The idea of your scribe, conceived by the folks of this community, is not correct. Wednesday evening, April 12th, a number of young folks gathered at the home of Mrs. Wieland and had a very pleasant time. A HALF DOLLAR ON ITS TRAVELS.—A bad penny always returns, it is said, but one instance is recorded where a good half silver dollar returned to its possessor after a circulation of twenty years. A man living in Canton, Ohio, had in his possession, about twenty-five years ago, a silver dollar with the date 1828 and that being his natal year he cut his name on it and thought to retain it as a relic. But a few years after he paid it out by mistake, and for 20 years it took its course in the general circulation. A few days ago he sent his little daughter to a neighboring town on an errand, and upon her return she gave him some change, and with it was the identical half dollar, with his name cut on it.
