**Snow Shoe.**

Winter has come with its sleigh-bell song And Spring is with us again; It brings along its twittering throng We'll now have to listen to them.

Saul Lohr will move from this place to Runville.

The week of prayer and devotion, appointed by the Methodists, was well observed by our people.

Frank says the party out at Mechley's was alright.

A night train is now being run on Snow Shoe branch.

It might not be out of place to mention, for the benefit of Runville and vicinity, that none of this crew are particularly indisposed to eating chicken.

Schools will soon close, then the little boys can learn how to bait a hook again, or tear his trousers climbing to investigate a bird's nest. But what will the teachers do.

Alice Irvin, daughter of Mr. and Mrs. James Irvin, of Snow Shoe, died at Bellefonte Thursday, March 29, from diphtheria. This is sad news to all that knew her, and the sympathy of all is with the bereaved parents.

The lecture was very well attended and everyone seemed pleased with Rev. Ganoe's talk on the Civil War. It was a little odd though, to those who have been reading up modern warfare, wherein a red-haired woman and lantern jawed mule cuts no ice.

A party of Runvillers drove to this place on April 1st, in search of a new breed of chickens. They say they want the "rubber necked" variety. As Runville girls can't be rubber necked they must have rubber necked poultry.

Engineer John Fulton, of Tyrone, lost his bearing in West end of Snow Shoe city and before he could locate himself met with some strange adventures. It is thought Wm. Laird, who takes his place, will profit by this experience and not go out without a chaperoon.

Yarnell says its hard to tell who is the scribe, but we'll find out. We have him cornered. He did not make his appearance in last week's issue. He is trying to pann off as a Runville school girl, but he'll have to remove those suspenders and have that wart amputated, then the Runville girls are far too pretty to allow him to pretend he is one of their number. They don't turn grind-stones and raise poultry for nothing and they are willing to bet their boots on it—but they want fit.

**FAKINS**—Our town at present is very much infested with fakirs. It is a rare thing to walk two blocks without being accosted by some one who is raising some collection or who to sell you a ticket to something you cant afford to miss, or has a few chances left on a gray mare or godad which he thinks will be the lucky ones, or wants to take you upstairs and show you a fine line of spring suits that dont cost anything to look at, and dont look as if they cost very much either. If you can live in Snow Shoe without being buncoed, you're alright for New York and the larger cities.

**Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is not a permanent condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
