Insurgents Ignored in the Distri- Mine Leader Mitchell Satisfied Full Penalty Inflicted on the Slaybution of Chairmanships.

THE PAN-AMERICAN EXPOSITION.

A Concurrent Resolution Providez For a Pennsylvania Building at the Buffalo Show-A Substitute For Ex-(Special Correspondence.)

isting Compulsory Education Law.

Harrisburg, Jan. 30.-The appointments of committees in the senate and house show conclusively that the factional fight in the Republican party is to be continued indefinitely. The men in control of almost every body are stalwarts. In the house Pittsburg did not get a chirmanship, and the insurgent leaders, Koontz of Somerset and Coray of Luzerne, were given a long debate President Mitchell said chairmanships of minor committees, while 12 chairmanships were given to Philadelphia stalwarts.

Speaker Marshall laid before the house of representatives at Monday night's session the resignation of William H. Keyser, of the Nineteenth Philadelphia vacant by the death of Senator Os-

A number of bills passed second reading in the senate Tuesday, among estate, but Lee Gong Yee intervened them being Senator Fox's bill appro- asserting that he was a creditor of the priating \$6,000,000 and creating a com- deceased, Meanwhile William M. Hoes, mission for the completion of the state the public administrator, had been in capitol building in 1905 and Senator charge of the estate of the dead Grady's bill repealing the libel law of laundryman. 1897. Representative Cooper, of Delaware, has given notice of his intention to fight a revision of the existing libel laws, and it is probable the attempt will be abandoned.

Mr. Flinn, of Allegheny, introduced in the senate Tuesday his bill providing for a uniform primary election law. The measure provides that two primary elections be held throughout the state each year for all officers, including state officers, congressmen and congressmen-at-large, the first on the second Tuesday in January and the second on the second Tuesday in June. The elections shall be held at the regular polling places from 7 a. m. to 7 p. m., and the regular election officers of the district shall conduct the same. All persons wishing to be candidates for state offices at the primary elections must file with the secretary of state 30 days prior to the primary election a petition signed by at least 2 per cent of the total vote in the election district of the party he is affiliated with. Candidates for county offices can file the petition with the county commis-

Senator Vaughan, of Lackawanna, introduced a joint resolution Tuesday proposing the following as an amendment to the constitution: "No act of the general assembly, after ten years from date of its passage, shall be held unconstitutional by reason of any defect or insufficiency in the title, or on the ground that it is a local or special law relating to any of the subjects prohibited by the constitution." Oleo is to be the cause of much wrangling. So far only the anti-butterine people are represented by legislation. Two bills have gone in, one by Mr. Harris, of Clearfield, and another by Mr. McGlathery, of Montgomery. They are both severe on the dealer in oleo.

ment, are provided. The bill with the most political significance attached is the one introduced by Senator Muchlbronner, providing a new charter for second class cities and "ripping" out of office the present of-The measure is directed at the municipal machine which controls Pittsburg and of which Senator William Flinn is the head. The Quayites out there make the claim that a new charter is absolutely necessary, for under the present one it is impossible to secure an efficient government. The

Heavy penalties, including imprison-

bill also affects Allegheny and Scranton. President Cebin, of the senate, established a new precedent last week in deciding that the bill creating a fifth common pleas court in Philadelphia, which had been defeated a day or two before, could be reconsidered on the motion of a senator who had voted for the bill. The bill was finally passed and sent to the house, where it was reported favorably Tuesday. The expense to the state by the creation of this court will be about \$22,000 a year.

With His Compensation.

VIOE PRESIDENT LEWIS, TOO. THIRTY YEARS FOR THREE MEN,

The Leading Officers of the United Mine Workers, By Their Arguments, Defeated an Amendment Increasing Their Incomes.

