EDITORIAL.

The anti-Quayites claim Quay will be 25 short on joint ballot.

Clark has carried the Montana legislature which insures his election to the U. S. senate, making one more on the democratic side.

A FOOTBALL game in every county of the country, on election day, would have excited more lively interest than did the presidential election.

The republican organs boast of the rejoicing of the British papers over the election of McKinley. Of course, it's all because of the triumph of imperialism in our free land.

Many republican mountaineers cast first vote for McKinley, says the Phil. Bulletin, rep., and it might have added these mountaineers were the first to murder a Kentucky governor.

NOT slow were the beef and pork packers, they put up the price one cent a pound on all meat, which gives them 39 million dollars profit per year. Who says McKinley brought prosperity?

FOUR years more of trust domination over the farmers and working men of the country, as a result of the election, is a blue prospect for those people—they are the ones who pay the taxes besides the tribute they pay to enrich the trusts.

The greatest rejoicing over the election of McKinley, naturally enough, comes from the trusts who are crazy with delight at the prospect of another four years to skin the people. The imperialists of Europe and the trusts over here, are birds of a feather and work together.

ELECTION is over and coal has increased in price. The Delaware and Hudson and Lehigh and Wilkesbarre Coal companies have posted notices raising the price of coal 75 cents a ton. The same rate applies to the miners who before the strike paid \$1.25 a ton and now will have to pay \$2.

THE puzzle to the general mind is, where will the assemblymen elect of this county, Messrs. Allison and Thompson, stand on the Quay matter, for or fernist? The republicans were left entirely in the dark and had to go it blind. There was no doubt about the democratic nominees upon that or any other question.

A MESSAGE from a member of the Taft Philippine commission has been received at Washington and states that the news of President McKinley's re-election has had a crushing effect upon the spirits of the insurgents.—Republican Organ.

So, then Bryan was indirectly the cause of crushing the Philippines, which McKinley failed to do in two years of war with 100,000 soldiers and 300 millions in money. If Bryan could do so much when not president, what greater things would he be capable of if he had McKinley's chair, without a sacrifice of life and treasure?

A WORLD BEATER.

Standard oil certificates were quoted Monday at 700 bid, none offered, as against 655, Friday's highest, the highest on record.

The par value of the company's entire outstanding stock is \$57,500,000, and \$700 a share indicates a market value of \$682,500,000. During this year the company has paid \$45,900,000 in dividends.

This is more than the dividends paid by all the following corporations put together: New York Central Railroad, Pennsylvania Railroad, American Sugar Refining Company, American Tobacco Company, Great Northern Railway, American Cotton Oil Company, Illinois Central Railroad, Chicago, Milwaukee and St. Paul Railroad, Chicago and Northwestern Railroad and Chicago, Rock Island and Pacific Railway.

QUICK RETURNS—LARGE PROFITS.

The first logical result of the overwhelming re-election of President McKinley affects every man, woman and child in the nation. The beef trust, of Chicago, couldn't wait even a week to get back its large contributions to the political corruption fund, with immense profits, and on Friday last the price of beef, pork and mutton was put up one cent a pound.

This trust controls the price of meats throughout the entire country, and one cent a pound will pay the trust an increased profit of \$15,000,000 on beef alone, \$20,000,000 on pork and \$4,000,000 on mutton, making a total addition to the profits of the trust of \$39,000,000 a year.

Those who voted to sustain the trusts shouldn't complain for they are getting precisely what they voted for. They knew that the re-election of McKinley would be a verdict in favor of centralization of money and trade in the interests of the trusts which now encompass the country, and they are reaping precisely the seed they sowed on election day.

The nearly 7,000,000 people who voted against the trusts, with their families, have good reason to complain of this extortion imposed upon one of the prime necessities of life. They struggled and voted to sustain the trusts, however, deliberately voted to tax themselves, and they have quick returns and large profits to the trust in the \$39,000,000 the beef trust has put upon the people of this country. The beef trust is leading the way. Next—Times.

The More Profitable "Ad."

An expert advertising agent who conducts a department of advice and criticism in Printers' Ink tells advertisers that it is not as profitable to place a small "add" in several newspapers as it is to insert a larger one in a single newspaper of large circulation. It should be noted also that the readers of the newspaper with the largest circulation in the community includes most of the readers of the other newspapers.

MILLIONAIRE GRAB IN CUBA.

