A SPANISH ROUT.

American Troops in the Philippines Attacked at Night.

ELEVEN AMERICANS KILLED.

Brave Tenth Pennsylvania Men Under a Withering Fire.

BATTLE IN A RAGING TYPHOON.

Spanish Rage at the Arrival of Fresh Reinforcements Led Them to Attack the American Trenches Between Cavite and Manila - Insurgents Took No Hand. Americans Now Occupy the Trenches Formerly Held by the Insurgents.

Cavite, Manila Bay, Aug. 4, via Hong Kong, Aug. 10 .- The first shedding of Aemrican blood on Philippine soil took place Sunday night, when 11 high spirited youths out on a picnic, were killed and 44 wounded during a skirmish at the Malate trenches, between Cavite and Manila.

General Greene's force, numbering 4,000 men, had been advancing and entrenching. The arrival of the third expedition filled the Spaniards with rage, and they determined to give battle before Camp Dewey could be reinforced. The trenches extended from the beach, 300 yards to the left flank of the insurgents.

Sunday was the insurgent feast day, and their left flank withdrew, leaving the American right flank exposed. Companies A and E of the Tenth Pennsylvania and the Utah battery were ordered to reinforce the right flank. In the midst of a raging typhoon, with a tremendous downpour of rain, the enemy's force, estimated at 3,000 men, attempted to surprise the camp. Our pickets were driven in and the trenches were assaulted.

The brave Pennsylvania men never flinched, but stood their ground under a withering fire. The alarm spread, and the First California regiment, with two companies of the Third artillery, who fight with rifles, were sent to reinforce the Pennsylvanians. The enemy were on top of the trenches when these reinforcements arrived, and never was the discipline of the regulars better demonstrated than by the work of the Third artillery under Captain O'Hara. Nothing could be seen but flashes of Mauser rifles. Men ran right up to the attacking Spaniards and mowed them down with regular

The Utah battery covered itself with glory. The men pulled their guns through mud axle deep. Two guns were sent around in flank and poured enemy. Not an inch of ground was lost, but the scene in the trenches was one never to be forgotten.

During flashes of lightning the dead and wounded could be seen lying in blood red water, but neither the elements of Heaven nor the destructive power of man could wring a cry of protest from the wounded. They encouraged their comrades to fight and handed over their cartridge belts.

On the night of Aug. 1 the fight was renewed, but the enemy had been taught a lesson, and made the attack at long lange with heavy artillery. The Utah battery replied, and the artillery duel lasted an hour. On the night of Aug. 2 the artillery duel was renewed.

In Sunday night's skirmish the following were killed: Corporal W. E. Brown, of the Tenth Pennsylvania; Private Brady, of the Tenth Pennsylvania; Private Bowker, of the First Wyoming: Privates Hull, Noss and Stillwagon, all understood to be of the Tenth Pennsylvania; First Sergeant Morris Just, of the First California; Private Dawson, Battery K, Third artillery; Private McKelrotn, Battery A, Third artillery; Private Winfield; Battery H. Third artillery.

On Monday night Private Springstead, of the First Colorado, was killed. Last night (Tuesday) the following were killed: Private William Lewis Roddy, of the Twenty-third infantry; Private R. Bowers, of the signal corps; Private Fred Buckland, of the Thirteenth Minnesota.

Some of the wounded in Sunday night's skirmish were struck by shrapnel.

The American dead were buried next day in the Convent of Maracaban. No attack has yet been made on the Spanish line, but the Americans now occupy the trenches formerly held by the insurgents.

Although the engagement scarcely attained the importance of a battle, it thoroughly tested the quality of the United States troops and had an excellent effect, stimulating their zeal and enthusiasm, and inspiring them with confidence.

The Spaniards, whose losses in the engagement are not known, are adopting tactics intended to irritate the Americans. Every night they maintain an annoying fire. They have now got the true range of the earthworks, and their shell and shrapnel fire is very accurate.

General Macarthur's brigade, which arrived Sunday, is landing today through the heavy surf. Nothing more serious than a thorough wetting has occurred as yet, although the operation is not without considerable danger. Hardly any cases of sickness are

reported. The insurgents rendered no assistance, but retreated on the first shot. It is believed that General Aguinaldo, aware of the Spanish intentions, moved his men away.

AMERICANS PRAISED.