Indianapolis, Jan. 30.-The constitutional amendment presented to the convention of the United Mine Workers of America at the afternoon session yesterday providing an increase in the salaries of the national officers provoked a long argument and resulted in the salaries remaining as they were last year. Members of the committee on constitution recommend the adoption of the amendment, and after

"Gentlemen, I am not here for the purpose of making any grand stand plays. I work for the miners because you pay me, and because I like to work for you, but I am free to say that if you did not pay me I would not work The salary paid me is very fair, and district. He resigns to become a can- if I thought the organization did not didate for the seat in the senate left pay me as much as I deserved I would quit. I would strike. ## Mrs. Snell's Will Stands.

Chicago, Jan. 30 .- Mrs. Henrietta Snell's will stands. The jury last the claim of Mrs. Mary Snell Stone to share in the estate. By its verdict the jury holds that Mrs. Snell was sane when she made the instrument leaving \$800,000 to her grandchildren. and that Mrs. Stone's claim to be her child was not proved. In his life Amos J. Snell, the murdered millionaire, recognized Mary Snell Stone, the wife of A. J. Stone, as his daughter, and he left to her a proportional share of his big estate. The first knowledge that the public had that his favorite child was not the daughter of Henrietta Snell came with the filing of the will of the widow a year ago.

Increased Wages For Railroaders. Wilkesbarre, Jan. 30 .- In answer to the demands of the Federated Board of Central Railroad of New Jersey employes the company has granted some of the train hands an increase in wages. Freight and coal conductors will work ten hours for a day, and will be paid 28 cents an hour. The passenconductors will be paid \$3.25 a day. 12 hours to constitute a day's work. The average daily increase in wages is about 20 cents a day. It is expected that a new wage scale for the engineers, firemen, brakemen and telegraphers will be agreed upon by Feb. They will receive about the same increase as the conductors.

The Gold Standard Measure.

Washington, Jan. 30 .- The report of Representative Overstreet, of Indiana, n the bill which he was authorized the banking committee to repor to the house "to maintain the parity of the money of the United States was presented to the house yesterday. The report declares that the bill "re affirms the declaration of the United States government to maintain the parity of all form of money with the gold standard of value, and makes provision whereby the parity of the silver dollars may be maintained by exchange for gold at the treasury upon the demand of the holder."

Threstened Strike Averted. Youngstown, O., Jan. 30 .- The threatened strike of the furnace men in the Mahoning valley probably will be averted. The employes of the Struthers Furnace company yesterday accepted a reduction of ten cents a day to fillers and helpers, making the wages \$1.80 per day. The wages of laborers will not be reduced. Notices had been posted by the operators an-

# HARRISBURG LETTER. OPPOSING BIG SALARIES. THE PATERSON MURDER FALL TREE PLANTING

ers of Jennie Bosschieter.

While Kerr, the Fourth Member of the Gang, Gets Off With Fifteen Years-Son's Disgrace Is Killing Kerr's Father.

Paterson, N. J., Jan. 30.-Walter C. McAlister, William A. Death and Andrew Campbell, who were found guilty of murder in the second degree for the killing of Jennie Bosschieter on Oct. 18, 1900, by the administration of chloral and subsequent rape, together with George J. Kerr, who pleaded non vult contendre to a charge of rape; were sentenced yesterday by Judge Dixon. McAlister, Campbell and Death were each sentenced to 30 years' imprisonment at hard labor and Kerr to 15 years' imprisonment at hard labor. The sentences of all the men are the full terms of imprisonment which the law provides, but in the case of Kerr a fine of \$1,000 might have been added. The 30 year sentences will be reduced by good behavior to 20 years, and Kerr's sentence will be reduced to 11 years. The time off for good behavior is arranged on a sliding scale and increases each year.

the public yesterday in which they announce their intention to earn the commutation for good behavior. They say further

'We feel that we have been victims, to a great extent, of the unreasoning outside opinion, which was based upon the wild and inflammatory reports printed in the metropolitan pa-

pers to satisfy a morbid taste." While Judge Dixon was sentencing the prisoners Hugh Kerr, the father of George, lay dying within a stone's throw of the court house. Mr. Kerr is dying because of the disgrace of his son. George did not know until last night that his father was so ill. Equally ignorant of the son's sentence will the father remain. He does not want to hear of the case at all.

### THE SITUATION DISASTROUS.

Americans Menaced by the Insurgents in Venezuela.

