HAPPENINGS IN CENTRE CO

What Our Army of Alert Correspondents See and Observe Worthy of Note—The Local Happenings of Every Community Will be Gladly Published—Send the News, We will Publish it.

Sober.

We are glad to note that Mrs. Elmer Walizer is able to be about again. Mrs. A. C. Sheesly, of Penn Hall, was the guest of her mother, Mrs. D. D. Smith, of this place.

Wm. Klinefelters, of Tusseyville, were the guests of P. S. Confers and other relatives, at this place.

A. F. Snyder is home again after spending a few weeks in the Western states; he reports a good time.

Grant Braugher was home on a little vacation, on Monday. He left for Millroy where he has a job firing a dinky.

The abutments of the new iron bridge were completed, and it is a very neat and artistic job. The work was done by Conrad Miller, of Bellefonte.

Some people raised their potatoes and report a good crop owing to the dry weather. A. P. Zerby raised about 30 bushels from about a half an acre. This is considered good.

J. P. Miller, Ezra Confer, Elmer Confer, of this place, were home over Sunday and on Monday, left for Millroy, Pa., where they are employed on a big lumber job. They report work very plenty over in that country.

L. P. Smith is, without a doubt, the most popular genius in this country. He is always making improvements about his place or residence. Last week he had a man to haul ground for the purpose of filling up his yard and to repair his ice dam, which is located between the house and the stable. The wall of the dam is used for a walk from the house to the stable, shop and other out buildings. A flood gate is placed in the wall of the dam, for the purpose of running his machinery with water power. But this has not yet been so arranged, but more than likely he will have it arranged for this coming winter's trade.

He has also constructed a valuable clothes line that revolves on a pivot like a merry-go-round, and located right below the wall of the dam. The clothes can be put on without moving from the spot. This requires no snow shoveling in winter. It is not a bad idea. Loyd knows his onion, and knows what is good for it.

Wm. Kearns, accompanied by Lilly Stump and Anna Cole, took a drive on Saturday evening, we did not hear where they were going but one of the girls said, "He will catch a Millermer to-night or eat my hat." Now milliners, get ready for her order.

We think that when a lady marries a yankee and gives everything into his management and allows him to pen up her brother's stock, who lives on the adjoining farm, cannot have a great deal of love for the family ties. This looks bad. We are sorry to record, but it is the fact.

One of our town girls had the audacity to ask Clyde Stamm to take her along to Lemont festival Saturday evening. Mr. Stamm being a kindly young man and not inclined to refuse, said "Wish I had taken the other road." Sorry this is not leap year, as the people would not think so much of the lady going to get the blacksmith. He doesn't seem to be easy caught. Those gold glasses ought to help considerably.

J. C. Aman has purchased a brand new engine and threshing machine, and now gives good satisfaction. Messrs. Brumgart also have a good outfit. These men are all hustlers and our farmers need not worry about getting their crops threshed.

Farmers and others, intending to build wire fence this fall, will do well to buy their wire and material from W. H. Zeigler who represents the Chandee Fence Co., at Baltimore, Md. At present Mr. Zeigler sells No. 9 galvanized wire at \$2.60 per hundred pounds.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 25c. Hall's Family Pills are the best.

Campmeeting, at Boonville, on Sunday last, attracted quite a large number of the people of this place, notably one of our east side swells. He could not hire a horse at the livery, on account of them all being in use, but a bright idea presented itself to him. His best girl's father is a farmer and he has lots of horses, and the prospective father-in-law's horse was secured and away to the campmeeting he and his "duckie" went as happy as two birds in a woodpecker's nest. When they returned they went to the home of the lady's father, on Sunday evening and for some reasons the young gentleman stayed until Monday morning, and then was seen pulling a buggy towards his home. The horse having been left at the home of the lady's father, a distance of about two miles. Truly the automobile, or horseless carriage is coming into use more and more every day. For further information, apply to the principal of the night school, near Drum station.
