## Deafness Cannot Be Cured

by local applications, as they cannot reach  
the diseased portion of the ear. There is only one  
way to cure deafness, and that is by constitu-  
tional remedies. Deafness is caused by an in-  
flamed condition of the mucous lining of the  
Eustachian Tube. When this tube gets inflamed  
you have a rumbling sound or imperfect hear-  
ing, and when it is entirely closed Deafness is  
the result, and unless the inflammation can be  
taken out and this tube restored to its normal  
condition, hearing will be destroyed forever;  
nine cases out of ten are caused by catarrh,  
which is nothing but an inflamed condition of  
the mucous surfaces.

We will give One Hundred Dollars for any  
case of Deafness (caused by catarrh) that can-  
not be cured by Hall's Catarrh Cure. Send for  
circulars, free.

HAD

## CONSUMPTION

and I am afraid I have in-  
herited it. I do not feel  
well; I have a cough; my  
lungs are sore; am losing  
flesh. What shall I do?

Your doctor says take care of  
yourself and take plain cod-liver  
oil, but you can't take it. Only  
the strong, healthy person can  
take it, and they can't take it  
long. It is so rich it upsets the  
stomach. But you can take

SCOTT'S  
EMULSION

It is very palatable and easily  
digested. If you will take plenty  
of fresh air, and exercise, and  
SCOTT'S EMULSION steadily,  
there is very little doubt about  
your recovery.

There are hypophosphites in it;  
they give strength and tone up the  
nervous system while the cod-liver  
oil feeds and nourishes.
