GOOD PROSPECTS.

The Empire Furnace, at this place, closed down on Sunday evening at 10 o'clock. For sometime it was predicted that the plant would go out of blast, and there have been numerous reasons assigned for it. Some seemed to think that they were making a very unsatisfactory quality of iron. Others said the plant was so badly run down that expensive repairs were necessary. Considering the high price paid for iron, and the great demand for the product, it does seem strange that this plant should be idle at this time when there are such opportunities for making large profits.

The situation was explained to the writer by a party who could speak with some assurance of knowing what he was talking about. The furnace now is in need of some extensive repairs. There also is some litigation on hand between the owners of the plant and the lessee which must be adjusted at once. After that, it is considered certain that it will soon be put in operation, as steps are being taken for that purpose.

During the past week there were many rumors that the Scale Works had concluded to leave Bellefonte. That is a mistake, as no such action was taken by the company. Some of the leading business men of this place, and property owners, have taken this matter under advisement and they are much pleased over the prospect of inducing the company to erect their new plant at this place. A suitable location has been secured in the Glass Works meadow, and other conditions necessary seem to have been provided for. One of the men interested in holding the plant at this place assured the writer that he had no fear now that the Standard Scale works would leave our town.

The above information is not given by random, and we have every reason to believe that it is reliable. It gives Bellefonte people some reason to breathe easier over the assurance that two of our important industries will not be lost to the town.

On Tuesday, also, the new dormitory will be dedicated by Dr. Kerr Boyce Taper, of Philadelphia. In the evening Martin Bell, president judge of Blair county, will address the college alumni. The Commencement exercises of the college will take place on Wednesday, June 20. The class consists of 55 members.

Mr. Bower's nomination was made by acclamation, and that completed the regular work of the convention. There being some time on hand, there was a call to hear Senator Heimle, and he responded in a forcible address that bore on the great issues of the day. Editor Fred Kurtz, of the Centre Hall Reporter, was called upon and had the following resolution up his sleeve that was read and adopted by the convention:

Whereas, The said Governor, William A. Stone, in appointing M. S. Quay to a seat in the United States Senate by a certificate in violation of the Constitution, as repeatedly declared by the United States Senate, and

Whereas, The said Governor William A. Stone, has, by eminent legal authority been adjudged guilty of a violation of the Constitution, in that he has by veto cut down the appropriation to the school fund one million dollars; therefore,

Monday evening's deliberations can be summed up briefly: Grade is to be established on Reynolds avenue. Water is to be furnished free for five years to the scale works if they locate on the glass works meadow.

F. W. Crider offered to pay 1/2 the expense of paving Allegheny street with asphalt in front of the exchange from the Diamond to the crossing at Eagle block. The matter will be held under further consideration.

Several crossings were ordered repaired.

Complaint was made to council that the street sprinklers make the streets too muddy in some places and too dry in others. Referred to street committee to look into the matter.

Bills were approved to the amount of \$1425.60.

GOOD EFFORTS.

The following clippings are complimentary to two of our prominent young orators:

The Roward Hustler says: "Capt. H. S. Taylor, of Bellefonte, who delivered the best Memorial oration that has been listened to in this place for many years, was entertained while here, at the home of Mr. and Mrs. W. T. Leathers."

The Phillipsburg Journal says: "W. Harrison Walker is the youngest man ever invited by John W. Geary Faust to deliver the Memorial address, but those who were fortunate enough to hear him last evening agree unanimously that the old veterans made no mistake in their selection. The address delighted everybody, and its able character and the eloquent manner in which it was delivered would have done honor to many older and distinguished speakers."

FOUND IN THE RIVER.

The body of a man recognized as Jack Harbaugh, of Coburn Centre County, was found in the river, at Clearfield Friday afternoon. The body was about fifteen feet from the shore near the dam.

Harbaugh was employed by the Surveyor Run Lumber Company on their mill at Surveyor Run, and came there last Saturday. He was again seen on Monday morning in the vicinity of the Beech Creek railroad station. He was a man between 54-55 years of age and had acquaintances there. The body was sent to Coburn for interment.

He was in Clearfield on Memorial Day and had considerable money on his person. The face is much discolored and there are cuts and bruises about the head. Near where the body was found are the railroad yards, a great resort for tramps coming and going over the several lines.
