Unionville.

The sound of the tack hammer is—(chestnuts.)
The ladies of the Presbyterian church realized over \$22 net from their chicken and waffle supper last Friday evening. A number of Bellefonte epicures were conspicuous and, of course, the viands disappeared like mist before the morning sun.
The Ladies Aid Society of the M. E. church gave an oyster supper in the old G. A. R. Post room, above the post office, and a nice sum was realized therefrom.
A few evenings ago a couple of daring fellows, not having the fear of the law before their eyes, attempted to rob his Honor, A. J. Greist's store, before the time for closing, and while he and his clerks and a number of others were still in the main department. They effected an entrance through a window in the floor room and were evidently after flour or meat, but, fortunately for "Jack," they were disturbed by one of the clerks going back to draw coal oil before they accomplished their purpose. One fled through the window and the other through one of the back doors. We suppose they wanted to have a "full dinner pail" before the election.

Here's a good one on George Brugger; George is only a boy and don't know any more than a Bellefonte editor. George has a brother Cornelius and a cousin Sammy, and a very nice bay calf one and a half years old which, through careful training from its infancy, became as docile as a child. He could ride it and drive it same as he could a horse. He has named him Samson. George wanted to test his strength, so the trio above named, went to a strip of woods above the home and hitched Samson to a telephone pole; but George wanted something to brag of, and had nothing with which to measure the length of the pole, so he said "now Sammy, I am just four feet six inches tall, I will lie down with my feet at the end and you mark where my head comes to." This he repeated seven times. "There," said George, "seven times four is thirty-six and the half of seven is five, which makes forty-one, that is pretty good for Samson." Now his grandpa is thinking of discharging his chain carriers and hiring George to make his measurements.

Four of our boys went over to the mountain on the first of November and succeeded in capturing twenty-three rabbits, Clay Stover winning first prize, he having killed seven of them. They were more successful than Kline Woodring and Harry Gerbrick were when hunting wild turkeys. On their return here they were asked what success they had, Kline replied "Oh we didn't do so bad, if we had gotten the one we saw and two more we would have had three"—No cards of invitation to turkey dinners.

On Hallowe'en the young folks enjoyed themselves in different ways; both male and female attired themselves with the opposite's clothing and masqueraded in good style then started to see their best girl and fellow. Others enjoyed themselves in malicious mischief, destroying property. They did it innocently, not knowing the law would take a hand in correcting them for their playful enjoyment, if the owners of the property would say the word for the law to do its work.

On Saturday morning 3rd inst a sad accident occurred at L. C. Bullock's carriage works. John Smith, the blacksmith, was letting down a buggy on the elevator. Frank Smith, a son of A. S. Smith, came out of the office, passing underneath the elevator to the horse stable. A set screw loosened, the elevator, with buggy, dropped on him, crushing him to the floor in a doubled up position. More thought and expense than ever before have been lavished on the Calendar which the publishers of THE YOUTH'S COMPANION will present to every one subscribing for the new volume of 1901, since it is to be a souvenir of the paper's 70th year. It is an exceptionally attractive Calendar, and has been designed and lithographed for THE COMPANION exclusively. After the usefulness of the Calendar is past, the portrait of Priscilla can be cut out and framed and preserved as a beautiful household ornament.

This Calendar, which is sold to non-subscribers to THE YOUTH'S COMPANION for 50 cents, will be given to all new subscribers for 1901, who will also receive, in addition to the 52 issues of the new volume, all the issues of the paper for the remaining weeks of 1900 free from the time of subscription.
