The Worst kind of Failures.

All over this country we see the baneful result of the passion for money getting. We see men on every side who are regarded as successful, simply because they have made money, but they are in reality the worst kind of failures, for they have failed to grasp the true meaning of life. When will the world learn that to pile up money or to learn to do one thing is not success?—October "Success."

Political Banners.

During the week the republicans hung out a fine McKinley transparency in front of their headquarters on the second floor of Crider's Exchange. They left "Teddy," the terror, off for some reason. The democrats also had a fine Bryan and Stevenson transparency put up on the front of the Reynolds building with the inscription over the portraits, "Republic vs. Empire." It is an attractive piece of work and was done by McSuley the artist.

Vote for a Water Works.

The citizens of Milesburg at a special election held Tuesday decided by a vote of 87 to 26 to issue bonds to the amount of \$6,300 for the purpose of erecting water works. They can have a good supply from a mountain spring near that place.

The Logan iron and steel company's works at Burnham, near Lewistown, shut down last week. A reduction of twenty-five per cent. in wages made a lot of empty dinner pails.

HANNA and Quay are now the sole attractions in the McKinley circus—a great retrograding since the death of Barnum. Hanna and Quay are now the clowns.

THE McKinley campaign is being run by fakirs and slot machine politicians.

HANNA is McKinley's manager—that should settle it.

"THE war is over"—f. e. 7000 miles over in the Philippines.

U. S. WEATHER SERVICE.

In the future we will have a weather station located at this place, where a daily record will be made of the maximum and minimum temperature, and the amount of rainfall and snow. These reports are sent to Washington, D. C., and Philadelphia, where they are carefully compiled each month and published. A similar station is located at State College under the care of Dr. Frier, Lewisburg and Lock Haven are the other nearest to this place. The weather bureau has stations of this kind located in every county and the reports are always compiled from which observations are made that prove useful to the bureau and the Agricultural Departments.

The station at this place is under the care of Fred Kurtz, now connected with this paper, who for several years kept the records at Centre Hall. He is supplied with the proper instruments for taking the measurements, and as these reports may prove of interest to many of our readers they will be published weekly as follows:

Weekly Report—Bellefonte Station. Table with columns: DATE, TEMPERATURE (Maximum, Minimum), and weather conditions for Oct. 1-10.

Rainfall: on 7th at night 1.22 inches; on the 7th, forenoon, .49 inch.

September had .88 inch rain-fall in this county. This is the lowest record for that month. The rain-fall Sunday night, at this place was 1.22 and Monday forenoon, .49 inches—total 1.62 inches, or just about double that of September.
