

SPAIN'S ROYAL WEDDING

May Be Marred by an Uprising of the Discontented.

THE PRECAUTIONARY MEASURES.

Authorities Fear an Outbreak, and the Torchlight Procession Scheduled For Last Night Was Cancelled. All Gatherings of People Dispersed.

Madrid, Feb. 13.—Whispered rumors say that Madrid is on the verge of a tumult. The government, however, is calmly proceeding to carry out the details for the wedding of the Princess of Asturias to Prince Charles of Bourbon, but the street corners, the clubs and the hotel corridors teem with disturbing stories. The new shout, "Long live the army," is the most serious sign. Should it take a real hold on the people, and should the fever reach the army itself, the outcome would be threatening. The current talk represents the army as being dissatisfied and as announcing that it does not intend to take up arms against the people so long as their opposition is directed against the Jesuits and the Count of Caserta. The feeling against the former is largely political, but a real and deep seated antagonism exists against the former Carlist leader.

Yesterday afternoon about 800 students, led by a woman and bearing French and Spanish flags, assembled in the Puerto del Sol and started cries for the army and against the Jesuits and the Count of Caserta. They were quickly dispersed, but continued re-assembling in various parts of the city. The afternoon was one of continual manifestations, though without serious incident, owing to the vigilance of the police. In fact, throughout the entire day civil guards, mounted and on foot, were everywhere visible, dispersing crowds wherever found. These assemblages were largely composed of youths and street idlers, but behind them were agitators and the sentiment of the people.

Last evening 200 mounted civil guards paraded Puerto del Sol with drawn swords, preventing any collection of people. All the avenues centering on the square are closely guarded. There can be no doubt that the feeling of the populace is deep rooted, needing only a successful leader to encourage the people to menacing deeds.

Owing to their attitude the torchlight procession in connection with the royal marriage fetes, scheduled for last evening, was abandoned, the authorities fearing that the slightest opportunity for a clash might lead to serious results. An illumination might cause a hail of stones, which might excite the guards to some act of revenge. The populace are being given a looser rein than in ordinary circumstances, because of the desire of the queen regent to avoid any meeting between the people and the authorities which could lead to bloodshed on the day of the wedding.

Hitherto there has been no serious attempts on the part of the crowds to resist the police. On the contrary, the people scatter the moment the police start in their direction. Some curious sights ensue in such cases. For instance, the shopkeepers and proprietors of restaurants and cafes, the moment the demonstrators appear, pull down their iron shutters. By the time the police have arrived the crowd vanishes. Then up go the shutters again, and business is resumed.

The suppression of El Pais, the Republican organ, was due to its virulent attacks upon the Count of Caserta, which had the effect of arousing anti-Caserta sentiment. The course taken by El Imperial in declining to print a description of the court ball on the ground that "it is no time for such festivities when all Spain is so sad," has caused a great impression and has increased the feeling against the forthcoming marriage.

The Marquis of Santa Marta yesterday entertained at dinner Senor Galdos, author of the anti-clerical play "Electra." A number of the leading Republicans and Liberals were present. Considerable political importance is attributed to the affair, as it is believed to point to an attempt to bring about a coalition of Republicans, Liberals and monarchists against reaction.

THE CARNEGIE-MORGAN DEAL.

Reported Plan to Dominate the Lakes' Ore Carrying Trade.

Pittsburg, Feb. 13.—The negotiations for the purchase of Andrew Carnegie's stock in the Carnegie Steel company by J. Pierpont Morgan continues to be the absorbing topic in iron and steel circles here. Yesterday it was stated by one of the minority stockholders that the deal has much greater significance than has even been reported, but he refused to specify what he meant, explaining that he is bound by a promise not to disclose certain facts that came to his knowledge through company channels.

From another source it was asserted that when the purchase had been made a number of the companies will be consolidated in a manner similar to the present organization of the Carnegie company. A new organization is proposed, to be the omnibus company that will own a majority of the stock of the constituent companies and will dictate its policy.

