GOOD IDEA.

The Village Improvement Society, a local organization of ladies of Bellefonte, held an important meeting Monday evening. It is the intention of the society to keep the streets of our town in a clean and attractive condition. They decided to place zinc lined barrels nicely painted and appropriately labeled along our prominent thoroughfares, into which all waste paper and refuse is to be deposited. The barrels will be emptied as frequent as necessary. The plan will go into effect just as soon as the barrels can be secured. The Burgess assures the ladies that he will enforce the ordinance which forbids the throwing of waste paper and refuse on the streets. This is a good move and the people should support the idea.

SCHOOL MATTERS.

At the regular meeting of the school board, held on July 2nd, teachers for the ensuing year were elected as follows: High school--Principal..... John D. Meyer 1st Asst..... W. F. Keisley 2nd Asst..... Ella Levy Senior Grammar..... Paul Fortnes Junior..... J. F. Harrison Intermediate..... Kate F. Hughes "..... Carrie A. Weaver "..... Gertrude Taylor "..... Rose Fox "..... Jennie Longacre "..... May Taylor 2 " Primary..... Mary Underwood "..... Annie McCaffrey "..... Mildred P. Smith "..... Fannie Elmore 1 "..... Beila K. Rankin "..... Bessie Dorworth Supervising principal D. O. Etter was elected for 3 years in 1898. To read the report of this meeting, as contained in the Daily News, one would infer that there was an effort, on the part of some members of the board, to elect a teacher not qualified for the vacancy caused by the retirement of Miss Curry. The only difference in the board, as we are informed, arose from what different members of the board thought constituted a good teacher. At the same meeting the board also levied the school tax for the year. By reason of the cut in the state appropriation it became a question with the board whether the school term should be decreased one month or the tax levy increased one mill. The financial committee wisely concluded that the children of the town should not suffer because of an illegal veto of a part of the state appropriation to the schools, and recommended a levy of seven mills. The board is to be congratulated on its work. We believe no town has a more efficient and effective corps of teachers than has ours. Successful Picnic. The Undine Fire Company, of this place, are happy over the result of their picnic at Hecla Park, on the Fourth of July. The attendance surpassed their expectations. The crowds were beyond the capacity of the railroads to handle, and at Williamsport there were about 500 people who could not get aboard the special that left there in the forenoon. The presence of the Famous Repas Band of Williamsport was the special feature of the day. They gave two concerts and both were well attended. This is considered one of the finest musical organizations in the state and it was a rare treat to hear their concert music and the musical arrangement of the Spanish War, with the aid of moving pictures and other effects. The crowd at the park was so large that the boarding house facilities were soon exhausted and the surrounding towns were scoured for provisions to feed the hungry. Nearly everything salable was disposed of in short order, and the result is that the company have cleared a handsome sum. Getting Cheaper. A chemist claims to have discovered a process by which wood may be converted into a palatable food. If that is correct there should be no reason for a fellow skipping a board-bill. Keep Your Feet Cool..... YOU are often advised to keep the feet warm and the head cool, but that advice is for winter only. Keep your feet cool and your temperature is likely to be lower than if you paid no attention to the clothing of your feet. Many people dress their feet as warm in Summer as in Winter. They ought not. Not when we've light weight, low-cut shoes in such plentiful numbers. Not when prices are so low as here. No; indeed. There is no excuse for having the feet warm, uncomfortable and perspiring.
