# LOUISIANA PURCHASE.

### The Big Exposition at St. Louis Seems Now Assured.

## TO INVITE FOREIGN COUNTRIES.

The President Will Make Proclamation Calling Attention to the Exposition and Asking Co-operation-A \$5,000,000 Appropriation Favored.

Washington, Feb. 6 .- The special committee on the St. Louis exposition yesterday afternoon voted to report favorably the bill appropriating \$5,000,-000 for the Louisiana Purchase exposition. The salient features of the bill as finally agreed upon by the committee follow:

The exposition is to be an exhibit of the arts, industries, manufactures and products of the soil, mines, forests and sea. The president is authorized to make proclamation of the same through the department of state, setting forth the time at which the exposition is to be held and the purposes thereof. Copies of the proclamation are to be sent to the diplomatic representatives of foreign nations for publication in their respective countries, and the president is to invite foreign nations to take part in the exposition and to appoint persons to represent them.

Provision is made for the appointment of a non-partisan commission of nine persons, to be known as the Louisiana Purchase exposition commission. Members of the commission are to receive a salary of \$5,000 per annum. A secretary, at \$3,000 a year, is provided for, and the commission is to be allowed \$10,000 a year for general expenses. In order to avoid controversies as to jurisdiction of the commission and of the exposition company, which were frequent and embarrassing during the progress of the Columbian exposition at Chicago, the bill provides for a board of arbitration consisting of five members. Two of the members are to be named from the membership of the national commission and two by the exposition company. These four members are to select the fifth, and if they cannot agree upon some person, then he is to be named by the secretary of the treasury.

Members of the exposition committee now in the city are delighted with the excellent prospects which they believe the bill agreed upon by the committee has for favorable action by congress. They are very much gratified at the result of their conference with Speaker Henderson, who said that he knew of no opposition to the measure. He believed that it would be up for action before the end of next week. The citisens of St. Louis having provided for the raising of \$10,000,000 as their part of the contract, the speaker said the good faith of congress is pledged to the proposition. The exposition committee say that, with the congressional appropriation, the exposition will have a total of \$15,250,000 to defray the necessary expenses. In addition to this the people of the state of Missouri, by the amendment to the state constitution adopted in November last, have Rome to kill King Victor Emmanuel. authorized an appropriation of \$1,-600,000 for a state exhibit; the legislature of Illinois has now pending a bill a candidate for the Democratic nominaappropriating \$250,000 for a state exhibit, and the state of Kansas has a the sheriff of Hamilton county to prebill pending appropriating \$125,000 for a similar purpose. Appropriations of a similar character, the exposition advocates say, are under consideration in the legislatures of nearly every state embraced within the limits of the Lousiana purchase. The national commission is to provide for the dedication of the buildings of the exposition not later than April 30, 1903, and to designate the date at which the exposition shall be open to visitors, which is to be not later than May 1, also to fix the day of closing. which is to be not later than Dec. 1, 1903.
