WAR INVESTIGATORS.

Their Report Rebukes Charges of Corrupt Practices.

MILES CHARGES NOT SUSTAINED

The Beef Furnished the Soldlers Was in Fine Condition, and the Commissioners Are Satisfied That No Chemicals Were Used in Preparing It.

Washington, Feb. 13 .-- The report submitted to the president last Wednesday by the commission appointed by him to investigate the conduct of the war department in the war with Spain was made public last night. The report is an unanimous one, all the members of the commission having signed it except Colonel Sexton, whose death occurred Feb. 4. The report is : voluminous document, containing about 65,000 words, and an official abstract prepared by the secretary of the comnission, is in part as follows:

"There has been no evidence before us that any one in or connected with the war department has dishonestly received a dollar. We have made persistent efforts to secure the attendance of persons to whose names rumor had attached an allegation that they knew of corruption of officials in the war department, but these men have either denied the statements attributed to them or have maintained silence when invited to tell what they knew.

'Under existing laws the officers of the army are retired when they reach the age of 64. We have had before us many suggestions made by officers on the retired list, who are men of experience and distinction, that this law should be so amended as to give to the president the right to call into active service any retired officer during a war.' The report then tells of the rapid equipping of the army under adverse circumstances, declaring it "one of the marvels of history," and proceeds:

"One of the lessons taught by the war is that the country should hereafter be in a better state of preparation for war. Suggestions have been made that large supplies of all the material not liable to deterioration should be kept on hand, to be continuously issued and renewed, so that in any emergency they might be available." Perhaps the most significant utterance in the whole document, so far as concerns the discipline and efficiency

of the army, comes next. "The president must have the same power of selection of his general in chief as he has of his secretary of war. Without this there can be no guaranty that he will give, or that the secretary of war will place in the general in chief that confidence which is necessary to perfect harmony. Neither the president nor the secretary of war should have in the command of the army an officer who is not working in harmony with him."

The report now takes up the war department and its various chiefs of subdivisions, begining with the secretary of war. It says:

"The records of the war department which have been laid before us show that the secretary of war extended to all chiefs of bureaus cordial and full company of \$2,000. The attempt failed, support, and promptly responded to | and White fied. every proper demand made upon him by commanding officers.

EX-TREASURER HAYWOOD DYING. Physicians Declare He Can Live but a Few Days Longer.

Harrisburg, Feb. 16 .- Stewart Pearce, of the treasury department, received a telegram last evening from Mrs. B. J.

BENJAMIN J. HAYWOOD.

Haywood, at Sharon, stating that the

condition of the ex-state treasurer is

unimproved, although the patient was

resting comfortably. The doctors de-

clare, however, that he cannot live

more than two or three days longer.

ALL HANDS RESCUED.

Several May Lose Their Ears-Were Without Food or Drink For Over Forty-eight Hours.

Savannah, Ga., Feb. 16 .- Every member of the crew of the wrecked steamship William Lawrence was saved, but only after the greater number of them had suffered terrible hardships. The tugs Cambria and Cynthia came in last evening from the Sea islands of South Carolina, bringing with them Captain A. L. Willis and 13 men, constituting those who have been missing since Sunday morning, when the ship was aliandmind include breakers off Port Revalchard, With Captain Willis were First Officer L. E. Hooper, First As-sistant Engineer Horace Hopper, Quarterinaster' A GBargerson and Seamen PanloQuantz, Mulliam Hauntz, Michael Hayes, Thamaga Bolin, Jake Vawdry, Frank White, Jean Baptist, Charles E. Baldorf and Frank Fuller, and Lewis Leecshouwerday stowaway from Balti-

Captain Willis and his men suffered but Hile less than the crew of Mate Beale's boat. They left the ship at 9 o'clock on Sunday morning. After 12 hours at sea in a blinding, freezing gale, the two boats made land on Capers Island, a desolate and bare little sand spot. In beaching both of the boats were smashed and the men were thrown into the surf. Though almost exhausted and numb, they managed to scramble beyond the such of the waves. What little drining water they had was lost, together with the biscuits. There was no fresh water and extremely little fuel on the island, and no shelter. The captain had a few matches in a metallic box in his pocket. They were found to be dry. Tearing the seats out of the wrecked boats a fire was made under the lee of a sand dune. The boats were of iron, or they also would have been burned. This saved the men from freezing to death.

The men hovered over the blaze during the sleet and snow storm of Sunday night and Monday, when the mercury was marking 8 to 10 above zero. On Tuesday morning one of the boats was patched up and both crews got into it to reach Port Royal. They had been without food since leaving the Lawrence early Sunday morning and without water since Sunday afternoon. Af ter painful efforts they reached Hunting Island. Some soldiers who were stationed there took them in and fed and warmed them. Yesterday the castaways were about to set out for Port Royal in their patched boat, when the Cambria found them.