Cuba, for which our soldier boys offered up their lives, is next to fall a prey to a new trust, which is to reap the benefits of what our brave soldiers achieved on the soil of the island, as they went into battles inspired by the shout, "Remember the Maine." From Philadelphia the scheme in this reported:

Representatives of a syndicate formed to develop the resources of Cuba sailed for Havana on 7, on the steamship Admiral Sampson. The permanent organization of the Cuba Company, \$20,000,000 capital, was effected at a meeting held at the Hotel Bellevue Wednesday evening with Sir William C. Van Horn, chairman of the Board of Directors of the Canadian Pacific Railway Company, as president.

The principal desire of the company is to control the electric light and trolley franchises of the island. In every town above 3,000 inhabitants new systems will be put in operation. The company is also interested in the new steam railroad connecting Santiago with Santa Clara. The road is to traverse the entire width of the island, and it is claimed that it will open to trade the richest part of the country, all of which yet remains practically undeveloped. Along the line there are known to be mines of copper, coal, asphalt, quicksilver, lead, iron ore and wells of petroleum.

The largest stockholders in the company are William L. Elkins, P. A. B. Widener and Thomas Dolan, to whom the conception of the project and organization of the company belong.

THE HIGHERS AND THE LOWERS.

McKinley's plurality is higher.
McKinley's electoral vote is higher.
The trust has put beef and pork higher.
The trust has put the poor man's coal another 75c higher.

The number of troops to be sent to the Philippines is higher.
The cost of the war is going higher.
All these higher, and many more, have come since the election and now.

Wages in many establishments throughout the country are lower.
The number of men at work is lower.
The number of individual business enterprises is lower.
The farmer's products are lower—lower than ever.

The number of commercial traveling agents is lower.
The profits of all, outside the trusts, are lower.
The number of men of honesty and ability in congress is lower.

Among the masses the number of individuals who make a comfortable living is lower.
The fellows claiming to be democrats, and who for years have been playing a scratching game out of sheer cussedness, have to answer for the defeat of our worthy nominees for the legislature, Messrs. Wetzel and Kepler, who would have been elected had there been a straight vote and the scratcher been given a "good bye, I'll see you later." There are a few malcontents who have been leading off in this for years.

AGAIN the republicans have buried the Democracy of Centre county, but as usual the organization will rally to smile them worse than ever. That has been the case.

THE EMPRESS' RESPONSIBILITY.

The demand for the retirement of the Empress Dowager is said to result from the conclusion, now generally accepted, that the Imperial Government of China was responsible for the Boxer uprising. As the Empress Dowager was the ruling authority of the Imperial Government during the uprising, this responsibility is brought home directly to her.

There is understood to be no purpose to visit upon her any personal punishment or indignity, but merely to so form the reconstructed Government as to exclude her from all participation in it. It is deemed advisable for that reason that she should remain permanently away from Peking, and that her advisors, also, should be kept away from the seat of Government.

Prompt Payment.

