moned, who put the arm in proper shape.

The ticket nominated by the democrats of Centre county is one that commands itself to the voters of the county who are anxious to rid themselves of the republican ring which has been mis-managing county affairs. The nominees represent very fairly all sections of the county and are men of high character and eminently fitted for the position to which they aspire. There is utterly no occasion for any factional differences to interfere with any democratic support of this ticket, and it is but fair to assume that the democracy of Centre county will turn out at the coming election and give a good account of themselves. Present indications point to the fact that many independent voters will vote the democratic ticket this fall, and with every democrat doing his full duty it will poll a very heavy vote. Every democrat should be sure to turn out on the 7th of November and vote the straight democratic ticket, as we have a clean ticket from top to bottom. Democracy can congratulate itself upon the fact that they haven't a single nominee that needs a preacher's certificate.

## That Cough Hangs On

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce la grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks.
