A CORPS OF ABLE WRITERS

Unionville.

A. B. Hall, one of Union township's best citizens, came down from his mountain lair on Saturday and transacted business in our city.

We have, hitherto, neglected to report an important industry in our town. We refer to the broom factory under the management of Elery Spots.

L. B. Bathurst, one of our enterprising merchants, has had a very serious tussle with the grip for more than a week.

Two of our very best young men, a school teacher and a store clerk, whose initials are Herbin Morrison and John H. Cadwalader respectively, on last Sunday, went to Lock Haven, presumably to see a live town and get a square meal.

An examination of a class of boys and girls was held in the room of the Grammar school at this place, on Saturday last, preparatory to entering some high school or academy.

Moshannon.

Mrs. Julia Beightol, of Pine Glen, spent a short time with her friends here recently.

A meeting was held in the M. E. church last Wednesday evening for the purpose of burning the mortgage.

J. P. Lucas accompanied his daughter to Lock Haven on Monday, also made a trip to Williamsport.

Some of the boys about here had better heed the following:

Let dogs delight to bark and bite. For foot hath made them so. Let bears and lions growl and fight. For 'tis their nature too. But little children never let Such angry passions rise. Your little hands were never made To tear each other's eyes.

Hannah.

Well this looks like spring. The blue birds are singing.

Thanks, uncle Jonathan, for the nice clothes basket.

Miss Dora Sharrar has gone to Houtzdale and Parsonville to pay a few days visit among friends.

Mrs. Gerty Crane is lying very low with the fever at present.

Uncle George Cowher is poorly yet. William Garland had a large sale, he sold out his livery, horses, buggies, sleighs harness and all his stock.

Sammy smiles all over his face; it's a big boy. Mother and babe are getting along fine.

Lawrence Moore is busy blasting stumps out of his field to have it ready for corn. Jerry is an alright boy; he likes to have every thing in good order.

Henry Melcher talks of leaving his farm. Henry who had better stick to your farm, a stone that is rolling, gathers no moss.

Port Matilda

The grip with the ground hog weather has disappeared from this section.

At this writing the sun shines brightly and the spring birds sing cheerily.

The prospects are favorable for a good crop of both grain and fruit in some section of the county.

The roads in many places are still bad from the melting snow drifts.

Our accommodating huckster, Charles Turner, had one of his horses badly strained in a snow drift some days since while driving in a private lane, gathering produce.

George Houck, our good natured produce dealer, lost his favorite dog 'Shep,' a few days since, but by a diligent search he recovered him all right again, both are happy, sure.

John Kelley, who has been busily engaged in cutting, hauling and shipping coal bank props has finished and moved from camp.

Eli Cowher, who is employed at Sandy Ridge fire brick works, as head blacksmith, spent Sabbath last with his parents, Mr. and Mrs. Adam Cowher, of our town.

Porter & Woodring are making some necessary repairs on J. Nason's steam sawmill, located above Flat Rock.

W. H. Williams is recovering from a serious spell of sickness.

Mrs. Gertie Crain, is slowly recovering from a dangerous illness.

Alph McGuire has made sale of his personal effects and with his wife has started for the west.

Squire A. S. Williams is now grandfather of a three pound boy baby.

We would be able to note several visits such as one neighbor crossing the street to call on each other, but we will leave that to those seeking self popularity.

We are pleased to note the low prices quoted by our merchants preparatory to laying in a full supply of both fancy and staple goods for the spring trade.

Our mechanical industries are being pushed to their fullest capacity with a constant hum from early morn till close of day.

Merchant H. F. Chaney, who is engaged in putting in railroad ties, paper wood and chemical wood, is pushing his business.

Robert Patton has a valuable horse to sell; he offers it at low figures.

Phillip Young is now swinging the yard stick in H. F. Chaney's store.

David Ross is making and repairing furniture in P. Woodring's wagon shop; give him a call.

Daniel Myers and crew, from Mudlick, with William Cowher and crew, from Black Bear mills, are largely engaged in cutting paper wood and logs for S. R. Pringle in his lumber job on the mountain near Flat Rock, with ample room for more choppers at a fair price.

Mingoville.

S. P. Hockman and F. W. Dunkle were to Spring Mills one day last week on business.

John Deitrich moved his household goods to Bellefonte.

Miss Anna Hockman, who has been visiting friends and relatives in Penns valley, has returned home.

Mike Zong will move into the house owned by H. Deitrich on the 28.

Gertie says Bobby will not have that muddy lane to travel after they get moved.

Wonder how Cline Z. enjoyed the dance at the club house the other night? Poor fellow, the girl had to give him a lantern and umbrella and sent him home.

