Winter is here, in full blast. A number of our people are taking advantage of the sleighing. The butchering season is about over, now for "paw-haus and liverwurst."

We wonder what attraction "Francis" has over about the mountain church. Christmas entertainments seem to be on the decline, in this section, this year.

Commercial men are quite numerous in our village, drumming up holiday trade. Our calithumpian band must be anticipating a wedding this week yet, the way they are getting things in shape.

We don't believe that "Gillmore's famous band" would be capable of playing all the airs that some of our old maids put on.

H. H. Mark, who spent the summer working on a farm at Aldera, Pa., came home to spend the winter months under his parental roof.

We have some women in our section who have no business of their own to mind, and make gossiping one of their pastimes. In comparison with the bottom number of a fraction, the bigger they try to be, the smaller they stand for really is.

Since our last communication, our little yet historic village has made some wonderful strides in the way of enterprise. J. C. Condo, proprietor of the Penn Hall carriage works, built a large and very commodious addition to his coach shop. Mr. Condo is doing a rushing business and is now able to meet the demands of his extensive trade.

While T. S. DeLong was in Bellefonte, he probably forgot that he was not in Robb's store, telling his wonderful adventures. Now we would advise Mr. DeLong not to go so far away from home to tell his big ones, or some of his statements might be doubted.

We came near having a fire in our town last week. The second floor of Wm. Robb's house caught fire and burnt a place about three feet long and two feet wide before it was discovered by Mrs. Robb, who smelt the smoke. They succeeded in extinguishing it without much difficulty.

Cards are out for the wedding of one of our fair ladies, which is to take place near Christmas. Now girls, who do you suppose it is; ask "Seldom Dowell!"

Business is great at this place since the election of Stone. Three hay bailers in town at present. The next thing we are looking for is a "Stone" crusher.

"Seldom Dowell" had better lay low, and not be so free in giving his address; for if all threats are carried out that some of our people have made (if they find the chap) he seldom would be able to do well.

Runville can boast of a printing press. The first issue appeared in the post office last week, in the form of a letter. When done, he was so ashamed that he was tending some one else's business instead of his own, that he did not sign his name. As none has appeared this week, I guess it is a failure, for the poor editor could not stand the smell of the ink.

One of our citizens seems to be in great trouble about the welfare of his neighbor J. If you are afraid they will not have sausage enough to last during the cold season, why not share with your neighbor. The writer would call that brotherly love.

We have some people in our community, who do not know correspondent No. 2, and they went so far as to go to Bellefonte and ask the editor who it was. We are glad to say that he has said enough not to leave the cat out of the bag. Friends, this is true friendship.

We have a man not far from here that does not properly provide for his family. He also quarrels with them all the time and says they do not offer him anything to eat. What good would it do him if they would offer him anything, if it was not there for him. This man might improve his providence by being slightly published, but will not mention his name with a hope that he will reform.

Your Danger Now

Is from the overworked condition of the liver and kidneys which are unable to expel impurities from the blood. This causes rheumatism. Hood's Sarsaparilla has been wonderfully successful in curing this disease. It neutralizes the acid in the blood and permanently cures the aches and pains which other medicines fail to relieve. Hood's Sarsaparilla is the best winter medicine because it purifies, enriches and vitalizes the blood. It gives help just where help is needed. It tones the stomach, stimulates the liver, and arouses and sustains the kidneys. It wards off pneumonia, fevers, bronchitis, colds, coughs and the grip.

The protracted meeting, in the M. E. church, has been in session for the last three weeks. The result being the conversion of six. Monday evening an opportunity was given for anyone desiring to join the M. E. church, which resulted in the addition of five persons out of the six converts. We have a good spirit of Methodism here.
