Montgomery, has gone to Wellsville, Ohio, where he has accepted a good position in a large machine shop. An interesting communication from Boalsburg was fired in the waste basket because the writer withheld his name. This happens almost every week to some one. The Bellefonte Lime Company's quarries at Salona resumed operations Monday. The Bellefonte furnace will be put in blast the latter part of the month. Persons desiring to contribute to the relief of the Galveston flood sufferers can leave their offering with Isaac Mitchell, treasurer, at Jackson, Hastings & Co's. Bank. Mrs. S. B. William is an active member of that body. This Thursday the entire receipts of the soda fountain in Green's drug store will be donated to the Galveston, Texas relief fund. It is not necessary for you to fill up on soda but you should go there and drop a dollar in the drawer for the homeless and distressed. You owe that to humanity. Lock Haven is having a baby show this week for the benefit of the hospital fund. Good idea and it ought to be a winner. Babies are plenty down in that river town, as the climate appears exceedingly favorable for their propagation. But when you want to see nice babies—big, fat, laughing bouncers, you must come to Bellefonte; we have prize winners. At a meeting of the Bryan League of Centre county, held on Wednesday evening the 19th inst, the time for holding the weekly evening meetings was fixed for Wednesday, and the first formal meeting of the club will be held on Wednesday evening the 26th. Their club room on the second floor of the Reynolds building, will be open at all times, and will be supplied with campaign literature and also leading daily papers.

No reduction can be expected. Geo. T. Bush, of the popular young shoe firm of Powers Shoe Co., has just returned from a ten weeks trip to Europe and Great Britain; he also visited the Paris Exhibition and the celebrated Passion Play at Oberammergau, Germany. He wheeled through France, Germany and Switzerland, and also visited Holland, Belgium, England and Scotland and report having a fine time.

HOUSE AND STABLE BURNED. Household Goods go up in Smoke and Mountain Fired. The dwelling house of Speer Burrell, located about one mile west of Spring Mills, and occupied by Ira Bartley took fire Wednesday 12, from a defective flue, and its contents were consumed. The flames spread to the out-buildings and stable which were also destroyed, and from there the fire led along fences to the mountain. Mr. Bartley lost almost all of his household effects. No insurance. Wednesday evening the populace about Spring Mills turned out in large numbers to fight the mountain fire. The winds during the day had chased the flames over a large territory.

NEEDED HERE TOO. Just at this time, says an exchange, our country needs a new religion that will make a man pay his debts. Shouting don't settle old accounts with God or man. We bounce right into a fellow and put him out of the church if he goes to a ball or theatre, but never a word to a pious scamp who never pays his debts. Preachers and people who never pay their debts are doing the church more harm than dancers or drunkards, for there are more of them in the church. Reader, is this getting close to you? Then lay down your paper and go and pay up and read on with ease. And don't you stop paying because the "statute of limitation" excuses the open account which you made for bread and meat. You must pay in cash or God will make you pay in fire and brimstone. God knows no such excuses for not paying as "homestead exemption." When you raise that excuse to keep from paying your debts you can stop singing "When I can read my title clear to mansions in the skies." You've none.—Methodist Advocate.

Missionary Convention. Among the Centre countians who will take part in the program at the twenty-first convention of the Woman's Home and Foreign Missionary Society of the Central Pennsylvania Lutheran Synod, to be held in Millersburg on September 24th and 25th are Rev. In a Den of Rattlers. Nicholas Adabo, an Italian interpreter was fatally bitten by rattlesnakes near Jersey Shore yesterday. He was in charge of a gang of Italian laborers who are making some excavations for the New York Central railroad company, and while walking where the earth had been removed he came upon a large reptile. In his endeavor to dispatch it, Adabo stepped backwards, planting his left foot in a den of fifteen of the rattlers. Three of the snakes sunk their fangs into the calf of Adabo's leg.