Quite a number of our young folks attended preaching in the Reformed church on Sunday evening.

Mrs. Peters and Mrs. Morgan were visiting at the home of Mrs. Dunkle, last Sunday.

Mike says they can't scare him with their spook and skunk stories; he will move in for spite.

Spring Mills

Moving time is here and there will be a bustling everywhere.

This world has a burden for every one's shoulder and none can escape from its trials and cares. If we miss it in youth it will come when we're older and fit us as close as the garments we wear.

H. F. Rossman one of our popular store keepers will soon go to our eastern cities for his new spring and summer goods.

When a man meets his wife down town he wonders how much it will cost him.

Smith Bro's expect to break ground soon for their new furniture store which will be a monstrous building.

The shorter a man is in his accounts the longer it takes to find him.

Mrs. Jonas Condo, of State College, is visiting her friends and relatives.

Brush Valley

Well, J. S. How was over in Penns valley again a few days to visit his sick sister, Mrs. Granley; but there must be some other attraction over there.

Perry Harter is moving to Sugar valley this week; sorry to see him go.

Frank Grenoble is on the sick list; also Jeremiah Ertel, but some what better.

The snow gone, the fields have a good appearance.

Mr. Ertle and son, made a business trip to Bellefonte last Friday.

Israel Spade bought a large team of horses last week. Now he is ready to turn the soil on his farm.

Last week James Beck also bought a horse for his huckster wagon.

Samuel Shaffer, the landlord at "The Old Fort," Sundayed in town.

The public sale of Jacob Long, about one mile west of town, was well attended, Tuesday.

Last Tuesday Geo. Wise moved on Mr. Granley's farm, one mile west of Rebersburg.

Anybody in need of a good, latest improved, Buckeye potato planter should call on H. S. Limbert, the local agent.

We will this week correct an error made in last week's issue about a society called "The Liars Club." This society is called "The Truth Club." There was another society organized this winter called "The Counting Club." At the first meeting the club made an agreement to mind their own business and let other people out side of the club alone.

The members of this club are all greensies, as people that are respectful and know anything can't join this club. The president of this club was chosen for his good reputation of doing the best courting in public. Who is next to start a Tom, Dick and Harry club?

The Madisonburg scribe, representing the Poe Valley Tar Co., called on his patrons last week. You can hear him sing:

What's your name, Poe Valley. What's your business, Tar? I have one more barrel in a car.

Good for Rheumatism.

Last fall I was taken with a very severe attack of muscular rheumatism which caused me great pain and annoyance. After trying several prescriptions and rheumatic cures, I decided to use Chamberlain's Pain Balm, which I had seen advertised in the South Jerseyman. After two applications of this Remedy I was much better, and after using one bottle, was completely cured—SALLIE HARRIS, Salem, N. J. For sale by Green's Pharmacy.

All over town! We refer now to mud and pretty girls.

We have not been able to learn whether Mrs. Keller will build.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. F. J. CHENEY & CO., Toledo, O.

F. P. Wetzel, son Albert and W. O. Rover went to Lock Haven, on Sunday.

Some miscreants poured coal oil at William Kreamer's barn on Saturday evening and set fire to it and put it out; if the object was a scare it failed, but the marauders may be scared to Port Bruntag for their action.

W. H. Musser is hauling lumber etc. for a new manure shed.

J. H. Reifsnayder and daughter Jennie visited his sister, Mrs. Geo. Armbruster, at Farmers Mills, on Sunday. She has been on the sick list for some time, but is now improving.

France, you should hold a stiffer line and a looser whip when you drive through town so that your nag would not lay down in the mud.

Miss Blanche Rossman, of Tusseyville, was the guest of Miss Katherine Weaver over Sunday.

Tom Harter was circulating in town on Wednesday gathering the news.

Sheriff and Mrs. Brungart passed through town on Sunday, on their way to Brush valley.

Grant Hoover, the bustling insurance agent, was in town last week and this week, taking risks. He is forging his way to the front.

The sick, W. S. Maize, Ida Keen, J. H. Kerstetter and the Schleiffer family, are all on the mend. But J. H. Auman doesn't seem to be improving.

The first shad of the season were brought to town on Tuesday. W. N. Auman is dealing them out.

Donty Bros. have ordered a new boiler and engine in place of the one that exploded some time ago.

A Preventive of Pneumonia.

Owing to the prevalence of colds and grip there have been many cases of pneumonia during the past few months. It has been observed, however, that the grip never results in pneumonia when Chamberlain's Cough Remedy is used. Among the tens of thousands who used that remedy during the prevalence of grip in the past ten years not one case has been reported that did not recover, which shows that remedy to be a certain preventive of pneumonia and unequalled as a cure for colds and grip. For sale by Green's Pharmacy.

