GERMAN RECOGNITION

Of Our Claim to Sovereignty in the Philippine Islands.

SHIPS ORDERED FROM MANILA

All German Vessels in Philippine Waters Sent to China and the Lives and Property of German Subjects Put Under United States Protection.

Washington, March 1 .- The German government has set at rest effectually the rumors of a purpose on its part, directly or indirectly, to embarrass the United States in the Philippine Islands, and has given a signal manifestation of its desire to promote the most cordial relations between Germany and the United States by ordering the withdrawal of all vessels of its navy from Philippine waters and placing the lives and property of its subjects there under the protection of the United States government. The action taken is regarded here as a stroke in diplomacy by which will be removed all possibility of a clash between German and American interests in and about Manila and notice to all the world, and especially any Americans who entertained any suspicions of sinister designs by Germany, of the wish and purpose of the German empire to cuitivate the friendship of the United States. By it Germany at once places the protection of all her large interests in the islands almost completely in our hands.

The announcement of this act by the German government came at the close of a day that had been full of sensational rumors of a clash between the Americans and Germans in Manila, the rumors finally going so far as to assert that Admiral Dewey had fired on and sunk a German vessel at Manila. These rumors spread, despite the fact that the cable connectiing Manila with the outer world is in the control of the United States government, so that it might be reasonably expected that the government would receive the first news of any disaster or collision at Manila. Even some of the more cautious naval officers were infected with fear for the i moment, for while they had not the slightest idea that there had been any trouble between the American and German ships, still they realized that there was always the possibility of an accident aboard ship that might result disastrously.

Finally, at the close of the day, it was announced that the German government had ordered their ships away from Manila, probably to their new naval station at Kiachan, on the Chinese coast. The announcement was coupled with the statement that the German vessels were needed there. This may be the case, for the story has come to Washington that the Chinese have been abusing some German citizens almost in the shadow of the Chinese capitol at Tien Tsin. The Germans have come to believe that the only way to meet such cases is by punitive measures, and as Tien Tsin is at the head of the navigation on the Pieho river, just below Peking, it may be the purpose to send some warships up the river to convey an idea of the German displeasure.

It is possible that by assuming responsibility for the care of Germans in the

cept in the most non-committal manner it was evident, both before and after the issue of the midnight bulletin, that hopes have been renewed for Mr. Kipling's recovery. The statement that "the respiratory functions have so far improvel that the use of oxygen is no longer necessary" is taken by the friends of Mr Kipling to be a most favorable indication.

THE WRECKED MORAVIA.

The Crew of the Atjantic Liner Probably Lost.

Halifax, N. S., March 1 .- The overdue steamer Moravia, Captain Fergusen. which sailed from Hamburg for Boston Jan. 18, was wrecked on the northeast bar of Sable Island about Feb. 12. The vessel was first seen on the bar about eight miles from the Northeast light. She was broken in two. The vessel was making her last trip for the Hamburg-American line, having been recently sold to the Sloman line, of New York.

The dominion government steamer Aberdeen, which it is proposed to send to Sable Island to the relief of the Moravia, will not be able to leave Halifax for two days. There is no other means of communication with Sable Island than by boat, as no electric cable has been found able to stand in the shifting sands. The captain of the Gloucester schoone: Nannie C. Bohlin said that when the schooner Arbitrator reported the wreck the latter's captain said that through the haze he could see a steamer's hull high upon the sandbar, with one mast gone and down at the head, as if she were hogged. The location of the wreck is the worst on this dreaded island. The northeast bar extends to sea for 12 miles, and a large part of the time is disconnected with the main islands. It is probably impossible at this time of year to reach the wreck from the life saving sta-

tions except in lifeboats. The captain of the Bohlin says that when he went to the locality where the Moravia had been seen the wreck had disappeared, probably sunk. As 15 days have now elapsed since the steamer was seen on the island, no particular hurry is needed. Mechanics are working day and night repairing the Aberdeen to go to the scene. It is feared the Moravia's crew are lost.

POPE LEO STRICKEN.

THE CENTRE DEMOCRAT, BELLEFONTE, PA., MARCH 2, 1899.

Condition of His Holiness Causes Grave Apprehension.

MALADY SAID TO BE PNEUMONIA.

Already There Is Talk of His Successor, and It Is Admitted That There Is No Possibility of a Foreigner Being Elected.

