IT is sad to hear republican organs and republican leaders, pretending to decency, rejoicing over the fact that by bribery they succeeded in electing a speaker of the house. The verdict of the people at the late election was largely and most emphatically against Quay. O tempora, O mores.

Ex Mayor Hewitt's arraignment of American society at this, the close of the It is believed the senate will reject nineteenth century, is a scathing one and Hamilton's appointment by the governor, all the more terrible because there is so much truth in it. It is in what he says of our public morals, rather than our THE Philipsburg Journal upholds private ones, that Mr. Hewitt's words are most bitterly true:

"While society is organized for the good of the people, government is not. The Centre Democrat.

It is now reported that our man Thompson will vote for Quay. Guess he now knows where he is at. Whenever Tesla completes his electric communication with the planet Mars, then we will want to message across space to ascertain whether they need Thompson way across there. Reeder will take him "yander" in a Pullman.

THE York county democratic assemblymen give as their excuse for voting for a machine speaker that it was done on a promise that York would not be districted for assemblymen. That's too thin, traitors; didn't you know that with Koontz as anti-Quay speaker, elected by democratic aid, the districting of York county would have been in doubly safe hands? That's a baby excuse set up by a guilty conscience.

QUAY may be elected and he may not be. If he can buy enough scaly democrats to join his corrupt machine gang in the legislature, he will get there, but purely by bribery. The five democrats who sold out to elect Marshall speaker, declare they will not vote for Quay. If they live up to this declaration then Quay wont have votes enough to elect Ferguson e. p. him.

THE gifts and bequests for public purposes in 1900 have been tabulated so far as they could be ascertained and amount Harris to \$62,461,304, of which \$35 000,000 went to educational institutions. Of the remaining \$27,000,000 a little more than Miles e. p one-half went to charities, and nearly \$9,-000 000 to churches. The balance of \$5.-000,000 went to museums, art galleries Potter s. p. and libraries. The largest public giver of the year was Andrew Carnegie, his benefactions footing up \$3,225,000.

THE director of the mint has just com. pleted his final estimate of the world's production of gold and silver in 1899. Walker e.p. This estimate places the total output of gold at \$306.584,900 and that of silver at \$100.321,100. The United States contitbuted \$72,053 400 of the gold and \$32,-858,700, or nearly one-third of the silver. But for the war in Transvaal the director says the gold output would have been about \$25,000,000 greater. Mexico leads and Mexico and the United States pro-duce two thirds of the silver of the world. CAUCUS MEETINGS. ly. London proclaimed the war "over" ever so many times in the past year, and it was a fact every time, the war was over there in South Africa, and seems likely to stay over there awhile yet. Thus it is withour war in the Phillipines. It was proclaimed "over" two years ago and it is over there yet, and we are sending more troops over all the time. The little word "over" when used in connection with wars, it seems, has a perplexing meaning.