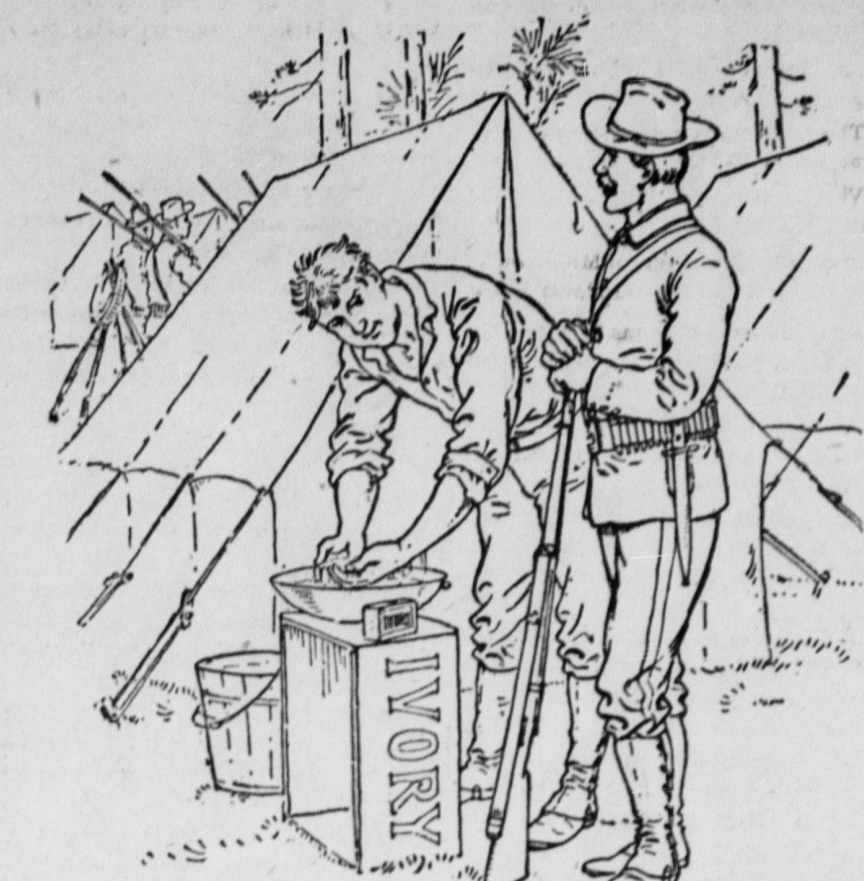

BELLEFONTE, PA., Nov. 9, 1900.
TO THE HON. JNO. M. PATTON,
Pres't Union Central Life Ins. Co.,
Cincinnati, Ohio:

Dear Sir:
I take great pleasure in acknowledging receipt of your company's draft for Three Thousand Dollars, in full payment of Policy No. 91,726 on the life of my husband, Martin L. Smyser, deceased.

The settlement of this claim is very prompt and satisfactory.
My husband died Oct. 29th, 1900. On our return from York, Pa., where interment was made on Nov. 2nd your special agent, Jesse R. Akers, of Huntingdon, Pa., was ready to make out proof of death and on Nov. 7th your draft was issued. I certainly appreciate the kind attentions and prompt payment, and can heartily commend the company and its representatives.

Very Truly Yours,
LYDIA A. SMYSER,
Administratrix.

Bridal couples are so overflowing with happiness that they go to Niagara Falls to see something else overflow.

There is enough wear and tear on the soldier without the discomforts that come from having to use a strong laundry soap. Common brown soaps, when constantly used for washing the person, are extremely irritating. Ivory soap is the ideal soap for the soldier, suitable for all purposes, for the kitchen utensils, for washing clothes, and for the bath.

Ivory Soap is not easily lost, for—it floats.

The real estate agent and the theatrical manager are both anxious to have cheap soap.

Points of Superiority in the "Standard Rotary."

The first stitch is perfect, without hiding ends of thread. The finest goods are not drawn or puckered. Owing to rotary motion it makes less noise than other machines. Tension released by pressure of a button. Thread can be cut off within quarter of an inch of the needle if work is taken out at right time. The face plate can be taken off by merely loosening a thumbnut, enabling the operator to oil and clean the parts without displacing them. Feed motions all positive—no springs used—hence machine will feed over all thicknesses of goods without chewing the cloth no matter what the length of stitch.

TO SAVE THEMSELVES From Going to The Wall!

Not having money enough to pay their bills on account of the warm weather delaying business, and having started in business this fall they did not have an established credit, the celebrated clothing manufacturers, Jones, Cohen & Co., Broadway, N. Y., were compelled to immediately dispose, for cash, their entire stock consisting of

Men's, Youth's & Boy's Clothing

Amounting to \$8,284.46, taking our choice we bought \$4,210.50 at 70 per cent. on the dollar.

We Bought it at 70 Cents on the Dollar and we Will Sell it at 70 Cents on the Dollar.

But because it was bought cheap does not signify that it is cheap goods. We did not buy it just because it was cheap, but a special trip was made to N. Y. to examine the stock. The first thing considered was the quality of goods, lining and trimmings, then to see that they were well made; after this the colors and patterns were looked after. After through with the above test we came to the conclusion that such new clearing goods would be cheap at \$1.00 for the \$1.00, but could have bought the complete stock at 65 cts on the dollar. Instead of this we bought, taking our choice, \$4,210.50 worth at 70 cents on the dollar. Thus we took the "cream" of the "rich milk." We shall try and give you some idea of what this assortment includes:

Men's Suits—Men's Blue, Black, Oxford and Fancy Suits in clays, serges, chevots, worsteds and scotches cut in single and double breasted coats and vests running in stout and slim sizes as well as in regulars. Prices are:
