Penn. Hall.

Query. Francis, how many fish did you catch? Eine sucker and nine chub. Rev. W. H. Brown preached a very instructive sermon in the U. E. church on Sunday afternoon.

Dr. Frank, of Millheim, is seen daily on our streets and is enjoying an extensive practice in our section. It seems the only grievance some men have is over other people's prosperity, still they claim to be staunch church members.

Lott Condo, of Potters Mills, moved in the house vacated by Chas. Brown last week, and will assist his brother J. C., in the coach business. Two of our prominent citizens in the persons of H. E. Bickle and O. E. Walter, moved to Colyer the beginning of this week, where they have secured work at a stove mill.

Rev. A. M. Doerster, the newly appointed pastor of the Evangelical association, will preach in the Evangelical church on Sunday evening. Rev. Doerster is a noted pulpit orator, and his sermons are a treat to the public in general.

J. C. Condo, our wide-awake coach-maker, moved his entire new stock of buggies in his new quarters and is now ready for the spring trade. Mr. Condo recently built a large extension to his shop, which enables him to carry in stock a larger line of vehicles than ever before. Anyone in the market for anything in his line will do well in consulting his prices before buying elsewhere.

PENN HALL ITEMS NO. 2. Samuel Burrel has just returned from a few weeks visit among his friends in Altoona. J. C. Condo is at present confined to the house with La Grippe, but is considered better. Mrs. David Bartges, after being housed up several weeks with an abscess in the head, is able to be about again.

H. B. Herring, County Surveyor is going to Snow Shoe, this week, where he has a large tract of mountain land to survey. Andrew F. Mark is seen occasionally on the streets. He was also a victim of the Grippe. Glad to see all the folks about again.

David Bartges is at present remodeling his house, recently vacated by Henry Roush. W. F. Musser, son-in-law of Mr. Bartges, intends moving into the house and will have one of the finest homes in town. The public schools closed last week and the young folks all seem to be very well satisfied. As there are a good many young people around town that should go to summer school, it would be a grand opportunity for some person to commence a spring term.

Last Wednesday night, March 28th, about 10 o'clock, the Angel of Death quietly entered the home of Luther Musser and called home Martin, the only child of Mr. and Mrs. Musser; age 5 months and 18 days. His death was due to a bad cold which settled in the spine causing spinal meningitis. Interment was made at Heckman cemetery.

C. R. Brown, formerly employed in J. C. Condo's carriage shops, has moved to Houersville, to start up a shop of his own. We wish him success. L. A. Condo, brother of J. C. Condo, moved into the house vacated by Brown, and intends taking his place in the shop. S. L. Condo, also employed by J. C. Condo, moved to Spring Mills. But as Sam knows what a good job is, will continue working for the "Old Boss," as he is a fine coach painter, and a good around fellow, we are all glad he is staying in the neighborhood.

TELL YOUR SISTER. A beautiful complexion is an impossibility without good pure blood, the sort that only exists in connection with good digestion, healthy liver and bowels. Karl's Clover Root Tea acts directly on the bowels, liver and kidneys keeping them in perfect health. Price 25 cts. and 50 cts. For sale by Krumrine Bros., Bellefonte, Pa.

High Valley. Samuel Alter is taking out shingles for a new roof on his house. John Stover's stove mill is in full blast cutting ten thousand per day. The grain fields look thin; don't think we will have a big crop in High valley this year. Jess Snyder is cutting brush to make new ground for buck wheat; he says he can live on cakes. The peach orchard of George Keister is coming out all right; he was afraid the cold winter had killed some. Ira Snyder is hauling mason stones to Ingley for a party at Lewisburg, at \$2.00 a day. Good for Snyder. Our valley is one and a half miles southeast of Coburn. We have twenty-five inhabitants and all democrats, but one.

Em'l Eisenhuth says he will start his big lumber job in May. He and his lady are keeping house by themselves, as the boys have gone to Milroy to work for his son-in-law, H. C. Kulp. So if you want a good meal stop in at Mr. and Mrs. Em'l Eisenhuth's—there is the place to get it. "A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by F. POTTS GREEN.

