A number of cases of grip are housed, in the burg.

Many waste their powers in getting wealth, and then waste their wealth in getting power.

If there is any person whom you dislike, that is the one of whom you should never speak.

Robt Spicer is housed with the grip. John A. Confer will move to Snow Shoe, in March, to go in partnership with his father, in the undertaking business.

Edgar Austin is suffering with painter's colic at this writing. Dr. S. M. Huff will occupy Confer's dwelling, being alongside of his office.

to aid a good cause along. The young folks of the burg, are enjoving the pleasures of the sleighing; numerous sled loads night after night go to neighboring towns; on Thursday eve, coming home from attending the meeting of the Christian Endeavors at Unionville, one sled was dumped over a drift of snow; finally the ladies were gathered up, and sent on their journey homeward bound, rejoicing in a jubilant mood.

A young man of Howard, a would be "smarty," tripping through the burg, gawking at the place, to his surprise, came to his ears "Hello there," stopping, looking to see from whence it came, not seeing any one, starting on again, for a distance, "Hello there," came again, in like manner stopping as before, no person to be seen, finally the word "rubber" came; the poor fellow left, with "rubber, rubber" so the "smarty" gave it up, like the other Jack did; ask John about the boys.

A new foreman in the Bellefonte shirt factory was badly needed one day last sale. week; as the presentone was in a crusty way, the young ladies manufactured one, out of a broom, dressed it in fine style, set it up in a conspicuous place, that the foreman would take particular notice of it, and did; when at noon he came to the factory, in good humor complimented the ladies for their undertaking for completing such a fine specimen of a fore-Who dressed the foreman? A rosy glow spreads far and near, Behind the mill and tinting here, The tree tops bare and brown.

Still winter's snowy drape remains, O'er bill and valley spread. 'Neath which the slumbering flowret gains Her "beauty-sleep" in bed.

Lo! Spring, the Prince is on his way, To rouse each dreaming one; His coming seen in each glad ray Of the rejoicing sun.

Winter must see his reign is o'er. As Spring comes on apace; His robe will grasp and flee before That bright and beaming face.

On Sunday noon J. H. Moyer with his family and Wm. Moyer and wife, all in a two-horse sled, started for church, and near J. H. Ishler's they met a small snow drift, the size of a cook-stove, which so scared Henry that he turned around and went home with his load; he had not reached home yet, till several sleighs passed right through it; but Henry being yet too nervou, ventured out no more.

Wm. C, Bunnel, of Milroy, had quite a runoff at J. H. Moyers on Tuesday of last week; his two lively bays with the sleigh and an organ started off on a dead run, but the squire being as spry as a youth in his teens, caught the team before they reached J. H. Ishlers, the same being returned to Mr. Bunnel in safety; this should be a warning to Mr. Bunnel not to let his team stand loose.

The following is a little experience of the correspondent, written out in poetry -the tale is rather blunt, but under certain conditions it cannot be lengthened:

It seems that some of our young folks have either forgotten or didn't hear the new rules read in the Evangelical Sunday school the beginning of the year. For their benefit we will give one of them in our items and we hope this will be the last time it will need be mentioned. Rule four: All profane language and all loafing and cutting up around the outside of the church or in the vestibule during church or Sunday school bours, is strictly forbidden; all who fail to abide by these rules will be dealt with according to the laws of our commonwealth.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore, requires constitutional disease, and therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Chency & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken interu-lly in doses from it drops to a teaspoonful. It acts directly on the blood and nucous surfaces of the system. They offer one hundred dollars for any case it falls to cure. Send for circulars and testimonials. Address,

Hall's Family Pilis are the best.

Flatulency, sourness, ad taste, loss of appetite, a sense of weig at or fullness after eating, together with uneasiness, impatience, irritability of temper, nervousness, anxiety, lost energy, depression of spirits, sick headache, bad dreams and sleeplessness, come from weak and debilitated nerves. That kind of nerves have to be braced up, strengthened, invigorated and helped if you would have a sound stomach, a keen appetite and a cheerful mind.

"Every little noise would startle me and set my nerves to trembling from head to foot. I got very little sleep at night and I could scarcely eat the lightest food without having awful pains in my stomach. I took no end of medicine, but nothing helped me, and when I began with Dr. Miles' Nervine I had no faith in it. It helped me right away, and when I had taken seven bottles I was cured."

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe" says F. L. Hewett, a prominent druggist of Winfield, Ill.