Port of Spain, Trinidad, Jan. 30. According to advices received yesterday from Caracas a trustworthy engineer, who has arrived there from Pitch Lake, reports that the situation is disastrous. He says that 150 English negroes who were employed to do police duty fled, when the insurgents began firing, into the jungles, only 25 Americans being left to protect the property and lives of American families. The messenger from the Lake implored the United States legation at Caracas to afford protection, saying that the lives and property of Americans were exposed to guerilla attacks, firing around the lake going on nightly, and the Americans being too few to hold out long.

United States Minister Loomis, according to the same advices, replied that these reports were possibly exaggerated, but that they could not be ignored and that he would wire the facts to Washington.

The revolution in eastern Venezuela, near the asphalt deposits, is increasing, but the disturbances are remote from Caracas, which remains tranquil.

## To Prohibit Use of Gasoline.

Toledo, Jan. 30.-State Oil Inspectors Frank I. Baird, of Toledo, and John R. Mallow, of Columbus, yesterday issued a positive mandate that all manufacturers of gasoline lamps in the night agreed upon a verdict rejecting state must discontinue such manufacture and use at once. There are several large factories in Ohio, and many thousand users. It is intended to serve notice on all at first and if the order is not obeyed in reasonable time radical measures will be inaugurated. It is anticipated that the manufacturers will fight the matter through the courts. The statutes of Ohio are very positive on the subject, but have never been made effective by former state oil inspectors.

> A Mammoth Coal Order. Pittsburg, Jan. 29.-Probably the largest order for coal ever taken for shipment through a single purchaser has just been consummated by the Monongahela River Consolidated Coal and Coke company selling to a New Orleans agent and shipper 200 coal boats, averaging 25,000 bushels of coal each, which is for export trade. The total amount of 5,000,000 busnels was taken at a price one cent a bushel higher than the average prevailing price of last year in the New Orleans market.

Death of Giuseppe Verdi. Milan, Jan. 28.-Giuseppe Verdi, the celebrated composer, died yesterday morning, aged 87. Verdi had been ill for several days and his death was expected. At midnight he began to sink, and did not rally. His friends were gathered about his bedside, and the great composer's last moments were peaceful. During his illness he expressed the desire to repose beside his second wife, with whom he enjoyed full 50 years of happy married life.

Indians Under Complete Control. Henrietta, I. T., Jan. 30.—United States Marshal Bennett is believed to have the Indian situation completely under control, and it practically has been decided that it will not be necessary to send Troop A, Eighth cavalry, into the interior. The soldiers may remain here for several days, however, as a precautionary measure. T. A. Sanson, United States commissioner, yesterday rented a large room here and opened court to try the arrested Indians immediately.

Mother's Heroism Saved Children. Columbus, O., Jan. 30 .- Mrs. John Sharp poured some gasoline into a washing machine here yesterday and an explosion followed. The door of the room was blown out and the woman and four children badly burned. A little girl was rolled in the snow by the mother, who then rushed back to attend her three little boys. All were terribly burned, and one will probably lose bis eyes.

BEST TIME TO SET OUT THE DECIDU-OUS VARIETY.

Care Should Be Taken That Only Good Specimens Are Planted-How the Roots Should Be Treated-Size of the Holes.

Fall is an excellent time to plant trees. By this is meant deciduous trees, says The National Stockman. The evergreens should be planted in spring just before the buds open out, as the leaves, remaining on all the time, are constantly transpiring moisture, and in order to supply this moisture the roots need to take hold of the ground and begin growth at once.

much pressure and hurry of other work as in the spring. And, what is of more importance, the rains of fall and winter will settle the earth among the roots of the newly planted tree, so that growth can begin at the earliest mo- Two Weeks' Tour via the Pennsylvania with exactness and promptitude, ment in the spring.

The first thing, of course, is the trees. They should be obtained from a reliable source, for the buyer is wholly in the hands of the seller and cannot know what he has got for a number of years, when the trees, if they live, will The prisoners made a statement to delusion and a fraud. The first cost of the planting, the care afterward and the waiting year after year until bearing begins. A poor tree is dear as a gift. The rule should be "first class trees at a fair price."

