## BATTLE OF STORMBERG.

British Killed, Wounded and Captured Number Seven Hundred.

TOTAL BRITISH CASUALTIES.

In the Nine Engagements Fought Forty-five Hundred and Seventy Britons Have Yielded to the Boers, Over Five Hundred Being Killed.

London, Dec. 13 .- With the exception of Sunday's sortie at Ladysmith, which the morning papers are unanimous in regarding as a brilliant piece of work, there are no further advices from the seat of war. A war office dispatch reports that Mafeking was safe up to Dec. 4, but that the Boers had been shelling the town since Nov. 27 with increased effect. Rations had been considerably reduced, meat by half a pound and bread by a quarter of a pound, in view of a probable long siege. Water, however, was still plenti-

There are no further reports from the battle of Stormberg, which is considered the most disastrous of the war. According to reports thus far received General Gatacre left Putters Kraal by train for Molteno, and then proceeded by forced march 12 miles toward Stormberg. He had 4,000 men, including the Northumberland Fusiliers, the Royal Irish Rifles and two batteries of field artillery.

The British were unmolested by the Boers until the Boer position was. reached, when a hot fire was unexpectedly opened upon the advancing eolumn.

The engagement began at 4:15 a. m. At 7 a. m., after a sharp artillery duel, the British retired to Molteno. General Gatacre found the enemy's position impregnable. It was impossible for the British infantry to get at the The British losses were two men killed, nine officers and 17 men wounded and 672 captured. The Boers also captured three British guns.

The Times, while praising Colone Metcalfe's brilliant feat at Ladysmith, expresses the opinion that, relief being now so near, such a sortie was rather perilous, and it would be better for General White to avoid them so far as possible.

The feat referred to by The Times was given out by the war office in a dispatch from General White of Dec

'Last night Colonel Metcalfe and 500 of the Second Rifle brigade sortied to They reached the crest without being discovered, drove off the enemy and then destroyed the howitzer with gun When returning Metcalfe found his retirement barred by the Boers, but he forced his way through, using the bayonet freely. The Boer losses were considerable. The British losses were Lieutenant Ferguson and 11 men killed, three officers and 41 men wounded; six men captured."

A special dispatch from Lourenzo Marquese says a Boer telegram from Mafeking announces that Lady Wilson, aunt of the Duke of Marlborough, who was captured by the Boers while acting as a correspondent for the London Daily Mail, has been exchanged for a Boer woman who was a prisoner at Mafeking.

is announced from Cape Town that the Boers have succeeded in repairing the Leuwfontein bridge, between Stormberg and Burghersdorp, which the British had destroyed on

It is just two months since the Transvaal ultimatum was delivered. Nine engagements have been fought and the British have lost 566 killed. 2,027 wounded and 1,977 missing or prisoners.

New York, Dec. 13.—Senora Carmina Lopez, who was the wife of a Cuban general, and who in 1897 escaped from Cabanas fortress, Havana, in the guise of a nun, and who took refuge on an Argentina warship, which conveyed her to Buenos Ayres, was held with her four children at the Barge office yesterday, having arrived here from Rio Janeiro on the steamer Wordsworth, en route for Cuba. The family is returning to its old home after long exile. Senora Lopez will make an effort to regain her Cuban estate.

#### M'KINLEY AND ROOT.

A Proposal to Nominate Republican Candidates by Acclamation.

Cleveland, Dec. 13.—A Washington dispatch to The Leader says: Washington just now is a hive of political industry. The Arlington hotel is one of the leading centers of political activity, and one cannot enter the lobby of that hostelry of an evening without seeing in one corner or another small groups of prominent figures in the Republican party engaged in serious and earnent consultation. Two of the greatest questions that are receiving the attention of these men are who shall be McKinley's running mate next year, and shall the ticket be nominated by acclamation.

In the light of information that has been gathered from contact with leaders in politics it may be stated almost without qualification that the Republican national ticket next year will be McKinley and Root. That Mr. Root is willing to go on the ticket with Mr. McKinley there is not the slightest

As to the matter of nominating the entire ticket by acclamation, there is reason to believe that the next Republican convention will establish such a precedent. Senator Hanna has conceived the idea, and it is remarkable how favorably it is being received.

In all probability the Republican convention will be held the second week of June. It seems to be agreed that the convention will go to Chicago or Philadelphia. New York is also after it, as is St. Louis.

