The Driver and The Mule. The Lock Haven Democrat, Saturday says:-Last evening while the students of State College were waiting at the P. and E. crossing for the down town car, they employed the time by giving the college yell, making sport of passers by and playing "high jinks" generally. A man driving a long eared mule came along, and the driver and the animal was made the special object of their sarcastic remarks. The driver stopped the animal, looked his tormentors in the faces, and pointing at the mule, yelled: "Boys, don't you think you ought to be ashamed of yourselves to make fun of your poor brother?" The answer was so unexpected that the students were taken off their guard and were speechless until the driver and the mule drove out of sight.

A Departed Father. Mr. Samuel Condo, one of the oldest residents of Miles township, died at the home of his son, in Lock Haven, at half past eleven o'clock on Wednesday night, Nov. 2. The deceased passed away after being confined to his bed three weeks by a paralytic stroke of the bowels. He was a highly respected citizen, a kind and loving father and was a member of the Lutheran church. He was a blacksmith by trade, at which employment he worked from an early period in life and became skillful in the same. He was born in the year 1826 near the present limits of Woodward and his life had therefore been preserved 78 years. A son and four daughters survive him, namely: Cook Condo, of Lock Haven; Susan Gollatz, of Bremen, Ind.; Candace Weber, of Rebersburg; Joanna Genzel, of Sober; and Margaret Grieb, of Booneville. Interment was made in the cemetery at Rebersburg on Saturday. The funeral services being conducted by Rev. Mumma.

Information Wanted. Last Saturday a "special edition" of the Centre Democrat was issued and mailed to all our subscribers. It consisted of a page, printed on two sides. Every subscriber in Centre county should have received one at least by Saturday evening. We now have evidence that some postmasters did not give this out, as it contained important campaign matter. This is a serious violation of the postal laws and we propose to inquire in this matter. Any subscribers who did not get a copy of this special edition will confer a favor by informing us at once.

Game of Foot Ball. On Friday and Saturday several large delegations of college students and others went down to Williamsport to witness the game of foot ball between Bucknell and State. This annual event always attracts attention and large attendance. As usual the State team came home with victory perched on her banner; to them anything else than a beat by Bucknell. This score was 16 to 0. Business Change. The milling firm of Gerberick, Hale & Co., has been dissolved by the Hale estate withdrawing from the firm and in the future will be conducted by C. T. Gerberick and son Harry, under the firm name of C. T. Gerberick & Son.

FOOD TOO VILE FOR A PET DOG.

The Awful Condition at Camp Thomas Exposed.

WHITEWASH WON'T COVER.

Company B Was at this Point and Endured Some of the Hardships-How a Patriotic Administration (?) Cared for the Men.

During the recent campaign our readers were especially interested in the progress of the battle in this state. General news and even matters relative to the late war lost their attractiveness. During all this time the commission, appointed by President McKinley to take testimony relative to the abuses in the various camps and departments, has been at work. Some of the most startling testimony was produced confirming the accusation that there was too much incompetency due to political jobbery and favoritism in the conduct of the war. The commission has been getting some startling information.

Company B, of the 5th regiment, was stationed at Camp Thomas and the boys suffered much. On Monday testimony relative to this camp was taken before the commission in Chicago. The following is a summary of their testimony: General Dodge, Colonel Sexton and Dr. Conner, of the war investigating commission, Monday, began the examination of witnesses at the Auditorium hotel. Dr. Lewis Schooler, of Des Moines, Ia., who was stationed at Camp Thomas as chief surgeon of the Second division, Third corps, testified that at the opening there were practically no facilities for the care of the sick; that they were short of medicines and had no apparatus by which the stewards could prepare the medicines; that there was a scarcity of beds in the hospitals, and that at one time practically half the nursing force were sick or in the guard house for insubordination.

In regard to the water supply at the camp, he stated that he did not think any of the surgeons in his division considered the water fit to drink. Dr. Milo B. Ward, of Kansas City, Mo., who was a brigade surgeon at Camp Thomas from July 12 to September 1, said that there was a great lack of medicines, only some of the very simplest kind being on hand. "The food which was furnished the men," said he, "I would not want to give my pet dog." He stated he knew of several cases where patients were allowed to lie out on the ground the whole day, and also during the night before being taken to the hospital. He said the second division hospital of the Third army corps had for its surgeon a man who never paid any attention to it whatever. His name was Hoff. The division surgeon seldom visited the hospital or paid any attention to it. His name was Jenney. There were not enough doctors at any time to take care of the patients, and the nurses were never competent in any sense of the word. "Once when I was physically exhausted and not able to do the work Hoff said, 'I don't care a damn for you, sir; you are only one man; you are invaluable in the hospital, and I cannot spare you.'" In reply to further questions Dr. Ward said: "Necessities were not available from the army supplies, and had it not been for the Red Cross some of the soldiers would have starved. Requisition after requisition was forwarded, and yet no relief came.