Yarnell. Mrs. E. I. Walker delivered an Easter address. A new proprietor has taken charge of W. E. Brown's store. Merrill Butler is now heard singing, "Did you ever get left?" J. Frank has forsaken the old log house, but is still living in remembrance of it. Claud Yarnell has been engaged in the carpenter business, for the past two weeks. Have you plenty of stove timber for the summer? If not, you should pattern from Nicholas Lucas. E. I. Walker has got his log wagon at home, it is quite a nocking looking piece of mechanism. R. Beerly & Sons did the repair work. Thomas Croft, Edward Coakley and Claud Yarnell are devoting their spare time, which is plenty, to taking up a public road, which we are greatly in need of, from this place to Fairview.

Miss Millie V. Packer, of Howard, who has been engaged in the sewing industry of this place, has returned to her home for the summer. Her presence with us accounts for the tidy little poke that shields Chester's watch. A concert will be held in the school house, this place, on April 15th, under the supervision of Prof. J. Pietscher, of Blanchard, together with some of Eagleville's best singers and amateurs. All wishing to enjoy themselves can do so better for the money than by coming to the concert. J. W. Zeigler, accompanied by his lady friend, Miss Lula Lounberger, spent part of last week in Bellefonte. The people were mistaken in thinking they were after their license. WEDDING.—A very pretty wedding took place at the home of Squire Potter, on Monday afternoon. The contracting parties were John Stover and Edith Dale, both of Houersville. The groom is a grandson of Uriah Stover, and is an industrious young man. The bride is a daughter of the late Wm. Dale, and is a very pretty girl. She was attired in a beautiful white dress. The squire is a single man himself, but knows how to tie a knot. This is another instance where Pennsylvanians take the lead, people from other sections come here to get married. We wish them happiness through life.