Captain Willis says that at the time the ship struck the weather was so thick that he could not see half the length of the ship. He says also that something was wrong with his compass. and that the ship was somewhat out White, of Chenango county, New York, of her course. Captain Willis has been in the service of the company for 20 years.

At the hospital it was learned that Chief Engineer Roach would lose one

W. H. MUSSER GENERAL AGENT

UNION CENTRAL LIFE INS CINCINNATI, OHIO. Office on 2nd floor Crider's Stone Block, Bellefonte, Pa.

Crew of the Steamer William Lawrence Landed at Savannah. THEIR TERRIBLE SUFFERINGS. Four of the Men Will Lose Feet and

'No testimony has been presented showing intentional neglect of duty, nor any attempt to serve personal interests. The charges made that the secretary of war was pecuniarily interested in contracts, purchases and other transactions of the war department have been thoroughly examined and found baseless.

"In spite of every effort there were accasions where troops suffered from poor tentage or from lack of tentage and absence of straw for bedding. where clothing was scarce and troops suffered discomfort for lack of shoes, shirts and other articles of apparel.

"The commission has carefully investigated the subject of the condition. quality and quantity of the food supplied to the army. Almost without exception it has been shown by the testimony taken that wherever the troops were ordered, whether to the various camps in the United States, or in Porto Rico, Cuba, and Manila, the rations prescribed by law were on the transports and at the camps with the soldiers.

"On the 21st day of December last Major General Nelson A. Miles, upon the written request of the president of this commission, appeared before it. He refused to be sworn, as all other witnesses had been except one, who affirmed, stating that he would make his statements without being sworn. and was responsible for what he said. He proceeded, and for the first time in the history of the investigation the allegation was made that refrigerated eef issued to the troops had been chemically treated. He proceeded to read a communication from Dr. W. H. Daly, major and chief surgeon United States volunteers, on his staff, bearing date of Sept. 21, 1898, wherein Dr. Daly stated that he found the fresh beef to be 'apparently preserved with secret chemicals which destroy its natural flavor, and which I also believe to be detrimental to the health of the troops."

"Although Dr. Daly swears he informed General Miles about the 1st of August, 1898, that he suspected that the refrigerated beef was chemically treated, it does not appear that the general informed you or the war department that the officer of his staff had made this discovery.

"For months, as it appears, Dr. Daly concealed the knowledge of the commission of crime affecting men under his charge, whom, as an officer and a physician, he was bound to protect.'

The report then tells of having had samples of refrigerated beef examined by government experts, with no traces of acids discovered, declares it impossible for impure meats to pass the government inspectors at the packing houses, and proceeds:

"In view of the facts above set forth the commission is of the opinion that no refrigerated beef furnished by contractors and issued to the troops during the war with Spain was subjected or treated with any chemicals by the contractors or those in their employ."

To Be Admiral Dewey.

Washington, Feb. 14 .- The senate has passed a bill creating the office of admiral of the navy. Rear Admiral Dewey, it is understood, will be named for the office.

jury bill was postponed yesterday by 93 to 92. The bill was reached on second reading shortly after 5 o'clock, and was discussed for more than an hour before this decision was reached. The debate was opened by Mr. McElhaney, of Allegheny, and closed by Mr. Towler, of Forest. The principal speeches were made by Mr. Bliss of Delaware and Mr. Dixon of Elk, both of whom opposed the measure. Mr. Voorhees of Philadelphia was the chief sponsor. Seventeen Democrats voted against the motion to postpone and five Quay Re-

publicans for it. Philadelphia, Feb. 16 .-- The powerful seagoing tug Eureka, the first vessel to force her way up the Delaware through the ice blockade, arrived here yesterday with 19 shipwrecked mariners, eight of whom had been taken from the barge Newport, which was cut through by the ice and sunk in the Swash channel, near Joe Flogger shoal, and from the barge Gibson, which was driven ashore on the Delaware beach behind the Fourteen Foot bank. Off the Brandywine yesterday they fell in with three ovster boats, the Annie Cooney, John Guion and Lafayette, all tightly wedged in the ice. The crew of the former abandoned her and came on board the Eureka. Part of the crews of the other two craft also boarded the Eureka.

A Drunkard's Double Crime.

