7, 9 and 11 Crider's Exchange, Bellefonte.

## Hot Weather Fixions.

Window Screens 15 cents—light wood frame, fit any window 25 to 32 inches wide. Screen Doors, all sizes, well made, light and dark, complete with hinges, 95c and \$1.15.

ICE CREAM FREEZERS—all sizes. Japanese Porch Screens—best kind made of the Bamboo Bark. You can thank the Japs, for this indispensable hot weather sun protector, price 1/4 less than city "figgers."

1000 pounds assorted Granite Ware. Remember I told you two months ago of 2 1/2 ton, just in. This 1000 pounds is what I was obliged to buy to fill in the "Sold out" corners. Bellefonte never saw such good ware at uniformly low prices. It's a snap, and if you need anything in Granite Ware, it will pay you to come twenty miles for it.

## Flags and Bunting

for Memorial day. Come and see.

### Fiedler.

Frank Guisewite, our "up-to-date" blacksmith, is now prepared to shoe all kinds of vicious horses or mules. Last Tuesday he received one of the "Martin Horse Shoeing Racks," from Sidney, Ohio, which is far superior to the ordinary stocks used for like purpose. On Tuesday Mr. Guisewite shod a western horse owned by D. Musser, which could not be shod anywhere, also two mules for Wm. Smith, which was easily and quickly done by this method. The rack cost \$60, but Mr. Guisewite says he would not be without it anymore if it cost him \$100.00. This is the only one of this kind in this part of the state.

Ross thinks girls are awfully scarce in this vicinity. Consequently it makes him feel home-sick.

C. E. Kramer is attending school, at Spring Mills.

A cold wave is blowing at present, a hail storm having preceded it on last Friday.

It is reported that Wm. Wolfe, our progressive lumberman, has purchased another saw mill and engine complete, from Harter & Bros., of Sugar Valley, and also another timber tract of J. H. Reifsnider.

Quite a number of young cattle were taken to Pine Creek Hollow on Saturday, but most of them returned the same day. As there were thousands of acres burnt over this spring, pasture is not as plenty as usual.

Mrs. W. J. Krape is a great sufferer with inflammatory rheumatism, being rendered entirely helpless. She has the sympathy of the entire community.

O. Stover and wife attended the funeral of Mrs. M. O. Stover, of Cedar Springs, which took place last Sunday.

Emil Musser and Mrs. E. J. Hinds and daughter, were to Northumberland attending the funeral of Samuel Shirk, who was killed while in service of the Penna. Railroad. The accident occurred two miles from Danville. He lived long enough to be brought to the Hospital at Sunbury, where he died in a few hours.

### Hannah.

Corn planting is the order of the day. Wm. Stimer has taken a tie job, in Sinking Valley, where he expects to work this summer.

Miss Ellie put herself in Frank's care last Sunday, and he took her driving over to Fillmore, to Mr. A. H. Hoovers, where they spent Sunday.

A certain married lady, of this place, awoke badly frightened the other morning. Missing her artificial teeth she at once decided she had swallowed them, she ran down stairs with a very pale face and informed her husband of what had happened, at the same time complaining of a burting in her stomach. They both went upstairs and there lay the teeth on her pillow. It is needless to say from that moment she felt quite well.

Samuel Hoover is nursing a very sore arm and hand, which is the result of a burn received at the time his barn burned.

Mrs. Margaret Reese is improving her house by having a new roof put on.

Mrs. J. W. Beckwith made a trip to Tyone, last Monday.

### Wolfs Store.

A hail storm visited the eastern part of Brushvalley, last Friday evening.

Mother Nancy Brungart, of this place, is confined to her bed suffering with pneumonia and a complication of diseases.

Wm. Wolfe and wife, of Booneville, Clinton county, spent last Sunday at the home of the lady's parents, Cyrus Zeigler's.

Titus Klinefelter and family, of Nippenose valley, were guests at J. E. Zeigler's last Sunday.

Mrs. Ida Dooty Sundayed in Sugarvalley with her parents and friends.

The large barn on the farm owned by Mrs. Mary Ann Kreamer, and occupied by H. C. Brungart, is undergoing repairs. It will also be painted, and after it is finished the buildings on this farm will be among the best in the valley.