London, March 1 .- A dispatch from Rome says that the pope has had a prolonged fainting fit. His holiness had a fatiguing day Monday, receiving congratulations on the approaching anniversary of his coronation, and complained of the cold, which has been intense for two days. Yesterday the pontiff complained of a pain in his side. Dr. Lapponi found some fever and ordered the patient to remain in bed and take a complete rest. It is almost certain that the pontifical receptions and ceremonies fixed for March 2 and 3 will be countermanded.

The Rome correspondent of The Daily Mail says: "It is feared the pope has pneumonia and will not recover. Cardinal Oreglia, doyen of the Sacred college, has been in the apartment of his holiness the entire evening."

The Rome correspondent of The Daily News says: "The sudden changes in the weather brought on the pope's bowel complaint, from which he has never been entirely free since last summer, when it was regarded as alarming. This is aggravated by a pain in the left side, near the spleen.

"Intrigues have already begun with regard to a possible conclave, and names of candidates are in circulation. The indications are that the conclave, should it be called soon, would be divided distinctly into two factions. The first is the simply religious faction, supporting Padre Gotti, a barefoot Carmelite monk from Genoa, distinguished merely for learning and piety, who would really have a good chance of success. The second faction, which favors an extenion of the political power of the pope, has three candidates, Cardinal Bishop Luigi Oreglia di Santo Stefano, dean of the Sacred college and carmorlengo of the Holy Roman Catholic church: Cardinal Bishop Serafino Vannutellli, bishop of Frascati and prefect of the congregation of bishops and regulars, and Cardinal-Priest Mariano Rampolla del Tindaro, pontificial secretary of state, arch priest of the Vatican Vasilica and grand prior in Rome of the sovereign military Order of St. John of Jerusalem. All of these are intransigeants, and there is no possibility of a foreigner being elected pope

Philippines the United States govern ment has accepted liability for any damages that may be sustained by the German residents and interests at Manila, but it is possible that the application must have been granted and responsibility assumed anyhow, as it is believed that Admiral Dewey and General Otis had assured the German commander of the Augusta of their ability to protect every interest in Manila as a reason why German forces and marines should not be landed. It is official opinion that whatever the responsibility for damages it will not be too large for the benefit which will accrue. Then, too, this frank action on the part of the German government is calculated to relieve the tension that was beginning to manifest itself.

GERMANY AND SAMOA.

The Kaiser's Government Would Consent to a Clean Separation.

Berlin, March 1 .- The minister of foreign affairs, Baron Von Buelow, in the reichstag yesterday, discussed the question of Samoa, saying that by the general act of 1889 the triple rule of Germany, Great Britain and the United States was established over those islands. If the condominium is wont to lead to unpleasantness this would be still more the case with tri-dominium.

Since the act came into force, he continued, there has been no lack of friction between the representatives of the different powers, which was due to the disorderly character of the population. After referring to the several uprisings the minister continued:

"The final settlement of the succes sion rests with the powers. I refrain from delivering a decisive judgment on the whole course of events in Samoa until the written reports arrive and are closely examined. But I hold strongly to the hope that we shall succeed in disposing also of these latest troubles in Samon, with due protection for German rights and interests, and in a manper which corresponds with the friendly relations existing between the three governments concerned.

"That things in Samoa require readjustment is a principle acknowledged on all sides. It cannot be denied that the tri-dominion has not stood the ordeal. We are prepared on our part to consent to a clean separation, if the two other powers consent, but as long as this agreement does not exist we shall hold to the act of 1889, and we shall not allow the rights which that net gave us to be curtailed or our interests suffer dimunition. But we shall also respect the rights acerving to others by virtue of the Samoa act.'

National Committeeman William. Boston, March 1 .- At a meeting of the executive committee of the Democratic state committee last night Hon. George Fred Williams was chosen the Massachusetts member of the national committee in place of John W. Corcoran, who was removed at the state convention last fall. The state committee at that time was empowered to fill the vacancy. and the election of Mr. Williams was unanimous.

Increased Army BIII Passes Senate. Washington, Feb. 28 .- After a contest that will be memorable in the history of the senate the compromise army reorganization bill was passed last even ing at 7.10. When the senate convened Mr. Gorman, of Maryland, insisted that his amendment providing that the army should not be increased permanently or beyond July 1, 1901, be incorporated in the measure. For several hours it appeared probable that his insistence at least would throw the bill over until today, and perhaps defeat it. An agreement was reached finally, however, and Mr. Gorman's amendment in a slightly modified form was accepted.

