CHAFFEE ORDERED OUT.

The American Army Must Withdraw From China's Capital.

A LEGATION GUARD TO REMAIN.

Meantime Alarming Reports Have Reached Berlin From Count Waldersee, and It Is Believed in London He Will Declare War on China.

Washington, Sept. 26.-The United States government yesterday took the first step toward the redemption of its pledge made to the Russian government Aug. 28 last, by cablegram instruction to Gen. Chaffee to reduce the American forces in China to the proportions of a legation guard. Nearly a month ago the Russian government was told through M. De Wollant, its charge here, that if the Russian forces and ministry were withdrawn from Pekin, "we shall give instructions to the commander of the American forces in China to withdraw our forces from Pekin, after due conference with the other commanders as to the time and manner of withdrawal." That time has now come, and yesterday's action marks the beginning of the disappearance of the American army from China, for, although some military force is to remain, it will not be of the character of an army, but will be rather of the nature of a civil guard. This small force will not be included in any military operations which may be conducted by the allied armies, and so will not fall subject to the direction of Field Marshal Count Von Waldersee, the commander-in-chief.

Much thought has been given to the proper number of troops to be allotted for this purpose, and it is believed that the 1,400 men selected will be quite sufficient to protect the American legation against any force that could be brought against it. It is noteworthy, too, that the most complete arrangements have been ordered for the maintenance of the men, while care has been taken that there shall not be a shortage of ammunition, as there was in the British legation during the It is estimated that about a week will be required to bring the 3,500 soldiers away from Pekin, but as the start cannot be made immediately it will be at least about the end of the first week in October before the movement can be completed.

ALARMING REPORTS FROM CHINA. Count Von Waldersee Finds the Situntion Very Dangerous.

Berlin, Sept. 26 .- Alarming reports from China have reached the German government, but they will not be published now, as Germany intends to use them during the conferences in Pekin. Field Marshal Count Von Waldersee has cabled to Emperor William direct that he has found the general situation much more dangerous than he had expected, as it has grown worse during the last fortnight, and the consuls in central and northern China are expecting a general uprising.

Advices from Dr. Mumm von Schwartzenstein, the German minister in China, are of a similar tenor. Rear Admiral von Bendemann has repeatedly cabled that the situation along the Yang Tse Klang is very critical, and also expressing fears concerning the safety of Kaio Chou.

The German foreign office has received official information of the appointment of Prince Tuan as grand secretary. In reply to an inquiry as to whether this indicated a serious turn of affairs a high official of the foreign office said:

"Undoubtedly it does for those powers who want to begin peace negotiations. The appointment means that Tuan is now at the helm and shows Brooks has succeeded in protographto what lengths the Chinese government will go in defying the powers."

GERMANY MAY DECLARE WAR. And in This, It Is Said, France Will

Support Her. London, Sept. 26 .- The news from

China indicates that events are rapidly drifting in the direction of war be-tween China and Germany. "There is the best of reason for believing," says the Shanghai correspondent of The Morning Post, "that Count Von Waldersee, on arriving at Taku, will present an ultimatum demanding the surrender of five leaders of the anti-foreign uprising. After a few hours' grace he will formally declare war, and, taking advantage of Germany's position as a belligerent, he will proceed to seize everything available with the German forces and fleet. It is expected that Germany will take the Wu Sung forts and the Klangan arsenal, thus dominating Shanghai. It is also believed that she will attack the Kiang Win forts and endeavor to seize the Chinese fleet. The French will support Germany. This is not rumor, but reliable information. Prompt action is necessary to prevent a coup which will constitute a serious menace to British