Coal Trade. During the first seven months of 1898 we sold to foreign countries only \$6,396,190 worth of coal. In 1899, during the same seven months, we sold them \$7,863,289 worth. If our sales continue as large during the remaining months of the present year as they have been so far we will have exported during 1900, \$20,000,000 worth of coal. The reason for this is that all the industries in foreign countries are busy, there is a greater demand. There is prosperity abroad, but McKinley is hardly responsible for it.

After the "Deadbeat." It is said that the Pennsylvania railroad company will not allow a man to continue in their employ who will not pay his debts. They propose to pay salaries that will enable their men to live and are opposed to encouraging dead beats. When a complaint is made that so and so owes a bill and refuses or persistently neglects to settle, a notice or reminder is mailed to the delinquent, and if the matter is not attended to forthwith he will be discharged.

Dynamite Destroys a Cow. Some fiend tied a stick of dynamite to the tail of a cow belonging to James Duglavich, of Greenwood, Clearfield county, Tuesday morning, and arranged a cap so that it would explode in a few minutes. It blew the animal to atoms, and the explosion shook the town. The township police have undertaken to run the guilty party down.

Good Crop. A special to the Lock Haven Express from Beech Creek says: On the David farm, situated on the top of the Allegheny mountains and owned by Casper Peters, there is an apple orchard which promises a tremendous crop of the finest kind of winter apples. A conservative estimate places the crop at 1,000 bushels. The apple crop in this valley will be only about what it should ordinarily be.

Gotwald, of Springfield, Ohio, formerly of Aaronsburg, died at his home last Saturday the 15th inst.

MANY RECENT DEATHS.

JAMES W. ALEXANDER.—It was an unusual and sudden death, that of J. W. Alexander, Esq., one of Bellefonte's bright and prominent young attorneys, on last Friday morning after a brief illness of less than twenty-four hours. On Thursday morning while sitting on the porch he was suddenly taken ill with a severe pain in the bowels. His mother assisted him to bed and Dr. Locke was summoned who pronounced it an ulcer of the bowels. Another physician was summoned from Williamsport and Friday morning an operation was performed, which showed that gangrene had set in, and all hope was gone. Mr. Alexander recovered consciousness soon after and was informed of his ailment. He was conscious almost to the last moment, and then peacefully passed away. James W. Alexander came of a good old Scotch family, who emigrated to this country about 1736. They were among the early settlers of this part of the state and his great grandfather served with Washington during the revolutionary war. Deceased was born August 24, 1864, and was the only son of the late Senator Cyrus T. Alexander. In 1880 he entered the freshman class at Pennsylvania State College and in 1894 he completed the scientific course graduating with the degree of Bachelor of Science. After his father's death which occurred in 1885 he prepared for the bar under the direction of Judge John G. Love and was admitted to practice in the courts of Centre county, March 4, 1890. On July 10, 1894, he enlisted in Co. B, 5th Reg. N. G. P., as a private and rapidly arose to the rank of Sergeant. During the Spanish-American war he served with credit as a member of this company. He was an active member of the Knights of the Golden Eagle, and was instrumental in organizing the Bellefonte Conclave of the Independent Order of Heptasophs. He was also a member of the Logan Fire company. Deceased is survived by his mother, Mrs. Margaret Alexander and one sister, Mrs. H. S. Yarrington, of Richmond, Virginia.

Spicer, died of cholera infantum on Sept. 16, 1900, aged 17 months and the remains were also buried in Messiah's cemetery, on Tuesday, the 18th inst. Rev. J. Zeigler officiating in both cases. The deceased were near relatives and the sad parents share our condolence and sympathy. An infant child of Mr. and Mrs. Frank Young, of near Messiah's church in Boggs Twp., died Wednesday morning; interment Thursday morning. This child was a relative of the above two.

MRS. HANNAH P. DOWNING: died at the home of her grandson, Albert Downing, near Vail, at 11:30 o'clock Wednesday night, Sept. 12, from the result of injuries received August 31 last, while on her way to that place from the home of her son, Robert Downing, at Culp. She was aged 80 years, 7 months and 7 days. W. W. CLARK.—Of Blanchard, better known as "Billy" Clark, died in Grayson, La., Friday, Mr. Clark left for Louisiana several months ago. He was in the lumber business. He was about 65 years old. His wife is dead, but he is survived by several sons and daughters. Interment at Blanchard.

