RECENT DEATHS.

A. B. RISHEL.—Last Friday morning, just as the sun came over the eastern horizon, the spirit of Adam Brady Rishel, one of Boalsburg's respected and honored citizens, took its flight to meet its Maker. Mr. Rishel passed away at half past six o'clock on Friday morning, September 8, 1899. His death was a surprise to many of his friends, although he had been ailing for over a year with dropsy and there could be no hope for his recovery.

Mr. Rishel was born in Clearfield county and in early life came to Centre county and is well remembered by many of our older citizens, and during the seventies went to live in the State of Virginia, but returned again sometime in eighty to Centre county and followed farming until recent years, when he retired and located in Boalsburg.

In early life he united with the Lutheran church and remained a member thereof till the time of his death, and in later years was an active and earnest church and Sunday School worker as long as he had sufficient strength to get to the church, and led an exemplary Christian life and during his sickness exhorted his friends to prepare for death and meet him in Heaven.

He was married to Malinda Wolf, and survived by the widow and the following named children: Ira M. and Oscar L., of Boalsburg; Alma C. wife of John Miller, of Pine Grove Mills; William H. and Newton J., of Oak Hall; and Clara, of State College.

The funeral took place on Sunday morning from the Reformed church at Boalsburg, his pastor Rev. J. B. Leshner of the Lutheran church delivering an able funeral discourse. The church was filled and not all the people could get in. Interment in the Union cemetery at Boalsburg.

GEORGE C. HUTCHINSON, clerk in the Department of Agriculture, has further complicated the Republican Senatorial situation in the Thirty-third district by announcing his candidacy for the office of Senator. He is from Warriorsmark, Huntingdon county. It is Franklin's turn for the nomination next year, and it is not probable that her candidates will yield the office to any Huntingdon county man.

MARTIN MORRISON.—On Thursday evening Martin Morrison died at his home in this place. He has been a sufferer for a number of years, death was due to heart failure brought on by a paralytic stroke.

He was born in Sligo, Ireland, was 59 years old, and had lived in Bellefonte for the greater part of his life. He was a member of the St. John's Catholic church, interment on Saturday morning.

DAVID ZIMMERMAN: Who was reputed to be the tallest man in Sugar Valley, died at the home of his son-in-law, Herman Ruther, east of Loganton, Friday morning of dropsy. He was 78 years, 4 months and 21 days old. He is survived by three daughters and one son.

MRS. GEORGE BUFFINGTON: Nee Laura Burrell, formerly of Nittany valley, died at her home near Jersey Shore, Friday after a lingering illness. She is survived by her husband, two daughters and one son.

Special Licenses.

A recent decision of the Superior court on two cases appealed from Crawford county sustains the right of a city to assess and collect a special license from merchants. Two such cases from Titusville were appealed to test the legality of such tax ordinance. Merchants organized an association and refused to pay the tax, in which about \$15,000 was involved. The Superior court confirmed the opinion of Judge Thomas, who decided in favor of the city.

To Fatten Pigs With Electricity.

A western college professor claims that he has discovered a method of fattening pigs by electricity, says an exchange. The process, as near as can be ascertained, consists of placing the animals to be treated in a cage, around which are strung a number of wires charged with electricity. It is hoped the professor will carry his investigation further, as many attenuated people are interested in his theory.

Stricken With Paralysis.

We regret to learn from Rev. D. M. Wolf, D. D., that the venerable James Evans, of near Spring Mills, had a serious attack of paralysis, at his home on Friday last. His left side is paralyzed but his mind was unaffected.

QUEEN VICTORIA'S PET PEDIGREE.

One of the pet ideas of Queen Victoria is that she is descended, through Zedekiah's eldest daughter, from David, King of Israel, and it is reported that she has just sent to her grandson, the Kaiser, a copy of her much-prized family tree with the great Psalmist at the top. It is not unlikely that the resourceful chronicler who manufactured the pedigree intended to place Adam in the position of progenitor-in-chief, and that her Majesty very promptly and very properly objected to this, sacrificing antiquity to respectability. Adam, as everybody knows, had no ancestors. He could never boast of his grandfather, as the Kaiser boasts of his, and whatever Eve's marital cares and vexations she never had thrown in her face the reflection that her mother-in-law could have made better apple dumplings than she. Besides, Adam was only a gardener, while David was a king. The former roved about Eden without a second suit of clothes—the less said about his first suit the better—while the latter had purple and fine linen by the barrel. When, therefore, it came to the matter of choosing an ancestor, as between a gardener and a king, Victoria properly selected the king. Any American multimillionaire—indeed, we might even go the length of saying any Colonial Dame—would have done the same and more—would have planted the tree thus obtained in the back yard to stand a perpetual source of envy to their neighbors.

By the way, does it not seem passing strange that Queen Victoria should claim kindred with a Jew at a time when those of the fallen race who might honestly trace their origin to the royal house of David are maligned and reviled even within the confines of the empire upon which the sun never sets?—Times.

WHY THE COUNTRY BOY SUCCEEDS.

The statement is made every now and then that about 92 per cent. of all the successful men in the different cities were reared on the farm. The explanation of this is probably found in the fact that country boys are taught to work, and a little labor does not make them tired. It is all a matter of vim and energy. A boy who at 12 years of age had to get up at 5 o'clock in the morning and feed the stock, drive the cows to pasture, curvy and feed the horses and help with the other chores before breakfast, then hoe corn until noon, carry water for his mother to wash while the farm hands rested, go back to the field and work all afternoon, do the chores in the evening and then attend a spelling bee or go on a coon hunt until 10 o'clock at night is not likely to be appalled by the sight of work. He imagines he is having a regular snap while doing about three times as much work as the city bred youth, who thinks he is a genuine hustler.—Panxsutawney Spirit.

Lumber Goes Up Again.

Lumber dealers, contractors and builders in Pittsburg received intimation Monday that all kinds of pine had been advanced in the northwest \$1.50 per 1,000 feet, with a corresponding increase in hemlock and hardwoods. This is an increase of about 15 per cent over former prices. This is the fourth raise that has been made in lumber this summer and consumers feel aggrieved at the present increase coming in the midst of their busy season, when they have many contracts made on the basis of former prices for material.
