A CORRECTION:—The words which were most important in Rev. Mumma's farewell text, the type setter one way or the other, overlooked. The following was his suitable text: "The grace of our Lord Jesus Christ be with you." Rom. 16: 20.

Two parties of our burg hunting chestnuts—A reverend of our burg, who, evidently, is a lover of our beautiful mountain scenery has, recently, considered it as much of a duty as a privilege to go and enjoy what Nature has so beautifully fashioned in our immediate vicinity. While inhaling the fresh mountain air, which was stimulated by his work, evidently he did not suppose, in order to remain by himself, that he was obliged to measure the strength of the muscles of his legs, in order to keep himself a desired distance from the ones pursuing. He was obliged to bring into rapid motion all the stored-up energy. The pursuing ones were going at such a velocity that all was vanity, and of course, in a few moments the reverend was overtaken with great surprise. The reverend, for a joke, wanted to keep from the pursuing ones, and the ones pursuing, for a joke, were determined to overtake the good reverend, and of course, as a result, the determined ones were the happy prize winners. This may be a good illustration of determination for the good reverend.

Madisonburg.

The persons on the sick list all appear to be improving.

The farmers of this community are beginning to husk corn. There appears to be a good yield this year.

There is always room for improvement this we can readily see when we notice the improvement made upon our sidewalks. The public in general appreciate the step taken.

Since correspondent No. 1, is not very prompt in reporting for our town and vicinity, it may be well for me to send in a few items and inform you as to No 1's whereabouts. The public knows that we have had hot weather for some time, and when the thermometer is up to 70° and 80°, Fahrenheit some people are very apt to resort to a cozy apartment which is kept so by some other party unlike themselves. But as we have just mentioned of No. 1 whereabouts we would like to rectify some misrepresentations that he has thrown out in the past and seems to be inclined to pursue in the future. The citizens in general have been misrepresented in many ways and I would like to call attention to matter sent to "The Centre Democrat" attacking our schools. I contend that we have an intelligent class of people in this vicinity, people who are capable of judging who would be qualified for the office of school director, and this correspondent has sent in matter to be published which is an insult to every voter, and a disgrace to our community. If this person probably would have utilized more of his time and attended our schools when he could have done so, and learned to be a man he would have never written such items for a county or any other paper. It shows disrespect for the community in which he lives. I would just call attention to the items of June 25 if you wish to see a good description of him. He seems to know what he is exactly, and when people make remarks about him he feels hurt. If these be witty and humorous writings, as he calls them, what is slang?