Aaron Wellers left last Wednesday for Oak Hall, where he will work this summer. Mr. and Mrs. Resides, of Osceola, spent Easter at the home of Mrs. Harbridge. The school at this place, taught by O. D. Miss Kidd, after spending a few days with her Grandmother Nelson, near town, left last Saturday for her home at Lock Haveq. Lewis Hoover, who has been looking for a farmer for some time, has been disappointed. This is a drawback for Lew, as it will upset his plans. Quite a few people of this place (especially the man who bribed the editor) are very anxious to cultivate the scribe's acquaintance. So far he has been very lucky as he generally travels after dark. HOW IS YOUR WIFE? Has she lost her beauty? If so, Constipation, Indigestion, Sick Heads, etc. are the principal causes. Karl's Clover Root Tea has cured these ills for half a century. Sunday School opened at Gray's church, on Easter Sunday, with a large turnout for the first day. The report that the Scotia ore works is going to start soon has caused the people in that locality to wear a broad smile. G. Wood Miller, our enterprising grain dealer, loaded two car loads of wheat, at Scotia, last week, at seventy cents per bushel. Berrie Hartsock took the notion very quick to leave Centre and move to Huntingdon county, where he will take charge of the Archey Hutchison farm. We wish him much success. Saturday evening Daniel Harpster started to drive from the home of Thos. Huey, in a buggy. His horse became unmanageable, throwing him out and hurting him badly and smashed his buggy. Julian. Pine Grove Mills. M. E. Heberling will open his school on Monday next. Sales are over and so are the flittings, but Old Boreas still hangs on. We are glad to inform his many friends that J. M. Keller is slowly recovering from his serious illness which has confined him to his bed for the last three weeks, or more with gastric fever. WANTED.—A good fisherman who is expert in catching suckers. All applications should be sent to J. H. Ward and N. L. Krebs. None need apply who are not willing to take fishing-rods in part payment for their fish. Station Agent P. F. Bottorf, has resigned the agency of the B. C. R. R. at this place, and A. J. Tate, the express agent, was appointed to take his place. He is well qualified for the place and is always courteous and obliging. The Academy opened on Monday, at this place. We were not able to ascertain how many students were in attendance, but hope there will be a goodly number, as we have a most proficient instructor in the person of Rev. C. L. Aikens. Say John H. and N. L., what did you have to pay for those fish that you didn't catch? John says he gave his best fishing rod and some change. But how much we would like to know, so that if we go fishing we will know how much to pay for suckers. The farmers are bound not to be outdone by Jack Frost, some are hauling out their manure, to be ready at the first opportunity to turn Mother Earth's surface, to see if they can find substance enough for them to live upon the next year. Hope they will succeed. J. B. Heberling, our furniture man and undertaker, is breaking the ground for his large store room and dwelling. When completed it will be one of the largest and finest buildings in our town. It will also add greatly to the appearance of the place. It is on the west corner of the diamond, formerly occupied by a hotel which was burned down a number of years ago. —BLACK DEATH.—An absolute annihilator of all insects, bugs or beetles that prey on vegetation; positively kills potato bugs, squash bugs, pumpkin worms, water melon bugs, currant worms, cabbage worms, etc. It will kill all kinds of creeping things, that eat the leaves of vegetables or plants. Boalsburg. Bruce Harrison was in Bellefonte last Saturday. Hiram Durst was a visitor at Boalsburg, one day last week. We have had a few movings in Boalsburg this spring, and some yet to take place. Enoch Sweeney will have sale, on April 7th, of his stock and we are informed will move back to Centre Hall. The Oak Hall grammar school had an entertainment Friday evening, March 31st, which some of our young people attended. It was a decided success. The Boalsburg Lodge I. O. O. F. elected Saturday evening six new members, which will next Saturday night be duly initiated by the team. This makes 15 or 16 new members since last October. Holy Communion services held in the Lutheran church, Easter morning. Easter evening special services of song suitable for Eastertide were held in the Reformed church; fine music was a feature, conducted by P. H. Meyer. Water was turned into the pipes of our new water plant, last Friday, to test the pipes which we believe were satisfactory. The pipes are all laid, but the reservoir is not near completion, so that it will be some time till the plant is completed. Prof. Hower will open his spring school, April 10th; persons desiring to prepare for college, for teaching or to continue their work as students, will not make a mistake in attending this school. The past winter has demonstrated this man's fitness. He is an enthusiastic teacher which causes his scholars to be enthusiastic in their work. The schools of Harris township have all closed, except the primary in Boalsburg; the teacher Miss Jennie Hunter, has been sick for several weeks and Bruce Harrison will finish her school—having three days yet. The schools all over the district, we believe, were a complete success this year. Principal Hower admitted from the primary school to grammar school four pupils by examination, and received by examination seven pupils from the grammar school into the high school. Many real estate transfers have been made in Boalsburg during the past month or two. Here are a few of the many: Peter Weber, a house and lot in Boalsburg to L. Kimport, consideration \$25. The Bohn heirs, a house and lot situated in Boalsburg, to Dr. Kidder, consideration \$720. J. P. Weber, a house and lot situated in Boalsburg, to the Misses Goheen. E. Sweeney, last Thursday, made two sales of his farm—one part of his farm to A. Hosterman; later in the day he withdrew this sale and sold the whole farm to Harry Shirk. A number of other sales of real estate have taken place at or near Boalsburg this spring. Friday evening, March 24th, an excellent school entertainment was held at Boalsburg, by the Boalsburg High School Literary Society. The evening was favorable and the school hall was crowded, not even standing room was left. The students acquitted themselves very well, their selections were well prepared and acted. The students desired to have the exhibition over, so Prof. Hower announced that the entertainment would be given again on Saturday evening, with a somewhat changed program. Saturday was a stormy day so that the audience was small, but all report both evenings a complete success. In the two evenings about \$25 was realized with which the students paid off their school organ and ordered a "Standard Dictionary" of the agent, J. N. Moyer, of Rebersburg.