Large sugar making companies now outside the American Sugar Refining company, which operates under the New Jersey laws, are concerned in this new Delaware corporation. ## MURDEROUS FILIPINOS.

Band of Guerrillas Surrounded and Taken Prisoners Near Malasqui.

WILL PROBABLY BE EXECUTED.

They Committed Twenty-five Murders in as Many Days, and It Is Expected That They Will Be Speedily Tried and Promptly Shot.

Manila, Dec. 13 .- Colonel Smith, with a detachment of the Seventeenth infantry, surrounded and captured in village near Malasqui a party of guerrillas, who had made their headquarters there. The party included the band which assassinated seven officials at Malasqui for friendliness to the Americans.

All are insurgents who became bandits when the disintegration of the Filipino army began. They kept the country around Malasqui in a state of terror for several weeks, and committed 25 murders in less than that number of days. When they were caught they were promptly sent to General MacArthur's headquarters at Bayambang by train. It is expected that they will be speedily tried and either shot or hung, as an example, if convicted.

The whole country north of San Fernando and between San Fernando and Mantla, except within the permanent line of troops around the city, and the closely patrolled stretches of railroad, swarms with similar bands, Probably they will be increased by men from Pilar's army, many of whom are making their way south to join the insurgent force in Cavite province. These people, for the most part, succeeded in dodging the troops of General Grant, Colonel Bell and Colonel Hood, who are scouring the country for them. They devote their energies to ambushing commissary wagons and to picking up soldiers who leave their commands. Every day some wagon train is fired upon or some soldier disappears. General Wheeler's secretary, Mr. Garrett, was disarmed and slashed by a boloman almost within sight of headquarters, his assailant pursuing him almost into the headquarters building.

The policy of these ruffians is to make the country uninhabitable for Americans and to frighten natives into refraining from giving any assistance to the Americans, as well as to compel the inhabitants to support the insurrection.

Frequently they raid and loot towns. The brother of the president of Imus went outside the town the other day to harvest some rice. He was captured by his compatriots, accused of being a spy and executed.

Only a small proportion of the insurgent arms have been surrendered, and the problem of suppressing this guerrilla warfare is anything but easy of solution. Some of the American officers think it worse than fighting Indians, owing to the difficulties of the country and the trouble of locating the enemy, who resort, when hard pressed, to the amigo dodge and hide their guns. Some of the Americans favor the issuance of a proclamation declaring all

punishable as criminals, instead of being treated as prisoners of war. Information has been received at eadquarters that 500 Spanish prisoners have been shipped from Vigan to Manila, and that 1,500 others have been assembled at Vigan, including General Pena. Probably these are Spaniards released by General Young's troops in the Benguet district, where they were

natives found with arms to be bandits.

Boston's Republican Mayor.

concentrated by the insurgents.

Boston, Dec. 13.-After a spirited campaign the Republicans won a great victory in the municipal election yesterday, Thomas H. Hart defeating ex-Congressman Patrick A. Collins, the Democratic nominee for mayor, by 1,904 votes. The total vote was: Hart, 40,665; Collins, 38,761. The Democrats, however, still control both branches of the city government, the board of aldermen by a somewhat increasd majority. The board stands 8 Democrats, 5 Republicans. The city, as usual, voted for license. The proposal to relay the street car tracks out Tremont street, which had been taken up when the subway was completed, was defeated.

League of Republican Clubs. Washington, Dec. 13 .- At the meeting of the executive committee of the League of Republican clubs St. Paul was chosen as the place for holding the next convention, that city receiving 28 votes to 3 for Indianapolis, and 16 for Sloux Falls. The date of the convention was fixed for the third Tuesday in July. A resolution for the appointment of a committee to revise the constitution, including the article forbidding the league to prefer candidates, was adopted.

England Not Borrowing of France. London, Dec. 13.-Inquiries made by the financial reporters of the morning papers have failed to confirm the stock exchange rumor that the Bank of France is about to lend the Bank of England a large amount of gold. The Daily Chronicle, commenting upon the stringency, says: "The Bank of England, we hear, is going to try once more to obtain gold abroad by lending below current rates, on condition that borrowers repay, when due, in imported gold,"

Governor Taylor Sworn In. Frankfort, Ky., Dec. 13.-William S. Taylor was, inaugurated as governor
