 Philip Spotts has been thinking of having his name announced next spring for Supervisor. He had been practicing on bridges he built on the ice to cross a stream and when he came to use it it was gone. He said he would not care, but it was good timber and the people at Lock Haven would pull it in and cut it up for fire wood.
 THOS BENNET—Died in Port Matilda, Friday March 23rd, 1900, of pneumonia and heart trouble, Thomas Bennet, aged 71 years. The deceased moved to Port Matilda in the year 1865 and resided here with his family ever since. He was a member of the M. E. church—a kind husband, tender parent and an obliging neighbor. He leaves to mourn his loss a wife and four children namely: Samuel, of Tyrone; Henry and William of Port Matilda; John, of Pitcairn. Of several brothers and sisters only one survives him, Mrs. Jane Cowher, residing near Black Oak. The remains were taken from his late residence to the M. E. church where the Rev. Downing, pastor of the Baptist church, assisted by Rev. Young of the M. E., paid a glowing tribute to his memory after which they were taken to Black Oak cemetery for interment followed by a large concourse of friends and neighbors. Thus another neighbor and friend has been called to his reward.

It's Easy To Take

Thin, pale, anæmic girls need a fatty food to enrich their blood, give color to their cheeks and restore their health and strength. It is safe to say that they nearly all reject fat with their food.

SCOTT'S EMULSION OF COD LIVER OIL
 WITH HYPOPHOSPHITES OF LIME & SODA

is exactly what they require; it not only gives them the important element (cod-liver oil) in a palatable and easily digested form, but also the hypophosphites which are so valuable in nervous disorders that usually accompany anæmia. SCOTT'S EMULSION is a fatty food that is more easily digested than any other form of fat. A certain amount of flesh is necessary for health. You can get it in this way.

We have known persons to gain a pound a day while taking it.