Complimented by an English Correspondent on Their Demeanor. London, Aug. 10 .- The correspondent of The Times at Cavite, under date of Aug. 1, says: "Yesterday I visited

Camp Dewey and the American intrenchments before Malate. Captain Grant and Captain Young, of the Utah artillery, were busily throwing up advanced breastworks for guns, under protection of the Nebraska volunteers. From the upper floor of a European house, facing the alignment of the earthworks, I was observing the Spanish positions, when a Nebraska sharpshooter beside me fired the first shot discharged by the Americans upon the Spaniards, who were crouching into the forward trench.

"This was contrary to General Merritt's orders. He had forbidden an aggressive attitude unless the Spaniards advanced. The insurgents, now in force inland on the right of the American lines, also opened fire, the Spaniards replying briskly with quick firing guns and rifles, but their shooting was high and their shots fell half a mile behind the entrenchments, where a Colorado volunteer picket was hit by a Mauser

"Personally, I was impressed by the onchalant demeanor of the Americans in the fighting line. They were like while groups lying in the second line were playing cards. Had the Spaniards, who were unaccountably non-aggressive during the American landing and advance, dropped shrapnel from Malate fort they would have wrought terrible havoc, one house forming a conspicuous mark, being within easy gun

"The return to camp was exciting, but was effected without mishap. The natives follow the American advance, ccupying the houses within the fighting line. General Aguinaldo's guerillas caused the Americans considerable trouble. While I was in camp information was received that a party of California volunteers, engaged in felling timber, had been arrested by the insurgents. Colonel Smith, under General Greene's instructions, ordered out an armed detachment, which released the prisoners and brought the insurgents into Camp Dewey. General Greene sent a message to General Aguinaldo saying that if the Americans were further molested he would disarm the whole Filipinos."

GRAND REVIEW OF TROOPS.

Forty Thousand Men in a Military Pageant at Chickamauga.

Chickamauga Park, Ga., Aug. 10.-Not since General Sherman reviewed the grand army at the close of the civil war has there been such an imposing and magnificent military pageant as that witnessed on the historic fields of Chickamauga. Park yesterday. An army of 40,000 men took part in the great review. The regiments were graded by divisions, and each division was accompanied by its ambulance train. At 8 o'clock all the commands formed in line of regiments in columns of masses

At the firing of a gun at 8:30 a. m the commands turned out in light marching order, headed by General in a destructive enfilading fire. The Frank's division, and proceeded in enemy was repulsed and retreated in | the direction of the reviewing stand in disorder. Our infantry had exhausted the open near Snodgress hill. As Genits ammunition and did not follow the eral Frank's division came into the open the regiments moved forward in the order which they are brigaded, and passed the reviewing stand, company at a time, until the whole army had passed in review. The movement began at 8:30 a. m., and it was 12:30 p. m. before the last company passed the stand.

> The magnificent spectacle was wit nessed by a large crowd of spectators, who were thrilled with the scene as the regiments marched by in the most perfect order, keeping time to the martial strains of a score of regimental bands and field music organizations. It was a scene rarely witnessed in the history of a nation, and the cleverness and the skill with which it was carried out was a high compliment to both the men and officers in command. General Breckinridge was no less pleased and gratified than the specta-

TWO NAVAL CHANGES.

Sigsbee Goes to the Texas and Goodrich to the Newark.

Washington, Aug. 9.-Two important changes in the command of vessels of the navy were announced last evening by Secretary Long. Captain Charles D. Sigsbee, who commanded the battleship Maine when she met her fate in the harbor of Havana, and who has been in command of the auxiliary cruiser St. Paul since the war began, has been ordered to relieve Captain John W. Philip of command of the battleship Texas, now undergoing repairs in New York. It is understood that Captain Philip will be assigned to shore duty, probably the command of the Mare Island navy yard at San Spain.

Francisco. Secretary Long announced also that Captain Caspar F. Goodrich, of the auxiliary cruiser st. Louis, had been ordered to the command of the Newark, Commodore Watson's new flagship, to succeed Captain Albert S. Barker, who has been transferred to the battleship Oregon on account of the illness of Captain Charles E. Clark.

Suspension of Naval Enlistments. Washington, Aug. 10 .- An order was isgued by the secretary of the navy suspending the directions to make unlimited enlistments for the naval service. The navy has now an enlisted force of 27,067 men and apprentices, an excess of 17,067 over the legal strength in time of peace. Secretary Long will probably recommend to congress that the limit of enlistment be fixed permanently at 25,000, and it is understood that he will urge legislation providing for enlarging the marine corps.

Two More Prize Vessels.

