What Would You Give

To be cured of catarrh? If you or your friends have this disease, you know how disagreeable it is. Its symptoms are inflamed eyes, throbbing temples, ringing noises in the ears, headaches, capricious appetite, and constant discharge of mucus. Fortunately its cure is not a question of what you will give, but what you will take. If you will take Hood's Sarsaparilla, the great constitutional remedy, which thoroughly purifies, enriches and vitalizes the blood, you may expect to be completely and permanently cured. The good blood which Hood's Sarsaparilla makes, reaching the delicate passages of the mucous membrane, soothes and rebuilds the tissues and ultimately cures all symptoms of catarrh.

Swift Girl Corn Huskers.

Two young girls, the Misses Rider, of Short Mountain, Blair county, made a record for corn husking this fall. In eight and one half days they husked 1,448 bushels, and in eleven days 1,923 bushels, an average of 175 bushels per day. During the first eight and one-half days they had the nubbins to count with; the last two and one-half days the best of corn.

ASK YOUR DOCTOR!

Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way.

Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done? This question was answered when we first made

SCOTT'S EMULSION

of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.
