Miss Tracey Leathers and Messrs. Chas. Bower, Leonard Leathers and H. W. Reeder called on Mrs. Butler on Saturday evening to bid her farewell. She returned to her home in Philadelphia on Monday.

The debate at this place, on Wednesday evening, was very interesting. All took an active part, and was ably discussed on each side. The question opened for general discussion, was ably discussed by some of the young talent.

Franklin Dietz says he once owned a cow which would bawl all day, so he took to asking God, in his prayers, to take away the cows voice. His prayers were answered, and now the cow goes through the motions but can make no sound.

On Thursday evening our corps of debaters and many members of our society went to meet their antagonists at Fair View. When the party reached there, the house was full. The debaters were all placed in a row on the platform and the members of their society were very friendly. After preliminary work of the society, the judges were chosen and the debate "resolved, that the sailor deserves more praise than the soldier," was opened by one of our speakers. They saw at once, although our debaters were but boys that they had something to battle with. Throughout the debate our side produced able argument, and in a very oratorical manner. The opposing debaters were all older and produced lots of points. After the debate the judges made their decision, deciding in our favor. We were then favored by two recitations which were well rendered. The Mt. Eagle male quartette sang "Susan Brown," which won great applause. Their members certainly treated us very cordially and we hope that when they return the call on next Friday evening, we will be able to treat them, as they did us, like gentlemen.

Dangers of The Grip.

The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy the la grippe we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by P. Potts Green, druggist, Bellefonte, Pa.

The blacksmiths had about all they could do the past few days roughing horses, and some of the farmers could not get their horses out of the stable; it was too icy.

Since we have so much ice, our people have become very thoughtful. We see them stopping to think, and some even sit down to think. One of them was Mr. Bottorf, who sat down on his coat tail and kept thinking until he had gone about 100 feet. He went back to the house and has not been out since.

ODD FELLOWS BANQUET.

On Friday evening, Feb. 3rd, the Odd Fellows of Lemont Lodge No. 717 gave a banquet to their wives and friends at the home of Mr. Nathan Grove, of near this place. The night was dark and the footing uncertain and the rain was falling gently, but this did not keep many away, for about 90 were there.

Master of ceremonies, W. E. Grove, called them to order and after singing "Labor On," and scripture reading by J. A. Williams, W. E. Grove led in prayer. Nathan Grove then gave all a hearty welcome to his home, and said he hoped all came for enjoyment and that they all would enjoy themselves.

J. J. Dreese responded to this hearty welcome very ably. Mr. Dreese is quite an orator, and would make a first class senator to represent us. This was followed by recitations, by Frances Woodring entitled, "The Little Hero;" Mamie Grove entitled, "Got Up The Wrong Way;" and Helen Dreese entitled, "Paul Revere's Ride." All the pieces were spoken well, and were well received by those in attendance.

After this, we had supper which consisted of oysters, coffee, cake and ice cream, and to which all did justice. After music by Wm. Hoy and family, and quite an interesting talk by William Fry, of Pine Grove Mills, the people departed for their several homes. All agreed that they had an excellent time.

We forgot to mention in a previous issue that our genial ticket agent, Geo. B., had purchased a new bike which we suppose will prove a very useful article to him, when the road to Unionville gets in good shape. Geo. is a good fellow, and we wish him unbounded success down that way.

One of our leading merchants offered a certain young man of this town an elegant pair of suspenders, providing he would escort a certain young lady to the concert last Thursday evening and sit with her. The young man was not to be bluffed, for he made his appearance at grandma's residence, promptly on time, and the happy young couple wended their way to the hall, where they seemed to enjoy themselves. We do not know whether Dannie received the suspenders yet or not, but we do know that he had better keep a bright eye on grandma.

INSTITUTE NOTES.—The attendance at Farmer's Institute was remarkable. Notwithstanding the inclement weather, the town hall was crowded every session. The number of queries in the box at all times, and the discussions in answering them showed that our farmers are interested in their work. Maud L. Stover and Paul Romig gave good recitations during the institute. The committee on decorations, had beautifully decorated the town hall with evergreens, flowers, plants, fruits, vegetables, etc. The order throughout the entire institute was most excellent.

The slippery weather made a harvest for J. C. Kockey. It looked like a public sale around his shop on Monday.

There was a wind storm in our town on Monday. Harry Marshall was caught in it, but no damage was done to buildings.

It does not look well for a man to go to Bellefonte himself, and then have some one lead him home. I will not mention any names this time.

It is a mean trick for a man not to lift a sample copy of a paper for fear he might have to pay for it, but will get other people's paper to read—it is cheaper the latter way.