Georgetown.

Spring has come and some of the roads are still full of snow drifts and mud.

Mrs. D. B. Kerns, of Dram station, is on the sick list.

Perry Hoover the champion sucker fisher of Dram station, caught 22 suckers in Penns creek the other day with hook and line, that averaged 12 inches; this will break the record of Tom Motz. Shorty, you can walk up head.

Perry Wingard is short of 8 or 10 chickens; and he knows the guilty party, and if they do not come and give satisfaction he will deal with them according to law.

D. B. Geary, our constable, is about over his grip and able to be about again; but now there is some attraction in the house, a little girl baby came to his house so he must stay in and sing, rock-a-baby. Joseph Reiter said she is over wery dos an bobbly dargt is.

The news came to Georgetown the other day that the High valley scribe will not start up the bullfrog and fish business in Georgetown, but will go in the goat business, and put a carload of goats and jack rabbits in High valley. A good investment. The valley is one of the best places in the county to raise goats and jack rabbits; after you have them up once they must stay, they cannot jump down; what is Georgetown's loss is High valley's gain.

When we say a giraffe's neck is longer than any other animal's, we aren't stretching it a bit.

Nerve Slavery.

It is present-day conditions—heaping burdens of work upon the nervous system that tells the story—premature breaking up of health.

It tells why so many men and women, who so far as age in years is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Every organ depends upon its controlling power just as much as the engine depends upon the steam to put it into action. An engine won't go without steam. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

- Trembling, palpitating heart. Sleepless nights. Sudden startings. Morning languor. Brain fog. Inability to work or think. Exhaustion on exertion. Flagging appetite. Digestion slow. Food heavy. Easily excited, nervous, irritable. Strength fails. Loss of flesh and muscular power. Settled melancholia. Utter dependency. A picture, hideous, but easily changed to one of brightness, by use of Dr. A. W. Chase's Nerve Pills. They build up the nerves and supply nerve force.

The above is the genuine package of Dr. A. W. Chase's Nerve Pills, are sold by dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y. Price 50 cents.

Fairbrook.

CONUNDRUM GUESSED:—We were glad to see in the last issue of this paper that three persons were able to solve the problem that was perplexing to many. Much honor is due to the ones that have revealed to the readers of this paper the most popular and also the latest flower of Kansas? (Carrington) The ones that have guessed the conundrum are: Linden Hall scribe, Bertha Schaefer and Miss Beulah Wetzel. Let us have some more conundrums from our fellow scribes, it is instructive work and very interesting to the readers. Now keep the ball a rolling.

E. O. Bowersox and daughter, Alice, spent a couple of days last week with their many friends at this place. Miss Alice says she expects to spend the summer at grandpa Bowersox's and McWilliams.

Cap. J. M. Kepler has purchased four and one-half tons of barb wire, and now he is fencing in his many thousands of acres of mountain land for his large herds of sheep and cattle.

Isaac O. Campbell, a student of the Central State Normal school, of Lock Haven, is at home now recuperating on his father's farms.

The forenoon farmers are now brightening up their plows.

The milk wagon for collecting cream and milk for the Baileyville creamery started on Monday. A good patronage is solicited.

Last Friday, Isaac Reish, of Pine Hall, had public sale, which was largely attended, and his articles and stock were hammered down at good prices.

Jno. Neideigh, of Pitscarin, Pa., was summoned to the home of G. W. Johnston on account of the illness of Mrs. Johnston, and her mother Mrs. Cole. Mrs. Cole was up waiting on her daughter, who has been ill for some time with consumption, and she took sick and it turned into typhoid pneumonia, and is in a serious condition.

Last Saturday, an examination was held in Pine Grove for the applicants for common school diploma. Seven entered the class, and we hope they will all succeed in making a good mark and secure the coveted sheepskin. Profs. Keller and Hartwick conducted the examination, which was honestly conducted.

For Brain Fag

Loss of mental energy, lack of thought power, failing memory or inability to concentrate the mind on the work in hand, there is nothing so good as Dr. Miles' Nervine. Its powerful influence in building up and strengthening the broken-down nerves, makes this great remedy an invaluable brain-food and restorative. It nourishes, fortifies and refreshes the tired and worn-out brain and gives new strength, new life, and new energy to the system.

"My nerves were greatly debilitated, and I had a feeling of dullness, dizzy spells and confusion of ideas. Would awake from sleep with a burning pain in the back and top of my head, and a disagreeable taste in my mouth. My memory was poor and I sometimes thought I would go crazy. I began taking Dr. Miles' Nervine and was helped from the very start. The result was that I was completely restored."

REV. J. P. SMITH, Lebanon, Pa.