L. A. Zeigler left Tuesday for Lemont, Linden Hill and other places in the upper end of the county.

Farmers desiring to build wire fence should consult with W. H. Zeigler for terms and prices.

### Penn Hall.

Mr. and Mrs. Geo. Gentzel presented their daughter, Miss Carrie, with a new Brambach piano for a birthday present.

Rev. J. M. Warden, the noted evangelist, of Harrisburg, is holding a ten-days meeting in the Lutheran church; commencing on Sunday the 20 inst.

H. B. Herring recently purchased a large tract of timber land north of town, from J. H. Reifsnider, and has commenced operations on the same.

Supervisor Jno. Breon is busily engaged in repairing the roads.

The Penn Hall Cornet band is making very rapid progress. The boys contemplate making their debut on Memorial day.

### Milesburg.

Bald Eagle Lodge No. 410 I. O. O. F. received an invitation from Geo. L. Potter post No. 261 G. A. R. to turn out in a body to attend Memorial services held in the M. E. church, on Sunday 27th, at 10:30 a. m. by Rev. Smith. All the members with the visiting members of the order, are cordially invited to be present. Come one and all—to help a good cause along. Meet at their hall at 10 o'clock sharp.

# The Standard Sewing Machine.

## Every Mechanic

Will vouch for the superiority of Rotary over Vibrating Shuttle Machines. You will only require one in this life. It will outlast any human frame.

## Every Standard

Rotary makes both Lock and Chain Stitch.

## Reasons for Buying a High Speed "Standard" Rotary Shuttle Two-in-One Sewing Machine. Makes 176 Stitches While Others Make 100.

- 1 The "Standard" Rotary has the biggest bobbin of any lock stitch machine. Holds 100 yards of No. 80 cotton.
- 2 Bobbin more quickly wound.
- 3 The first stitch perfect without holding ends of threads.
- 4 The tension is released when taking out the goods.
- 5 The finest goods are not drawn or puckered.
- 6 Less noise than any other machine.
- 7 RUNS 75 PER CENT. LIGHTER THAN OLD STYLE MACHINES.
- 8 Is the most rapid sewer—makes two motions of the treadle to three of other machines in sewing the same length seam.
- 9 Tension not changed by change of speed, size of thread, thickness of goods nor length of stitch—what other machine can do as much?
- 10 Most elastic stitch. Thread does not break when seam is stretched.
- 11 Does not break thread when machine is run backwards.
- 12 The "Standard" Rotary Needle dips only once when making a stitch—old style shuttle needles dip twice—hence that much more strain and wear.
- 13 The "Standard" Rotary Shuttle never stops when the machine is in operation. Old style shuttles start and stop twice to each stitch. Just think of the extra strain and wear that this makes! The "Standard" Rotary Shuttle moves onward continuously without a jar.
- 14 Shortest needle used in lock-stitch machines—therefore less liable to bend and skip stitches.
- 15 Owing to the construction of the shuttle and race, the point of the shuttle always comes in proper relation to the loop, hence almost absolute freedom from stitch skipping.
- 16 Shuttle so constructed that it cannot hit the needle—hence no broken needles from this cause.
- 17 Protection and packing of needle bar and construction of take-up and feed make less liability to oil goods than in other machines.
- 18 The face plate can be taken off by a thumb-screw, thus enabling the operator to clean and oil the parts without displacing any of them.
- 19 Feed motions all positive—no springs used—hence machine will feed over all thicknesses of goods and seam without "chewing" the cloth, no matter what the length of stitch.
- 20 Will wear twice as long as other lock-stitch machines.
- 21 Every part is independent of every other part, and can be replaced at a trifling cost. Therefore you can keep a "Standard" Rotary practically new a life-time.
- 22 Bran new set of attachments, self adjusting, and fastened to the presser bar in place of the foot.
- 23 Stand wheel and treadle run on adjustable steel points, which insures the easiest, smoothest bearings known to mechanics, and the wear is for a life-time.
- 24 Bent woodwork of the finest construction and finish known to art.
- 25 Automatic keyless drawer and cover locks, peculiar to the "Standard."