Victory For the Union Label.

Albany, March 1 .- The Cigarmakers' International Union of America won victory for its blue label vesterday in the court of appeals. Action was brough: by the union to restrain Henry H. Heert and Frederick H. Ehlen from using an alleged imitation of the blue union label. The defendants pleaded that the filing of the union's label in the secretary of state's office was unlawful. Judgment restraining defendants from selling cigars in boxes bearing the label mentioned was granted and damages awarded to the plaintiffs, which judgment this court affirms.

Naval Cadet Delgnan.

Washington, Merch 1 .- The president yesterday signed a number of bills passed by congress, among them: Making appropriations for the support of the West Point Military academy; for the relief of the Fourth Arkansas mounted infantry for services in the civil war: granting authority to the Pensacola and Northwestern Railroad company to build bridges over certain rivers in Alabama. the joint resolution authorizing the president to appoint Osborne W. Deignan (helmsman of the Merrimac's crew) a naval cadet at Annapolis, he having passed the prescribed age limit.

Confirmed by the Senate.

Washington, March 1 .- The senate yesterday confirmed the following nominations; William R. Day of Ohio, United States circuit judge for the Sixth judicial circuit: Christian C. Kohlsaat of Illinois, United States district judge for the northern district of Illinois; James S. Sherman of New York, general appraiser of merchandise; J. Holzhu, postmaster at Cumberland, Md.

A Pretty Girl's Suleide.

Bridgeton, N. J., March 1.-The body of Rae Hague, the pretty 19-year-old daughter of Captain Jacob Hague, of Greenwich, was found yesterday floating in the Cohansey river, near her home. The girl disappeared on Nov. 6 last, and all efforts to find her had failed. It is a plain case of suicide, but the cause is unknown. There will be no irquest, at the next consistory.

the death of Henry C. Barnet, of the Knickerbocker Athletic club, who was poisoned by a powder received through the mails, as was Mrs. Adams. The cases are so closely connected that they can scarcely be considered separately. District Attorney Gardiner openly charges Molineux with both murders. All the handwriting experts testified positively that Molineux wrote the address on the poison package sent to Cornish. and the jury reached a verdict after three hours' deliberation. Molineux's father is a paint manufacturer, and is reputed to be a millionaire. The prisoner has gone into good society, being of excellent address and manners, and prospective heir to a great fortune.

Bernabe's Probable Successor.

Madrid, Feb. 28 .- It is reported here. though there is no official confirmation of the rumor, that Senor Don J. Brunetti, Duc d' Arcos, former Spanish minister to Mexico, will be designated minister to the United States on the resumption of diplomatic relations. The report that Senor Polo y Bernabe, late Spanish minister at Washington, w... go to Lisbon is officially confirmed.

Jesse James Acquitted.

Kansas City, Mo., March 1 .- Young Jesse James, son of the notorious bandit, whose name he bears, was last night adjudged not guilty of complicity in the robbery of a Missouri Pacific express train at Leeds, in the outskirts of Kansas City, last September. The jury was out less than as hour, the verdict of acquittal having been reached on the first ballot.

Steel Workers Wages Advanced. Chicago, March 1.- The Federal Steel company has sent out notices of an advance in wages in the Illinois and Wisconsin mills of 8 per cent, to take effect at once. The advance affects about 15,000 workmen in Illinois and Wisconsin and makes a difference in the pay rolls in those two states of about \$250,-000.

The Millworkers' Wages.

Taunton, Mass., March 1.-Treasurer Shumway, of the Corr Manufacturing company, said today that the plant of that company in this city would restore wages at the same time that the Fall River mills resumed on the old schedule, the mills being on the same basis. Robert Knight, who controls nearly 500,000 spindles in Rhode Island and Massachusetts, J. W. Danielson, treasurer of several of the largest factories in eastern Connecticut, and a number of other mill agents have stated that a restoration in wages will be made conforming with that decided upon in Fall River.

There is no Kodak but the Eastman Kodak

Half the charm of a photographic outing is lost if one carries along several pounds of glass plates and holders and has every moment filled with anxiety for their safety.

use non-breakable film cartridges which weigh ounces where plates weigh pounds.

KODAKS \$5.00 to \$35.00.
