-Capt. John H. Harter, of Oceola, Ohio, on his way home from the encampment, stopped off to pay his friends at this place a short visit over Sunday; he is a brother of Editor T. H. Harter, of this place, and is known to many of the old soldiers in this section as the Captain of Company D, 150 Regiment, Pa. V. I.

-Bruce Lingle, of Iowa, arrived in Bellefonte, on Sunday morning, and continued his journey to Centre Hall to see friends and relatives in that section, which was his former home. He says Iowa was blessed with the most bountiful crops the past season and thinks it is the ideal farming country of the west. He expects to remain here several weeks.

-Luther Hess, of Freeport, Illinois, is visiting relatives in this county. He was attending the Veterans encampment at Philadelphia and during the rebellion was in one of the Illinois regiments. He left Centre county when a boy. He is interested in a large tannery at that place and has prospered. Mrs. Wm. Harter, of Aaronsburg, is the only aunt living in this county.

-The inspectors' reports for the spring inspection of the National Guard of Pennsylvania have been sent out from the adjutant general's office. Major John P. Penny, of Second brigade has this to say concerning local organizations: "Company M, Twenty-first regiment, at Bellefonte, is below the minimum in numbers and while composed of a first-class quality of men and officers, seems to be lacking in the interest that it is so necessary to make a good company."

-The Blackford restaurant has undergone some extensive improvements of late. The interior has been entirely remodeled, repaired and improved. It is up-to-date in every particular, from kitchen to eating room. The new proprietors are Messrs Clyde and Percy Blackford, sons of Geo. A good restaurant in that part of the town certainly should pay, and we predict the young men will succeed.

-Tuesday morning John Keichline, Jr., left for Battle Creek, Mich., to resume his studies in the medical department of the institution at that place at which place he spent the past year doing good work. He has taken much interest in that line of study and will graduate from there well prepared.

-Tell your neighbor that he can get the Centre Democrat during the campaign, until Jan. 1st, 1900, for 20 cents. That is less than half-price for the newsiest paper in Centre county. It is a good thing for republicans to read during the campaign, just to see how the political cat keeps jumping and find out who is doing the tallest political lying among the lot - of course we always show the other fellow the best at that business. Get the paper once in your home, you will not want to be without it.

-Miss Rebecca Lyon bade farewell to her Bellefonte friends, Tuesday afternoon of last week and started on her long journey to Indian Territory. She is going to the Friends school on the Skiatook mission at Hillside, I. T., where she will teach piano and a few literary branches to full blooded Indians. After reaching the nearest point by rail she will have to go overland thirty-five miles by coach to her future home, so an idea of the isolation she is going into and what she is giving up to such work among the Indians can be had.

-The 15th annual convention of the W. C. T. U. of Centre county was held in the society's rooms at this place on Tuesday, with about twenty delegates present. Two sessions were held, morning and afternoon, at which some interesting papers were read. On the previous evening an interesting lecture was delivered in the court house by Miss Jessie Ackerman, to a large audience. The officers of the association are: President, Mrs. John P. Harris; Vice-President, Mrs. James Harris; Secretary, Mrs. M. B. Cross and Treasurer Mrs. D. D. Mitchell.

-If anyone doubts the necessity of a Sunday train he need only go to the Bellefonte station either a Sunday morning or afternoon and see the great amount of travel from this point. On Sunday the writer went down to the train and by actual count some thirty passengers got off here, and as many took their departure. That, to our mind, fully demonstrates that there is sufficient travel here for such a convenience. The people who were bitter in their opposition to the Sunday train, and signed the remonstrance, have come to appreciate the convenience and are using it regularly. The arrival and departure of the train causes some commotion about the depot, but not enough to interfere with the proper observance of the day, and there is no unnecessary disturbance and excitement as many anticipated. Like the cow question, after once inaugurated, people would not go back to the former way of doing things.

-Nicholas Bauer, one of Bellefonte's prominent merchants, has been on the sick list the past few days from a sore that developed on one of his limbs. Some years ago he suffered a severe bruise at the same point and now it has again grown quite sore and is much swollen. He has been confined to his bed at times, in consequence.

-Ex-Prothonotary Wm. F. Smith has been ill the past two weeks, at his home near Millheim, and has been confined to his bed most of the time. UNDINE SMOKER.

When the members of the Bellefonte fire companies announce that a "smoker" will be held, everybody invited knows that a good time is in store for all who attend. During the past year a number of these novel entertainments have been held, and they are becoming more popular, as there is always something new and original on the program.

Last Thursday evening the members of the Undine company invited several hundred guests around to their house, and the hospitality shown was unbounded. There were good things to eat in endless variety, and other refreshments that were appropriate to the occasion. In the midst of the festivities Harry Keller, Esq., called the assemblage to order and in the capacity of toastmaster called upon prominent guests for short talks. There was a flow of wit, humor, eloquence and patriotism that elicited unbounded applause. After that some variety was lent to the exercises by a genuine cake walk for which some very liberal purses were raised and the colored lads and lassies did cut some fantastic didoes on the floor that were amusing. Everybody present had a good time and appreciated the hospitality of the Undines.

MILITARY ENLISTMENTS.

During the past week 2nd Lieut. George L. Jackson has been stationed at Bellefonte and had charge of a recruiting station. As a result six Centre county boys left on Tuesday afternoon for Camp Meade, near Harrisburg, to join the 47th U. S. Volunteers, which regiment is expected to start for Manila about November 1st, and in which Lieut. Jackson is 2nd Lieutenant. The boys who left are: Richard Taylor, George Sunday, Jesse Underwood, Samuel Meese, James Vallance, all of Bellefonte; and John A. Thomas, of Port Matilda. The Lieut. will remain in Bellefonte likely until Saturday, and the prospects are good for securing a number of others. Nearly all the enlistments at this place are boys who were in Company B during the hostilities with Spain, and were at Chickamauga most of the time fighting fever.

Good Enough to Take.

The finest quality of loaf sugar is used in the manufacture of Chamberlain's Cough Remedy and the roots used in its preparation give it a flavor similar to that of maple syrup, making it very pleasant to take. As a medicine for the cure of coughs, colds, la grippe, croup and whooping cough it is unequalled by any other. It always cures, and cures quickly. For sale by P. Potts Green, Druggist, Bellefonte, Pa.

WHY WOMEN ARE NERVOUS.

The frequent cases of nervous prostration or utter collapse of the nervous system under which women "go all to pieces," as the saying is, have caused much thought and investigation on the part of physicians. Certain inorganic substances are well known to cause various forms of nervous diseases which are readily traced to the poisons producing them. Further research leads to the belief that alum is a prevailing cause of so-called nervous prostration, for the symptoms it produces on the nervous system after its absorption into the blood are very remarkable indeed. Experiments physiologically made upon animals by Orfila, Professors Hans Mayer, Paul Seim and others show that alum frequently produces no visible symptoms for many days after its introduction into the body. Then follow loss of appetite and other alimentary disturbances, and finally a serious prostration of the whole nervous system. The most prominent physicians now believe that "nervous prostration" and many affections of the nerves from which both men and women suffer are caused by the continued absorption of alum into the system. It is probable that many medical men are unaware of the extent to which salts of alumina may be introduced into the body, being under the impression that the use of alum in bread is prohibited. Alum, however, is still used surreptitiously to some extent to whiten bread, and very largely in making cheap kinds of baking powder. In families where baking powder is generally used great care should be exercised to procure only those brands made from cream of tartar. The alum powders may generally be distinguished by the lower price at which they are sold.