A report reached Pittsburg that the deal contemplates the consolidation of the Pittsburg Steamship company, the Carnegie concern, the great Rockefeller ore feet and the feet of the American Steel and Wire company. The new organization in that case will dominate entirely the ore carrying trade of the great lakes.

Indiana's Remarkable Oil Field.

Hartford City, Ind., Feb. 13.—Never in the history of the Indiana oil field has there been such excitement. Already the prices of everything in the little village of Dundee, nine miles northwest of this city, have advanced to a price that startles the prospectors. Monday it was only a speck on the map; today it is apparently the center of the most wonderful oil field in the United States. It is the opinion of some oil men that it will prove the most valuable in the world's history of oil operations.

DEATH OF EX-KING MILAN.

The Former Monarch of Serbia a Victim of Pneumonia.

Vienna, Feb. 12.—Ex-King Milan, of Serbia, died of pneumonia yesterday. On Sunday evening he received Adjutant Popovias, who had been sent by King Alexander. The interview excited him somewhat, but he recognized and talked with the adjutant. From that time his strength failed rapidly and the difficulty of breathing rendered further conversation impossible. At noon yesterday he again received the adjutant. He was then in full possession of his faculties and seemed to have no idea that his life was in danger. Consciousness was retained until within a quarter of an hour of his death, which came quietly in the presence of his uncle, Col. Constantinovic, and his friend Count Zichy.

THE LATE EX-KING MILAN.

A Belgrade, Serbia, dispatch says: "King Alexander, who was at Nish when he received the news of the death of his father, immediately summoned the members of the cabinet to meet at Konaak, where he communicated the information to them officially. The king and queen left Nish last evening for Belgrade, not going to Vienna. The remains will be brought here."

THIRTY-FOUR PROBABLY LOST.

Vessel Wrecked on New Foundland's Coast Doubtless the Lucerne.

St. Johns, N. F., Feb. 13.—It is now feared that the steamer reported wrecked near Bacallen, on the south-east coast of New Foundland, is the British steamer Lucerne, Capt. Reid, which sailed from Ardrossan Jan. 24 for St. Johns, N. F., coal laden. Besides her own crew of 25 men the Lucerne had on board seven members of the crew of the British brig Emulator, of St. Johns, recently abandoned in midocean, and two passengers.

A competent man has been sent to view the wreckage near Perlican. He can decide whether it belongs to the Lucerne. If it does it must be that she was a total loss and that all on board were drowned. If the wreckage is not from the Lucerne the vessel was probably a tramp bound for some American port. There is no hope that any one was saved.

The Comparative Cost of Soldiers.

Washington, Feb. 13.—The house yesterday passed the army appropriation bill and entered upon consideration of the sundry civil bill, the last but one of the big money bills. The debate on the army bill was confined largely to a discussion of the question of passing bills to remove the charge of desertion against soldiers and was made notable by a statement of Mr. McClellan (N. Y.) comparing the cost of the soldier in European armies with the cost in the United States. According to his figures, including the cost of pensions, etc., each United States soldier involved an expense of \$2,828, while a German soldier costs \$227 and a French soldier \$232.

Queen Wilhelmina a Bride.

The Hague, Feb. 8.—Queen Wilhelmina's marriage to Duke Henry of Mecklenburg-Schwerin, who yesterday became Prince Heinrich of the Netherlands, by royal decree, was a huge family affair. All Holland that could, came to The Hague to participate. Those who stayed at their homes in other cities and villages of the kingdom celebrated with parades, decorations and banquets. Never was seen a more beautiful and happy wedding. The popular belief is that it is a love match, like that of Victoria and Albert, and this gives a romantic coloring to the event which is generally lacking in royal marriages.

All Topeka Joins Closed.

Topeka, Kan., Feb. 12.—As a result of the meeting of the citizens of Topeka all the joints of the city are closed. The citizens made the peremptory order that the sales be discontinued by noon yesterday, and so far as known the order was regarded. Topeka is practically a dry town, so far as the joints are concerned. Some of the drug stores are said to be doing a thriving business, but the condition is much different from a week, or even three days ago, when there were about 80 joints running openly.

Pingree Not Out of Politics.

