Rossman, of Howard, was the guest of his brother, Harvey C. Rossman and mother Rachael A. Rossman, and also that I. W. and Frank Rossman were guests of the same parties.

There are certain parties not two miles away from here, had better prepare themselves for a visit from the District Attorney, as there has been a good bit of sneak thieving done in the past year, such as going in other people's barns, taking the ropes and selling them, and recently Frank Guiser's halter was stolen out of his stable. He has seen the halter and knows where it is. If he doesn't push the matter some other parties threaten to take it in hands.

Mr. P. Ketcham of Pike City, Cal., says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." He spoke from actual experience, being in the army himself. He referred to our Admirals Dewey, Sampson and Schley, who won great victories. Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels him to go to a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting poorer. For sale by F. POTTS GREEN, Druggist, Bellefonte, Pa.

When J. B. Musser lived here we heard a great deal of talk about them, but since they live in Sugarvalley we hear a great deal more. I guess the organ would be glad to play in the wilderness if they only had the chance.

A SIGNIFICANT EVENT.

Impressive Departure of the Troopship Grant for the Philippine Islands.

An unwonted event took place in New York harbor lately. A great steamship, belonging to the United States government, had been transformed into a model troopship, that it might be used permanently as a military transport. It was laden heavily with soldiers of the regular army, who were to be carried by it to the Mediterranean sea, en route to the Philippine islands, says Youth's Companion. This ship—renamed the Grant—bore, besides her 1,800 troops and crew, Gen. Lawton and a staff of officers. Before she left on her long ocean voyage she steamed up the North river to a point opposite the tomb of Gen. Grant. There she fired a salute of 21 guns, and her bands slowly and solemnly played the national anthem.

No circumstance of pomp, no emphasis of official recognition, were omitted in the dispatch of this ship. The secretary of war stood on her deck when she fired her farewell guns at the base of the great general's tomb. The soldiers were in uniform as on dress parade, and the huge ship and its crowded decks was an impressive representative of national power. Not without similar ostentation is she to steam over waters once plowed by the galleys of Roman and Carthaginian soldiers. She carries large guns with which to fire salutes and exact them in return. Her significance is not to escape observation. Behind her on the great Saxon high-road around the earth follow two more ships of like character, the Sherman and the Sheridan, both model transports, each bearing, as she does, nearly 2,000 American soldiers, and guns to awaken the echoes of the Mediterranean and the Red seas.

PHOTOS IN BICYCLES.

Up-to-Date Girls Have a New Place for Pictures of Their Admirers.

"Screens decorated with photographs, by common consent, were relegated long since to the dusty obscurity of the garret or the mildewed isolation of the cellar," says the photographer who studies fads; "but photographs will accumulate, and women find it necessary to exhibit some of them at least. So there has arisen a fertile genius with a fad for displaying photographs on the bouvier wall gracefully distributed between the spokes of a bicycle wheel, says the New York Press.

"Not an ordinary bicycle wheel, however, will suffice. If it is a young woman with matrimonial prospects, more or less immediate, or a maiden in the first throes of hope, she must show her pictures in a wheel from her best young man's bicycle. If she is married, then she must use a wheel which has revolved in century runs. This is an effective ornament and permits the exhibition of 30 or more favorite pictures.

"Another fad has brought it about that many young men who last year were wearing beards have faces as smooth as eggs this year. Their adornments have been sacrificed to the fad in question. The end of the century young woman must have three photographs of her swain. Picture No. 1 must show him in all the splendor and dignity of a full beard. Picture No. 2 reveals his manly beauty polished off only by a mustache. Picture No. 3 presents him entirely divested of all whiskers.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. Respectfully, MRS. MARY A. BEARD, Clarence, Ark. Sold by F. POTTS GREEN, Druggist, Bellefonte, Pa.

Danger Signals!

Do you take cold with every change in the weather? Does your throat feel raw? And do sharp pains dart through your chest? Don't you know these are danger signals which point to pneumonia, bronchitis, or consumption itself? If you are ailing and have lost flesh lately, they are certainly danger signals. The question for you to decide is, "Have I the vitality to throw off these diseases?" Don't wait to try SCOTT'S EMULSION "as a last resort." There is no remedy equal to it for fortifying the system. Prevention is easy.

Scott's Emulsion

prevents consumption and hosts of other diseases which attack the weak and those with poor blood. SCOTT'S EMULSION is the one standard remedy for inflamed throats and lungs, for colds, bronchitis and consumption. It is a food medicine of remarkable power. A food, because it nourishes the body; and a medicine, because it corrects diseased conditions.
