Port Matilda.

DIED.—In Port Matilda near the hour of ten o'clock, Thursday evening October 12th, '99 of heart trouble, John Jones, at the age of 78 years. Our subject was a much respected and a life long citizen of the above place, having moved there with his parents at the age of six months from near Stormstown where he was born, growing up with our town.

In early business life he followed shoe-making, was Justice of the Peace for a number of years, at one time was in mercantile business, but for some years past, on account of poor health, lived in retirement. He is survived by two children, Mrs. Henry Bennett and Miss Bella, his wife, having preceded him a few years ago. He leaves five brothers and one sister namely: Mrs. Margaret Rook, William, Edward, Levi, Adie and George. His remains were interred in Williams cemetery by the side of his deceased wife. Rev. White, pastor of the M. E. church, and Rev. Downing and Bordon, pastors of the Baptist church officiated in their usual impressive manner. Thus the sunshine of this life ceased to glow on a tender and loving husband and father, a kind neighbor and a true christian.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. church, South Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning with severe coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by F. Potts Green, druggist, Bellefonte, Pa.

WHAT IS SHILOH? A grand old remedy for Cough, Colds and Consumption; used through the world for half a century, has cured innumerable cases of incipient consumption and relieved many in advanced stages. Rebersburg.

The following were among those who were in Bellefonte on Tuesday: Henry Meyer, David Meyer, of near our burg, and Cyrus Erhard.

John Meyer and Mr. and Mrs. Christian, of Bellefonte, came to our burg the latter part of last week in a two horse carriage. And when they left for home on Sunday Mr. Meyer took his wife, Bessie and baby, who had been visiting her parents for a week or so, along home.

Benjamin Crofford and his wife, of Huston, were visiting their old friends on Sunday.

It would not be an unwise plan for all of our people to keep one eye half open while sleeping, and lie with the face towards the garden and keep in view the cabbage piece.

Rev. Doustler, the Esher pastor of the Evangelical church, made a short trip to Lock Haven last week.

Henry Royer, of Johnstown, is a pleasant visitor among his relatives and old friends in this vicinity.

The sale of Mrs. Amanda Grieb, deceased, was well attended on last Saturday afternoon.

Miss Lulu Erhard and her sister Mrs. Sadie Bierly, of near our burg, left for Carlisle on Tuesday morning.

Lawyer Bower, of Bellefonte, was in our vicinity last week to look after his business.

Boy Shot in a 'Play War Dance.

A crowd of a dozen boys, who have been camping on an island in the river, a half mile below Williamsport, Saturday tied one of their number, a lad named Huffman, to a tree. Then they played Indian dance about their victim, firing volleys of supposed blank cartridges at him. One of the cartridges was genuine, however, and the ball plowed through young Huffman's cheek. Two of the boys have been arrested, as Huffman declares that these two aimed their pistols at him instead of shooting into the air as was the bargain.

Bothered With Tramps.

The tramps have not appeared in large numbers in Lock Haven since the ball and chain has been adopted as a punishment, but during the last few days several of the nomads have been annoying residents. A few hours carrying the ball by one or two will keep the city clear of these nuisances.—L. H. Democrat. Bellefonte authorities should adopt the same measure. Tramps deserve work. That is the severest punishment that can be inflicted.

Walnut Timber Getting Scarce.

During the last few years a large quantity of walnut timber has been cut in this and adjoining counties for foreign shipment. During this summer over one hundred thousand feet was cut in the vicinity of Centre Hall. The timber goes to Hamburg, Germany. The large logs are shipped without cutting, while the smaller are cut at Colyer's mill. The timber goes by rail to Baltimore and Philadelphia ports thence across the pond.

Now for Oil and Gas.

It has been believed that oil and gas exist in the neighborhood of Philipsburg. John B. Long, is the chief factor in a movement to put down a shaft to ascertain whether or not either or both of these commodities can be found.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy, for having put on the market such a wonderful medicine," says W. W. Massingill, of Beaumont, Texas. There are many thousands of mothers whose children have been saved from attacks of dysentery and cholera infantum who must also feel thankful. It is for sale by F. Potts Green, druggist, Bellefonte, Pa.

