When the cry of fire was heard on last Friday evening, but one fireman responded to the call. He ran to the truck room and got out the truck. But it was with difficulty that he got it to the fire, and yet a few firemen and quite a number of citizens stood and watched him trying, with the help of small boys, to get the truck to the scene of the fire—good citizens and firemen, indeed. (?) The fireman who responded to the call, is the smallest member of the company.

Mr. Allen and wife, traveling with a movable picture show with splendid views of different scenery, worth any one's money to see, were here for the benefit of the fire company. The cold shoulder was turned on the fire company, and the boys felt it, too. The two nights did not have a corporal's guard, leaving the boys in the hole. When a fire breaks out they work like heroes to save the property, and are not appreciated; if they were, they would receive help to keep up expenses.

It is reported here from reliable sources that there are several parties in the mountains hunting deer with dogs. Those persons should be promptly arrested and taught that this is a law-abiding community. It insinuates upon our community to permit such violations. Again, he must make a report to the Quarter Sessions of all violations, because he is ex-officer game and fish warden.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

Generally correct this tendency.

If you will put from one-fourth to half a teaspoonful of baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.
