A thing worthy of notice is that everything seems to have joined the syndicates or trusts, claiming it protects American industry. I will now guard my lips for the future. I will cleanse my thoughts and make them pure; and the words which I have uttered against you, may you forget them. Farewell friends; farewell forever. Duwell has resigned.

Boalsburg.

The High School entertainment was a success. The door receipts were \$500. Kenben Stuart, "The Spy," wore epaulets that were worn by Colonel Johnson during the Revolution; while several of the swords used by the players have interesting histories, of former battles.

Boalsburg has some small people as well as other places. One young man brought with him three other young men and he offered to pay the admission for all; however, he succeeded in cheating the door keeper, intentionally, out of nearly half the admission fee. All were dudes, too.

We won't answer the Runville scribe. We don't know anything about him, aside from the fact that he is a squint-eyed, dyspeptic prevaricator, with a breath like a buzzard and a record like a convict. He means well enough and if he can evade the penitentiary and the Snow Shoe scribe a few more years, there is a chance for him to end his life in the natural way.