Chestnuts for Winter Use. A good plan for storing chestnuts for winter use is to place a small quantity of salt in the bags with the nuts. They will then become soft and sweet, and any worms which happen to be among them will be driven out. The bags will become covered with sweat caused by the salt, but this will not impair the quality of the nuts in the slightest degree. This plan is followed by many persons and is considered one of the best.

"The Hustler" A new paper, "The Hustler" was started recently at Howard, Pa., the first copy of which was issued the past week. It is a six-column four-page sheet and published by Fred Dunham, who formerly conducted the "Hornet" which lost its stinger and died. Fred is determined to make this venture a success and has made a good start. The new paper supports the republican ticket.

Killed at Williamsport. Saturday night at Williamsport, Koscoe Collins was at the station to see the Bucknell foot ball team leave. He made an attempt to jump on the train but was thrown off and fell under the wheels. Both legs were crushed and he died Sunday morning.

Good Cure. A young lady recently sent twenty-five cents to a Chicago advertiser for a recipe to whiten and keep the hands soft, received this reply: "Soak them well three times a day regularly in dish water, while your mother rests."

Thoughtful Girl. It is said that a West Moshannon girl who was recently married, is such an excruciating neat housekeeper that she opened an eight day clock with insect powder to get rid of the ticks.

FOUR DAYS OUT.

The Woods Down the Bald Eagle Valley Scoured for Small Game.

With William A. Bouse as captain of the gang and Theodore VanCoyoc and Johnny Horner lieutenants, a party of six men-big, full grown fellows-hunted four days last week. The names of the other chaps are Ogle Burley, Geo. Bouse and James Wharton. They began the business Wednesday morning and quit Saturday evening. Each morning they left Tyrone and went down the Bald Eagle valley, and regularly each evening came back home to roost over night. They had lots of fun, and made themselves plentiful in the woods adjacent Mattha, Port Matilda and Hannah. Their catch each day is not mentioned but, as a grand total for the four days, the proceeds footed up thusly: Thirty-five rabbits, three pheasants and a lone one woodcock, making six and one-half pieces for each in the whole time, or an average of a little more than a piece and a half for each fellow each day.-Tyrone Herald.

SEND IN THE NEWS.

During the past two months, the correspondence feature of this paper was neglected somewhat by the demands of the campaign. People were more or less interested in politics. That is all over now, the vote is cast, the result is known. Everybody is settling down to business. We want to have the news of your town and community published regularly in the Democrat. For that reason we hope our regular correspondents will gather up the news as heretofore and send it in. We want it and will publish same. If your community has no regular correspondent have some one do it.

Bishop McGovern's Successor. A successor to Right Rev. Thomas McGovern, bishop of the Catholic diocese of Harrisburg, Pa., who died a few months ago, will shortly be chosen by the vatican. As is usual in such cases, three names have been sent to Rome. They are Very Rev. John J. Koch, D. D., vicar general of the diocese and pastor of St. Edward's church at Shamokin, Pa.; Rev. Dr. Thomas F. Kennedy, of Overbrook, Pa.; and Rev. Michael J. O'Reilly, of St. Joseph's church, Danville, Pa. Father Koch is a German and an old friend of Monsignor Schroeder. The names were submitted in the order named, but this order is not always followed in making appointments, and it is the opinion of those well informed that the choice will probably fall on Rev. Father O'Reilly.

The firm running the tannery have been in business for several years and came to Lock Haven from Mifflin county.

THE MAN WHO LIVED.

He should have been dead. But he wasn't, because

"There's nothing succeeds like success." There is no withstanding the living argument of the man who should be dead, but who isn't dead, but who would be dead, but for a preserving medicine. That's about the way it seemed to strike Editor Lawrence, of the Ohio Farmer, Cleveland, Ohio. He was afflicted with one of those colds that have, thousands of times over, culminated in consumption, when not promptly cured. In this condition he met a friend, a consumptive, whom he had not expected to see alive. The consumptive friend recommended Dr. J. C. Ayer's Cherry Pectoral for the editor's cold, on the ground that it had "helped him wonderfully." It helped the editor just as wonderfully, giving "almost instant relief." But read his letter: "About two months ago, I was afflicted with a bad cold, and, meeting a friend, he advised the use of Ayer's Cherry Pectoral which, he claimed, had helped him wonderfully. As he was a consumptive, whom I had not expected to see alive for several years, I concluded there must be merit in this preparation. I accordingly bought a couple of bottles, one of which I keep on my desk all the time. This is certainly the best remedy for a cold I ever used. It gives almost instant relief, and the J. C. Ayer Co. are to be congratulated on possessing the formula for such a very valuable remedy."-W. H. Lawrence, Editor, The Ohio Farmer, Cleveland, Ohio.