Key West, Aug. 10.-Two Norwegian steamers have been added to the United States' large collection of war prizes. They are the Aladdin, captured by the auxiliary gunboat Hawk, off Cadiz light, Isle of Pines, on Saturday last, and the Bergen, taken by the auxiliary gunboat Viking, off Francis Key, on Sunday. Both steamers were seized without difficulty, and were brought in here by prize crews, respectively under the command of Ensign Schoffeld and Lfeutenant C. B. Belles.

SPAIN'S PEACE TERMS.

Answer to President's Conditions Presented at Washington.

CONFERENCE AT WHITE HOUSE.

Its Outcome Unknown, But the Opinion is That the Matter is Still Open, and That Another Reply From Spain Will Be Necessary.

Washington, Aug. 10 .- More than 24 hours after it had begun to reach Washington, the Spanish note in answer to the president's peace conditions was presented at the White House by the French ambassador. What the nature of the answer was can only be conjectured at this stage, the secretary of state at the conclusion of the conference making the formal statement that nothing whatever could be said upon the subject. The comference lasted an hour and 25 minutes. This prolonged discussion was believed to indicate that the Spanish answer was not satisfactory in all respects, though in just what points it fell short of meeting the expectations of the president it is impossible to say.

It was felt by the observers that had the answer been a complete acceptance of our terms the result would have been made public. On the other hand, it would be a strained inference to conclude that the answer was unsatisfactory entirely, for in that case, according to the president's statement heretofore made, his offer would have been definitely withdrawn and the war resumed with greater energy than before. It would seem that there could scarcely be a good reason in this case for withholding the result of the conference. On the whole it is rather to be concluded that a middle result was obtained, that Spain was found to have attached certain conditions to her acceptance of the president's terms, but that the latter was not disposed to regard the injection of the new matter as sufficient in itself to warrant an immediate termination of the peace negotiations. According to this view, the president has taken exception to some of the Spanish conditions, but has allowed a last opportunity for them to be withdrawn or modified.

The Spanish reply is said to be divided into five points or heads, namely: Cuba, Porto Rico, Ladrone Islands, occupation of Manila, and appointment of a commission, which are treated in the order named. So far as could be learned no mention is made of the Cuban debt. The retention of arms and ammunition by the Spanish troops comes in for indirect reference under

the head of Cuba. In the absence of an official statement it is impossible to give the Spanish position on the several American conditions. But the following is from the best information obtainable: In treating each subject-Cuba, Porto Rico, Ladrones, Manila and peace commission-an acceptance in some cases is understood to relate to conditions somewhat different to those laid down by the American government. As to Cuba, the American terms demanded the evacuation of the island, without specifying the future form of govern-Spanish reply is said to accept the principle that Spanish sovereignty over Cuba will terminate, but it is understood to take up the future government of the island, and, because of the extent of Spanish interests there, it is said to take the view, either express or implied, that the United States should administer the affairs of the island. As to the time of evacuating Cuba, this is a detail which the Spanish reply is said to regard as among many which can be left to the commission for final determination.

The American conditions as to Porto Rico, the Ladrones, Manila, etc., are believed to be accepted, but the topics are treated at some length, and it will require the full text to show how far the language used may be construed as an acceptance. The provision as to the commission is assented to. The commission is to consist of five commissioners on each side, with Paris as the probable meeting place. The Spanish reply is said to develop somewhat the scope of the commission, leaving to it not only the determination of the future of the Philippines, but also the details involved in the arrangement of lasting peace.

The outcome of the conference is unknown, but the best opinion obtainable is that the matter is still open. that Ambassador Cambon will report to Spain the results of his efforts and the desires of this government, and that another reply from Spain as to some details will be necessary to a final conclusion. There were just four parties to the conference-President McKinley and Secretary of State Day on one side, and M. Cambon, the French ambassador, and his first secretary of legation, M. Theibaut, presenting the case of

MILES HAS ENOUGH TROOPS.

Advises That No More Soldiers Besent to Porto Rico.

Washington, Aug. 10.—The feature of yesterday's news of the war department was the cable from General Miles stating that he did not need reinforcement and advising that no more troops be sent to Porto Rico. The effect of this dispatch was to stop the embarkation of troops at Newport News and to stop General Wade's corps from sailing. The disposition of troops which are not now needed for active service was considered at once by the department officials

Some of these troops will be sent north where they will be in a cooler climate and stationed at camps which are under consideration, but which have not yet been definitely selected.

Investigation of a number of places are in progress with a special reference to the health of the camp and water supply. It is believed by the authorities that good water will go a long way toward maintaining the healthfulness of the troops. Some regiments will be removed at once, and those which cannot be moved probably will be ordered to proceed upon practice marches, the object being to scatter the troops as much as possible and to receive the several camps from the effect of concentration.
