# AN OLD COMPANY COMING TO LIFE.

In 1865, when the oil trade was at its height in this state, a period when men made a fortune in a day by a strike of the gusher, and many more lost heavily by investing in wild cat schemes, the craze for speculation struck this county, and a company was formed to enter the oil fields and get a share of the golden stream that was then flowing out.

Money was more plentiful then and it was an easy matter to organize a company to invest in land in the oil territory and develop it. Men in and around Centre Hall, Pleasant Gap and Potters Mills took a hold of the enterprise and organized the Pinev Coal and Oil Company, with a capital stock of \$15,000; par value of a share, \$300. A farm of 106 acres was bought in the oil belt in Venango county. Several holes were punched in the ground, but the large dividends which were expected to flow from mother earth and line the pockets of the stockholders did not materialize. The company had assessments instead to meet the expenses.

The land was rented to a man on condition that he pay all the taxes, and for years the company has been inactive. \$5.30. Butter steady; western creamery. On next Saturday June 24th the glass workdrs will hold a big picnic at Hnter's Park to which all their friends are invited to participate. The Coleville band will be present on this occasion and dancing will be indulged in. The public is cordially invited to join them on this occasion.