New York, Feb. 16 .-- George Panzeter, while intoxicated last night, shot and killed his wife and John Goeltz, a cigarmaker, who boarded in the house with Mrs. Panzeter. Panzeter escaped. Seven months ago Mrs. Panzeter had her husband arrested on charges of beating her and failing to support his family, and he was sent to prison for six months. To help defray the expenses of the household Mrs. Panzeter took in as boarders Goeltz and his wife. On Jan. 14 Panzeter was released and returned to his home and begged his wife to take him in. She refused. Last night he again asked his wife to give him shelter. She refused, and the shooting followed.

Cold Wave Strikes Mexico.

Mexico City, Feb. 16 .- The cold wave has struck the gulf coast of the state of Vera Cruz, inflicting much loss to planters. Much damage has been done to coffee, tobacco and vanilla plants. It is not believed that coffee plantations are seriously injured, except the younger ones, as coffee will bear occasional cold. One estimate made by a large planter is that the loss to fruit growers and cattle raisers, coffee and tobacco planters will amount to \$9,000,000, President Diaz has been confined to his bed two days with the grip.

The President in Boston.

Boston, Feb. 16 .- President McKinley and party left Washington for Boston last evening over the Pennsylvania road, and arrived in Boston this forenoon. The party consists of the president, Secretaries Alger, Long and Bliss, Postmaster General Smith, Representative Grosvenor, Mr. Porter and Mr. Cortelyou, secretaries to the president; Major Hopkins and Mr. Thorin, one of the White House doorkeepers.

Harrisburg, Feb. 10 .- The McCarrell foot and all of the toes of the other the house until March 21 by a vote of that Steward Bingle would lose both feet, and that two seamen would lose one foot each. Several of the men may lose one or both cars.

REMEMBERING THE MAINE.

The Wrecked Vessel and the Graves of Her Heroes Decorated.

Havana, Feb. 16 .- The sun shone brightly yesterday morning for the first time in several days, when the wreck of the United States battleship Maine, destroyed in Havana harbor, on the evening of Feb. 15, 1898, was decorated with a large American flag. At 9 o'clock the Stars and Stripes was hoisted at half mast by Captain Eaton, of the United States auxiliary cruises Resolute, who, with Mrs. Estes Rath-

bone and Mrs. Dudley and ten sailors of the Resolute, rowed to the sunken battleship. The only others taking part were a battailion, with officers, of the First Maine heavy artillery.

An immense rope of greens was festooned about the fighting top, each loop hung with laurel wreaths four feeting diameter and tied with red, white and blue ribbon. The Cuban club, of Havana, had placed an artificial wreath on the boat crane, and this Captain Eaton transferred to the peak of the gaff.

At 10 o'clock high mass was celebrated in memory of the Maine victims in the Merced church, at which Major General Ludlow and several of his staff were present. The ceremony, which was very impressive, was attended by Brigadier General Ernst, representing Major General Brooke, Commodore B. J. Cromwell, captain of the port, and other naval officers, city officials and leading Cubans. In the afternoon the graves at Colon cemetery were decorated.

There were no religious ceremonies at the grave. Father Sherman had been invited to read Catholic prayers, but as Protestant clergymen were excluded by the bishop Commodore Crowell decided that there should be no religious ceremony.

TROOPS OFF FOR MANILA.

The Transport Sheridan Leaves New York on a Long Voyage.

New York, Feb. 16 .-- The United States army transport Sheridan today began her long voyage to Manila by way of the Suez canal. As far as supplies went the ship was ready to sail two days ago. The cause of the delay was the blizzard, which snowed in the troops on their way to this city, One battalion of the Twelfth infantry was in Jersey City yesterday and ready to go on board the transport, but the other two battalions of that regiment, as well as the Third battalion of the Seventeenth infantry, did not arrive until today. The troops were brought over from Jersey City and marched on board of the transport as soon as they steady: extra, \$5.5025.75; prime, \$5.2595.50; over from Jersey City and marched on Sheridan sailed away.

soldiers, officers and their families and several nurses. The cabin passengers | 5.20; common to good, \$495.15; veal calves, number 95.

Aguinaldo to resist the American troops troops at Manila. Wednesday, Feb. 15.

The Louisiana bayous are frozen over for the first time since the civil war. The Carlists in Spain vigorously op

pose ratifying the peace treaty. Charles Sommers, Philadelphia's oldest letter carrier, was frozen to death while on his way to work, aged 62.

The governments of the United States and Mexico have agreed upon a new extradition treaty, which is retroactive. Count Tolstoi, the Russian philosopher, declares the czar's disarmament scheme as "only worthy of contempt

and derision." Playing poker in a shanty near Moss Grove, Pa., Juan Ferrio accidentally exploded a keg of powder. The shanty was destroyed and the players blown in all directions, but none were killed.