Census Reports. The population of Altoona, according to the census of 1900, has just been announced. It is 38,973, as compared with 30,335 in 1890, a gain of 8,638, or 28.47 per cent. in the past ten years. The population of the city of Harrisburg, Penna., in 1900 is announced as 50,167. In 1890 it was 39,385. These figures show an increase of 10,782. This is 27 per cent. increase.

Continental Hotel Sold. Jonas Stettler, of Tyrone, has purchased the Continental hotel, at Philipsburg, and has taken charge of the same. He will be assisted for a couple weeks by "Jake" Ewing, who is as clever a fellow as you will meet in a week's travel. We have not learned what Mr. McCallister will embark in but wish him success in what ever he does.—Journal. Quickly Forgotten. The great loss of life at Galveston, Texas, recalls the great disaster at Johnstown in 1889 and yet how few there are who have the number of the dead in mind. There were 2,228 of the Johnstown dead-identified and the probable loss was 3,500. Various estimates of the total number who lost their lives were made, some placing the number at 5,000.

Brakeman Badly Hurt. Frank Kunes, of Beech Creek, a brakeman on a Beech Creek-railroad train, was struck Saturday afternoon by an overhead bridge near Viaduct and badly injured. He was taken to his home at Beech Creek. W. B. Rearick, of Niagara Falls, is home on a short vacation to visit his parents and many friends. Rev. Dr. Luther A. Gotwald, of Springfield, Ohio, formerly of Aaronsburg, died at his home last Saturday the 15th inst.

TO ENFORCE GAME LAWS.

State Commission Directs Attention to Shipment of Game. A circular has just been issued by the State Game commission setting forth the purposes of the commission, to enforce game laws. Special stress is laid upon the law of 1897 prohibiting the purchase or sale of deer, wild turkey, pheasants, quail and woodcock, within the state, and forbidding the shipment of all game out of the state. Attention is also called to the Lacey bills, which received the almost unanimous support of congress and the approval of President McKinley last May. The act prescribes the manner in which game of all kinds shall be packed and shipped from one state to another, imposing heavy penalties for failure to comply with its requirements. Common carriers are directed to see to it that they do not violate the laws of any state by carrying game out of the state contrary to its laws. Since the enactment of the game law of 1897, the courts of several states have decided that the legislature of a state could pass a law forbidding the sale of any or all game within that state or not and that the act would not interfere with the Interstate Commerce act. It has also been decided by the United States Supreme court that game is not the subject of interstate commerce.

State College Opens. State College opened last week with a freshman class of 137, making the total student body over 400. The additions to the faculty are H. A. Surface, who will fill the chair of biology, and W. N. Golden, physical director. A number of new and important departures will be introduced this year. The Bellefonte Republican has nothing more to say of those oleomargarine frauds—it don't care a darn for the farmers it seems, just so "Harmony" can be maintained. Such consistency is alarming inconsistency of the rankest flavor, and viler than the vilest oleo ever sold. It is seriously questioned whether Galveston can ever recover from the storm. Chicago recovered from its fire but that was a calamity against whose recurrence it was possible to provide, while Galveston must always lie open to another storm just like the last.

School Shoes That Stand The Strain.

WE'VE just opened a line of the noblest shoes for school boys and girls that we have ever shown at any price—and these are not the most expensive sorts, either. The man who owns and runs the factory in which these shoes were produced has been a practical shoemaker all his life. He used to make shoes by hand and did loads of cobbling for school children. It was during his early days that he studied the needs of children and saw the need of better shoes than had been made for the youngsters. The result of his thought and experience in this direction is manifested in these shoes. The shapes, trees, the addition of strength here and there where most of the strain comes, and the little touches of beauty make these shoes very much different and very much better than the commonplace, clumsy shoes usually turned out for children. \$1.50 for a pair of the best in the lot. Some are \$1.75, \$1.50, \$1.25 and \$1.00; all very low priced when the quality is considered. Will you come in and look at them?