New York, Feb. 13.—Hazen S. Pingree, former governor of Michigan, his son, Hazen S. Pingree, Jr., and Col. S. S. Sutton were passengers on the White Star liner Cymric, which sailed yesterday for Europe. Before sailing Mr. Pingree said that he would again be a candidate for governor of Michigan if the legislative reforms he advocated were not passed in that state.

Disconsolate Mother Kills Herself.

Hoboken, N. J., Feb. 13.—Mrs. Alvina Miller, of West Hoboken, who lived on the top floor of a three-story apartment house, jumped from her rooms early yesterday morning and killed herself. She was a widow and supported five children by washing. Recently her health commenced to fail and she suffered from melancholia.

Danes Favor Selling the Isles.

London, Feb. 13.—"With only one dissenting voice," says the Copenhagen correspondent of The Daily Mail, "the financial committee of the Danish West Indies to the United States."

To Be a Philippines Judge.

St. Johnsburg, Vt., Feb. 13.—Former Lieutenant Governor Henry C. Bates, of this city, yesterday was offered the position of judge in the Philippine islands, and he will accept the appointment. The salary will be \$5,500 per year.

THE SALOON SMASHER.

Mrs. Nation Arouses No Excitement in Chicago.

SHE WILL DO NO SMASHING THERE

But Announces Her Intention to Scold the Mayor and Chief of Police and to Visit as Many of the Saloons as Possible.

Chicago, Feb. 13.—Mrs. Carrie Nation arrived in Chicago last night, and within 15 minutes after reaching the city she was facing a somewhat diminutive audience gathered under the auspices of local members of the W. C. T. U. in Willard Hall. On her trip toward Chicago she delivered a number of short addresses from the rear end of the car, speaking at nearly every station where a stop was made. Her coming was marked by no special incident, contrary to the expectation of the ladies who had invited her to visit Chicago.

During the day a committee called upon Chief of Police Kiple and asked him to detail a strong force of detectives to await Mrs. Nation's arrival at the Rock Island depot, assuring him that unless she was fully protected she would be in danger from the mob which would be at the depot. The chief laughed and said he guessed there would be no danger to the lady, and finally relented sufficiently to promise one lone officer, who would, he declared, have nothing to do. The event proved that the chief was right. Only a very small crowd was at the depot, and it was for the most part composed of members of the reception committee. The arrival of Mrs. Nation produced no excitement whatever, and provoked but little curiosity among the people in the depot.

She entered a carriage at once and was driven rapidly to Willard Hall, five squares distant. Here a small crowd had been awaiting her arrival since 7:40, it having been announced that Mrs. Nation would speak at 8 o'clock. An expression existed with many that the lecture was to be free, instead of which an admission fee of 50 cents was charged. This balked a good many, and at the time of Mrs. Nation's arrival there were as many in the hallway who had refused to pay the admission price, and stood around waiting to see her enter, as there were in the hall waiting to hear her speak.

After giving a history of her work for the temperance cause in Kansas Mrs. Nation denounced the sale of liquor in Chicago, and asked all those who were in sympathy with her to go out and destroy the saloons, as they were illegal, no matter under what sort of laws they were allowed to exist.

"While in Chicago I will not attempt to smash any saloons," said Mrs. Nation, "but tomorrow, in company with two policemen, I intend to visit as many of these places as possible, and will invite the saloon keepers to come to Willard Hall tomorrow night and hear what I have to say about the wickedness of selling liquor. I will also visit Mayor Harrison and Chief of Police Kiple and tell them what I think of city officials who will allow so many dives and low resorts to run as prevail in Chicago. If you cannot get rid of these crime breeding places by peaceable means, why, I say, use force."

Mrs. Nation will leave here late tonight for Topeka to stand trial for joint smashing.

To Dispense With Japanese Labor. Minneapolis, Feb. 13.—At the Great Northern general offices it is learned that President J. J. Hill has acceded to the demands of labor unions in the northwestern states, and will dispense with Japanese labor in the shops and on the road. There were about 2,000 Orientals thus employed, and of these about 1,500 have been displaced by white men. It is said that Mr. Hill did not employ these men from choice, but because it was impossible to find white labor. The Japanese performed less work in a day than their white companions, but they received less pay and there was no objection on this point, but the "little brown men," as Mr. Hill calls them, were poor workmen and great destroyers of raw material.