It should be understood that good, wide holes should be prepared for the trees not less than three feet in width, better if four. As for the soil, the best should be selected, since an orchard is planted for a lifetime or longer.

Before planting, the roots of the tree more or less mutilated in digging. Bruised and injured roots are to be cut off, and the broken ends of good rootsonly the ragged ends-are to be cut off, with a clean, sloping cut on the underside, and in doing this every good root possible should be preserved, for the roots are the life of the tree.

do the work properly. The assistant is constant command of the party. to make the soil fine with the back of the spade and shovel it in slowly while the planter holds the tree in place, spreading the roots out in their natural position, working the fine earth in among them with his hands and tramping well when all the roots are covered, so as to make the ground over and around them as firm and solid as possible. The perfection of planting consists in placing the roots in connection will pay the highest prices. with the soil as pearly as possible in 50 tf the same direction as that in which they were before removal and but slightly - one or two inches - deeper than the tree stood in the nursery. If the season is very dry, it will be a good. This signature is on every box of the genuine plan to give each tree a bucketful or Laxative Bromo-Quinine Tablets

ly-not before there are two or three sharp frosts to loosen the leaves, so they will come off easily. They must in no case be left on the trees, even for an bour after digging, as they carry off moisture rapidly, and the trees would seen be wilted, and to strip off the leaves by hand before their office is completed is not good. The planting may continue as long as the soll works well (is not wet and sticky) and the ground not frozen.

After planting, and before winter sets in, a small mound of earth-earth without any mixture of straw or grass-is to be raised around each tree. This should be about a foot in height and 18 inches in diameter at the base. The mound protects the tree from the depredations of ground mice, which often ruin young trees by gnawing the bark. and, in addition, holds the tree stendy in the storms of winter. This should never be neglected. In spring it is to be leveled down.

Home Protective League.

A Rochester organization which may have many imitators is the Home Protective league. It is organized along the lines of the many law enforcement leagues, but with a broader scope. Its objects are to protect its members against the invasion of private rights. both as citizens and property owners, by telephone, telegraph, street railway and other corporations, who "without right or consent use property as though the owner were not a factor to be considered," to co-operate with WILL WASH: the municipal government to bring about the enforcement of ordinances, to look after the public health by insisting, for instance, that garbage be collected regularly and to protect the morality of the home by its surroundings. It is also hoped to bring about better street car service, better lighting on some of the streets, the abatement of nulsances, and so on. An attorney is to be employed, and each case of invasion of rights is to be litigated.

The Cardinal Fault. The cardinal fault in most advertise-

ments is that they say nothing. They are like a traveler walking into a place WILL NOT: of business, laying his card down and walking out again. Why cannot an advertisement be made to talk to the reader of a newspaper as a traveler or a shopman talks to his customers?-Newspaper and Poster Advertising.

Keep It Going. When a merchant stops advertising, people get the idea into their heads that his business is "going down."

How to Get Wealth. Early to bed, May make a man both healthy and wise,
But if of wealth
He'd gain the prize He mustn't forget to advertise,

Unraveling Big Mystery.

By the filing of a suit in the McClean county, Illinois Circuit court Thursday, by Mrs. Elizabeth Erb, of Pine Grove Mills, Centre county, Pa., against Wm' Elbert, of Bloomington, Ill., for separate support, it is expected the mystery surrounding the disappearing of William Erb from his home at Pine Grove, Centre county, in the fall of 1854, will be solved, says the Daily News.

According to the allegations of the plaintiff, she was married to Wm. Erb, at Pine Grove Mills, Centre county Pa., Dec. 11, 1849. Without warning and with absolutely no motive he left home and family 5 years afterwards and never returned. Suspicion arose that he is a matter of the first moment to had met with foul play. She asserts that every reputable pharmacist, for In the fall there is generally not so after deserting her he went to McClean health and life often wait on his county and under the assumed name of skill. It is scarcely necessary for Wm. Elbert began life anew.