MONUMENT COMMITTEE.

The following is a list of the committee on the monument to be erected to the memory of the soldiers and sailors from Centre county in the war of the rebellion, to be crowned by a colossal statue of Governor Curtin. It is the purpose of the chairman to increase the number to at least fifty. The members now appointed, and to be hereafter appointed, will be advised by letter as to what work they are expected to do, and it is hoped all will cheerfully put their shoulder to the wheel and push the work forward with all the energy and vim they can command:

ANCIENT HISTORIANS.

In order to justify the wrongdoings of Coms. Riddle, the republicans have been rooting through the records the past two weeks searching for some democrat that misappropriated public funds. No matter if you find a dozen wrong doers, that does not clear Mr. Riddle's skirts. The wrongs of the past do not warrant their continuance in the future. Now is the time to stop this business.

AFTER trying to rob Schley, as well as the captains of the Iowa, Texas, Brooklyn, Massachusetts, Oregon and the Gloucester of all credit for the naval victory at Santiago, Sampson is now putting forward the claim that the captain of his flagship, the New York, was responsible for the surrender of General Toral and the land forces. What will Sampson claim next?

NOBODY will think the less of William J. Bryan because when a hard-up young man in 1889 he was more attracted by the salary attached to the office of secretary of the Nebraska State Board of Transportation than by any imaginary honor attached to that payuene position. He cannot be blamed for needing the salary of the office.

CONGRESS should abolish the law allowing prize money to the navy. The spectacle of Admiral Sampson claiming the lion's share of the prize for the destruction of Cervera's fleet which took place in his absence, is not an inspiring one.

ENGLAND enters upon the war in the Transvaal with the sentiment of the whole civilized world against her. She is not entitled to any sympathy no matter what disasters may follow.

Took a Tumble.

Monday morning Luther Best, of Salona, who is employed in the limestone quarries, was up on the side of the steep hill, attempting to pry off some of the rock. In some manner he was undetermined and he fell heading a distance of nearly fifty feet to the bottom of the quarry. Fortunately for him he alighted on a pile of dirt, which perhaps saved his life. He was rendered unconscious, sustained a broken ankle and was otherwise badly bruised. He recovered consciousness in about an hour and is improving.

Will not be paid.

According to action taken, at the State Convention of county commissioners at Erie, Pa., last week, constables will not hereafter receive compensation for acting as fire wardens; neither will the fish and game wardens be paid the reward of ten dollars for giving information of any one violating these laws.

Now for Oil and Gas.

It has been believed that oil and gas exist in the neighborhood of Philipsburg. John B. Long, is the chief factor in a movement to put down a shaft to ascertain whether or not either or both of these commodities can be found.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy, for having put on the market such a wonderful medicine," says W. W. Growing Crops.
Word comes from Alaska that good wheat, oats and barley have been grown and thoroughly ripened in the vicinity of Dawson. The wheat was sown late in May, and harvested from 75 to 85 days later, beating the growing time in the famous Red River valley by from 10 to 20 days. If this can be done on a large scale—for the dispatch says nothing of the means employed—the fact will be of importance to the Territory as a whole, since it will make it self-supporting, which is the first step toward permanent prosperity. At any rate, it removes the need of passing around the bread bag for the relief of the gold hunters. Sowing wheat will be a better investment on the Yukon than digging gold.

Increasing Capacity.
A. E. Hoffman, of the firm of Reeder Bros. & Hoffman, of Tyrone, has been engaged the past six weeks in erecting the steel work of fifteen lime kilns for A. G. Morris, near this place. It was a big job but Mr. Hoffman rushed it along with all speed. Each kiln contains ten thousand pounds of steel, and each required 686 half inch bolts and 311 five-eight inch rivets. The most modern lime kiln is now built of steel, cased inside with fire brick. Those erected by Mr. Morris are 28 feet high and 5 feet in diameter inside the casing. The lime industry about Bellefonte has largely increased in late years.
