say your stomach is your own. "Don't you dare eat that dish says biliousness, or you'll see what I'll do." You take the dare and you do so or rather feel, the weight of the bully's revenge. The head aches, not a regular ache, but an open and shut ache. The eyes ache, not with a dull, tired ache, but with an aggressive ache, as if they were being bored by a gimlet. The stomach trembles with nausea. "The whole head is sick and the whole heart is faint." There are scores of hundreds of people who live so under the dominion of this bully biliousness that they don't dare eat or drink without his permission. There's no need of such slavery. Dr. J. C. Ayer's Pills effectually cure biliousness.

"For fifteen years I have used Dr. J. C. Ayer's Pills, and find them very effective in all kinds of bilious complaints. They are mild in operation and easy to take. I prefer them to any other pill, and have yet to see the case where they have failed to cure."—A. SWANSON, Texarkana, Ark.

"I have used Dr. J. C. Ayer's Pills in cases of biliousness and general disorders of the stomach and bowels and have found

them to be always reliable. They are less liable to gripe than other purgatives, and although mild in action, they are thorough in operation. They are the best family physic that can be had."—PETER J. DUFFY, Rockport, Texas.

"Having used Dr. J. C. Ayer's Pills for years and thoroughly tested them, both as a preventive and cure for biliousness, I can truthfully say that I believe them to be the best medicine for the purpose and they do all that is claimed for them."—JNO. E. KOLB, BARK, Ark.

Biliousness is in general but a symptom of a more stubborn disorder, constipation. Constipation is the root of almost all physical evils, and Dr. J. C. Ayer's Pills cure almost all these physical evils by going to the root. They cure constipation, and the consequent maladies, biliousness, heart-burn, palpitation, shortness of breath, sleeplessness, nervous irritability, foul breath, coated tongue, and a score of other miserable maladies that have their origin in constipation. Dr. Ayer's Pills are the surest and safest remedy for all diseases of the liver, stomach, and bowels. Send for Dr. Ayer's Curebook and read the story of cures told by the cured. Free. Address the J. C. Ayer Co., Lowell, Mass.

JOS. HORNE & Co. A Continuation We told you a little story last week illustrative of confidence, and wound up by quoting a price on organdies that was really sensational. It had a wonderful effect and brought us hundreds of orders. This week we ask your attention to AMERICAN LAWN.