Keep a bottle of Dr. Ayer's Cherry Pectoral handy, on the desk, in the office, on the shelf or in the closet at home, and you will have at hand a remedy that is capable at any time of saving you suffering, money, and even life. There is no medicine so prolific of evil results as a neglected cold. There is no medicine so promptly effective in curing a cold and absolutely eradicator of its effects, as Dr. Ayer's Cherry Pectoral. Every traveller should carry it. Every household should keep it. It cures every variety of cough, and all forms of lung and throat trouble. Asthma, bronchitis, croup, and whooping cough, are promptly cured by it, and it has in many cases overcome pulmonary diseases in aggravated forms, when all other remedies failed to help and physicians gave no hope of cure. Those who for convenience have wanted a smaller sized bottle of Dr. Ayer's Cherry Pectoral, can now obtain it of their dealer in half size bottles, at half price-50 cents. Send for Dr. Ayer's Curebook, and read more of the cures effected by this remedy. The book contains 100 pages, and is sent free, on request, by the J. C. Ayer Co., Lowell, Mass.

Zion. The election passed off very quietly. Edgar Lutz and Wm. Shaffer started for the Allegheny mountains to hunt. Miss Pearl Noll, Minnie Twitmyre, and Ralph Noll Sundayed in our town. Rev. Bickle, minister of the Reformed church, has organized a catechetical class. George Royer, who visited his parents for two months, left last week for Dakota, Ill. Messrs Ralph Wagner and John Smith, of Reedsville, spent Sunday at the home of S. E. Showers. Mrs. Noll, of Pleasant Gap, is spending a few days in our town as the guest of her son, Boyd Noll.

Mr. Orwick has finished sawing wood on the Decker track, and has moved his mill on the Joel Struble track. He has also taken in a partner, C. H. Kryder, as half interest in the mill. A great many of the people are butchering in this community. They are trying to get ahead of the cholera. Lyman Bickel has lost 22, which is his entire hog stock. James Hill has also lost ten or twelve. The other farmers have also lost quite a number. We would again call the attention of our school directors, and also of our county superintendent to the condition of the Zion school. We have the compulsory school law and we would like to know if there is a law to compel parents to send their children to school, and for eight hours each day have them sit on a bench without a back and not any desk, and 68 pupils packed in a house that is hardly large enough for 30. It is injurious to the pupil's health and we are only wasting our taxes. We are well aware that a teacher can not do justice to so many pupils. If the directors will not do anything to better the condition of the school very soon we will kindly ask the Court to help us.

Milesburg. Mr. Russell and wife, of Dayton, Pa., were the guests of Simon W. Neyhart and family. Also Mrs. Mary McCauley, of Petersburg, visited her aged aunt, Mrs. Robinson, who is now making her home with Mr. Neyhart's family. Henry T. Ryman, after an illness of six years, died on the 31st of October and was buried in the old cemetery. His burial was accompanied by the honors of Odd Fellowship. He was a member of Bald Eagle Lodge No. 410, I. O. O. F., for 48 years, he having joined the lodge in 1850 and remained a member in good standing until he died. John A. Confer with his daughter Mary left for Philadelphia on Saturday. A correction is due to the surviving children of H. T. Ryman. In the last issue of the KEYSTONE GAZETTE and Centre Democrat they stated that Mary E., second daughter of the deceased, was married to Harrison Long. It should have read Harrison Levi, not Long. Mary died in the West. Two children are left-James, H. T. and Jane C.-of his family. Mrs. Nancy Cullen left for Portage, her present home, after a two weeks' visit with her parents, Wesley Crain and wife. Miss Gertie Showers, of Bellefonte, spent Saturday with Miss Alma Gingher. Miss Alma returned her call and spent Sunday with Miss Gertie. Harry Gingher and family, of Burnham, were guests of his parents, John I. Gingher and wife, on Sunday and Monday.

From New Zealand. REEFTON, New Zealand, Nov. 23, '98. I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children. E. J. SCANTLEBURY. For sale by F. Potts Green, Bellefonte.

FACTS ABOUT HEALTH. It is Easy to Keep Well if We Know How-Some of the Conditions Necessary to Perfect Health. The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food. The blood is employed to carry nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. No medicine has such a record of cures as Hood's Sarsaparilla and it is because it is the one true blood purifier. Hundreds of people are alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine by thousands. There are only the only pills to take with Hood's Sarsaparilla.

"Just as Good"

as Scott's and we sell it much cheaper," is a statement sometimes made by the druggist when Scott's Emulsion is called for. This shows that the druggists themselves regard

Scott's Emulsion

of Cod-Liver Oil with Hypophosphites of Lime and Soda as the standard, and the purchaser who desires to procure the "standard" because he knows it has been untold benefit, should not for instant think of taking the risk using some untried preparation. The substitution of something said to be "just as good" for a standard preparation twenty-five years on the market, should not be permitted by the intelligent purchaser.

Be sure you get SCOTT'S Emulsion. See that the man and fish are on the wrapper. 50c and \$1.00, all druggists. SCOTT & BOWNE, Chemists, New York.
