While the officer was away hunting up the mayor the lunatic amused himself by keeping up a continued howl which disturbed the whole neighborhood and soon attracted an immense crowd. This was evidently too tame a business for him, so he started a bonfire in the middle of his cell and proceeded to burn his shirt. Smoke began to roll out of the windows and the excitement of the spectators became intense.

Word was at once sent to the police who arrived just in time to save not only the lunatic and the building from being burned, but two other men who were confined in another cell. As it was the men were pretty nearly suffocated. The man was taken before the mayor and committed to jail. He gave his name as -Geo.
