A HORRIBLE EXPERIENCE:-While on the mountain north of Aaronsburg for berries, Tuesday of last week, Clayton Wyle, of this place, had an experience that he will not soon forget. At what is known as "Harper's fields," on the top of the mountain, is a path running down a ravine. This path Mr. Wyle took in order that he might get down the mountain farther to where there were more berries. He had not proceeded very far when he saw something lying in the path that resembled a large pole; on closer inspection was horrified to see that it was a monstrous snake, who at the approach of footsteps slowly raised itself and with a hiss that resembled that of a goose, at once made for the intruder. With hair standing on end and with a whoop that sounded like that of an Indian Mr. Wyle started running and his speed would have done credit to the finest race horse that was ever put on

the track. His suakeship, however, was not inclined to follow-at least was not seen when Clayton called a halt. Mr. Wyle declares that the snake must have een twelve or fifteen feet long and about six inches in circumference. supposed to be the same one that has been seen at intervals during the past 20 or 30 years. When Mr. Wyle goes to the mountain again he says he will arm himself with a small cannon, at the first sight of his royal snakeship will open ombardment. If you doubt the truth of this story ask Mr. Wyle and he will cheerfully relate to you this wonderful experience.

The proposed contest of bands of Clinton and Centre counties is attracting a good deal af attention, owing to the liberal prizes and fair conditions, and nearly every band of note in the two counties has signified its intention of entering the contest. Other interesting events, together with a determination on the part of those in charge, to make this a banner day for all Knights of the Golden Eagle, their families and friends in this region, indicate that this picnic will surpass anything of the kind yet undertaken at Hecla Park. Arrangements have been made for a special schedule of extra trains to run at frequent intervals between the Park, Bellefonte and Mill Hall and excursion tickets sold at the accustomed low picnic rates of fare from all points on the Central R. R. of Pa.

What does it do? It causes the oil glands in the skin to become more active, making the hair soft and glossy, precisely as

nature intended. It cleanses the scalp from dandruff and thus removes one of the great causes of

baldness. It makes a better circulation in the scalp and stops

the hair from coming out. II Prevents and It **Cures Baldness**

Ayer's Hair Vigor will surely make hair grow on bald heads, provided only there is any life remaining in the hair bulbs.

It restores color to gray or white hair. It does not do this in a moment, as will a hair dye; but in a short time the gray color of age gradually disappears and the darker color of youth takes its place.

Would you like a copy of our book on the Hair and Scalp? It is free. If you do not obtain all the benefits
you expected from the use of the Vigor
write the Doctor about it.
