Winter's snow seems very slow about making its appearance this season.

A cold wave is predicted. The boys and girls are getting their skates sharpened up in anticipation of enjoying the fine skating which J. G. Uzzle's lake presents when frozen over. Mr. Uzzle is a great favorite with the skaters of this section, as it is through his kindness that they have an opportunity to enjoy this fascinating sport on his lake.

Teachers Institute at Bellefonte was reported the best for some years past. Prof. Gramley visited Snow Shoe schools Dec. 10th and 11th.

Ray D. Gilliland, who has been attending Dickinson Seminary at Williamsport, has returned home.

A great deal of interest is generally shown at a Teachers' County Institute, but the greatest amount of interest shown at one time was in the case where two teachers of Burnside twp. were so interested with each other that they failed to hear the roll call, till some one kindly called the superintendent's attention to the fact that these two were present, physically at least, if they had drifted away together mentally. Such interest is rare. It reminds one of the concentrative power of Isaac Newton, who once called his servant to remove a stove which was getting uncomfortably hot for Mr. Newton; in his deep study, forgetting that he was capable of moving away from the stove.

Myself' Said Mr John Poorman, Pottersdale, Pa.

If every one afflicted with asthma and catarrh suffers as I did I pity them. for I was so miserable, when I went to consult Dr. Stites, that I scarcely knew what to do with myself. I had catarrh both of the head and stomach and I suppose all through my body, for I was miserable all over. Could hardly rest at night and my appetite was such that I could not enjoy anything, then the terrible catarrh in my head was awful. After only 2 months treatment with Dr. Stites, I am a different man. I can sleep well, cat well. My head is clear, and in a short time I shall be entirely cured.

Can Now Hear the Trains Passing, Something She was Unable to Hear for 8 Years

Deafness and catarrh have made me a great sufferer for years. Hawking, spitting, dropping in the throat, besides all kinds of head noises such as whistling, buzzing and shricking which almost set me wild at times, and various other miserable symptoms almost made me despair of ever being relieved. I grew very deaf-could not hear the trains which passed by. I spent a great deal of money for various remedies and cures, but noticed ittle benefit. The New Treatment gave me some hope, and since taking it the result is more than I ever hoped for, for to day, after 8 years' deafness. I can now hear the trains once more, which was the first great indication I had of what the New Treatment is doing for me. I am rapidly recovering and highly recommend the NewTreatment to all sufferers.