Young to Succeed Shafter.

Washington, Feb. 13.—Gen. S. M. B. Young, who on Monday was confirmed a major general, has been chosen to succeed Gen. Shafter in command of the department of California, with headquarters at San Francisco. Gen. Young, who has been in the Philippines for more than two years, will sail from Manila in a few days, arriving in San Francisco about the middle of March. He will then relieve Gen. Shafter and the latter will be appointed a major general in the army and immediately retired, in accordance with the terms of the army reorganization bill.

State Dispensary Bill For Kansas.

Topeka, Kan., Feb. 13.—A state dispensary bill was introduced in the house yesterday. It provides for the establishment of dispensaries in numerous precincts throughout the state. The bill includes the repeal of the laws whereby probate judges issue permits to drug stores to sell liquors, and provides that liquor shall be dealt out at precisely the purchase price plus the maintenance of the stations and salary of agents. Daylight business hours only, and the usual provisions against selling to minors or habitual drunkards, with adequate bonds to hold the agent, are also included.

Sudden Death of Congressman Shaw.

Washington, Feb. 11.—Representative Albert D. Shaw, of Watertown, N. Y., formerly commander-in-chief of the Grand Army of the Republic, was found dead yesterday morning in his room at the Riggs House. A physician summoned immediately after the discovery of the body pronounced death due from apoplexy, probably about 2 o'clock in the morning. Col. Shaw was 58 years old.

King Edward to Visit Germany.

London, Feb. 13.—King Edward and Queen Alexandra, according to truth, will leave England during March to visit Dowager Empress Frederick. They will also visit the Grand Duke and Grand Duchess of Hesse, and they will spend the Easter holidays at Copenhagen. Truth asserts that a member of the cabinet, probably Lord James of Hereford, will accompany the king.

A Friend's Advice.

The woman who has proved the healing power of Dr. Pierce's Favorite Prescription, becomes at once its friend and advocate.

Whenever she finds another woman suffering as she did, she tells the story of her cure by the use of "Favorite Prescription." Only this explains the widespread popularity of this great remedy for women. An advertisement such as this may induce some suffering woman to try the "Favorite Prescription." But if it did not cure her, that would be the end of the story. But the real advertising grows out of the fact that "Favorite Prescription" does cure ninety-eight women in every hundred who give it a fair and faithful trial. It regulates the periods, dries disagreeable drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

"I was so weak I did not have breath to walk across my room," writes Miss Isabel Miller, of New Providence, Calloway Co., Ky. "My periods occurred too often and the hemorrhage would be prolonged and the loss of blood very excessive. I also had spells which the doctor said were fainting fits. I did not gain strength from one monthly period to another; was very weak and nervous all the time. My feet were swollen and so sore I could not bear my weight upon them. The doctor told me I would never be any better. I lived in this way from sixteen years old to twenty-three, when the doctor gave up my case. About three weeks after this I was advised by a kind friend to try Dr. Pierce's Favorite Prescription, which I did and before I had taken two bottles of it I could work all day. I took in all six bottles of the 'Favorite Prescription' and about five vials of Dr. Pierce's Pellets. I have never had a return of this trouble since, and never can praise Dr. Pierce's medicines enough, for I know they saved my life."

Dr. Pierce's Pleasant Pellets keep the bowels in healthy condition. They are a lady's laxative.

Woman's Nightmare

Mother's Friend

No woman's happiness can be complete without children; it is her nature to love and want them. The dreadful ordeal through which the expectant mother must pass, however, is so fraught with pain, suffering and danger, that the very thought of it fills her with horror. There is no necessity for the ordeal of childbirth to be either painful or dangerous. The Mother's Friend during pregnancy so prepares the system for the event that it is safely passed without any discomfort whatever. This liniment has carried thousands of women through this great crisis without suffering, and they declare it a godsend to women. Send for free book containing information of priceless value. Address, Bradford Regulator Co., Atlanta, Ga.
