Apples appear to be exceedingly scarce in the stores about town. Only one or two places had them for sale and then they were offered at prices that placed them in the line of luxuries. The price asked was 40 cents per bushel and \$1.50 per bushel. The short crop last season is the cause and that was due to being damaged by the storm that blew most of them off of the trees in the fall, at the time they were ready for picking.

Petitions are being circulated through the county asking the legislature to pass an act to refund, out of the Centre county treasury, to ex-sheriff Condo, the value of the Goodman house burned by his orders at Woodward during the Etlinger affair. Owing to the severe snow squall that prevailed on Saturday afternoon and evening the Basket Ball team of University of Pennsylvania was unable to reach State College that evening and a large audience disappointed. When they got out the pike in the vicinity of the Rishel farm they found the roads so badly drifted that it was impossible to get through and came back to Bellefonte.

During the afternoon two sled loads of young people from town went to the college to see the game, and they too could not get through and had to remain at college until the next day. As a rule, these roads always have higher drifts than in any other section of the county.

Monday evening as Miss Abbie Kipe, sister of Mrs. Dr. M. J. Lock, was lighting a lamp in the parlor of their residence on North Spring street, a chemise curtain caught fire and in an instant was all ablaze. Miss Kipe tried her best to put it out and had it not been for some men passing by just when they did, Bellefonte might have had a very disastrous fire.

Every taxpayer should remember that next Tuesday is the time to select the men for the local offices. These are more directly important to you than those of the state and nation. We hope if further irregularities occur that our patrons will promptly notify the office.

Train Runs Off the Track in a Drift. The passenger train that left here Wednesday morning for Montandon struck a snow drift in the cut half mile east of Centre Hall, and was derailed. A work-train was sent up from Montandon to get the derailed train on the track again, which required several hours. The storm Tuesday night filled the cut at the point of trouble with a solid bed of snow sand. The train west, due here at 9 a. m., was delayed in consequence and only reached Bellefonte at 10 in the evening. The passenger train from Montandon had to go back to Spring Mills and the entire outfit had to put up at the hotel until Thursday morning. The drift that caused the trouble was not such a deep one, but the snow was packed unusually hard, and two pilots of engines were broken in trying to get through.
