—It is a fact that the largest trout in this county, and in the central part of the state, are caught within the boro limits of Bellefonte. Trout of 10, 12, 15 and 18 inches are caught almost every day, during the season.

—Last Sabbath was the day of Pentecost, to which there runs a superstition that if it rains on that day, it will rain on the seven following Sabbaths. It did rain—now see whether the next seven Sundays will be wet.

—The boro has a large force of men digging ditches on Howard street for the new 6-inch water mains. In the lot we don't find one representative of the colored families in this town who annually get so much support from the poor department. "They toil not neither do they spin" and at this time of the year are principally engaged in fishing along Spring creek.

—"The Harmonic Indicator Co." of Bellefonte have made application to the patent office at Washington for letters patent on a new electrical device in which they claim to have a principle that will be of much commercial value. —It is slightly aggravating for a printer to patronize certain Bellefonte business men and then have them give you a receipted bill which they had printed out of the county. We have a few small potatoes of this kind in this community.

—Wednesday forenoon was the boss of all this month's rains, from 9:15 to 12:15—3 hours—there was .81 in. of rain. Spring creek, Penns creek, and the other streams are high, and almost as thick as smeer-kase with yellow mud.

—The car load of horses Benjamin Gentzel brought from Illinois the past week is the finest selection that has arrived here in a long while. That is what the horsemen say; they look as though they were of the very finest stock to be had.

—Another communication, this time from Boalsburg, was cast aside this week because the writer omitted his name. Don't send us news items if you don't sign your name as a matter of good faith. It is a waste of time and postage on your part, for when the name is wanting it goes to the waste basket. We have mentioned this so often that no one should make the mistake.

—Tuesday R. F. Hunter arrived home from a two month's stay in the lead and zinc fields at Carthage, Mo., where some of our local capitalists have a mining operation. Senica Rhoads will remain in that section to superintend this operation in which there is promise of good returns. While there our friend Hunter had some interesting experiences with the denizens of the wild and woolly west, and that section is not made up of tenderfooted lambs either.

ANOTHER FOREST RESERVATION.

The well-known lumberman, H. A. Goshall, of Philadelphia, whose operations in this county were large and mainly confined to the Poe valley and Paddy mountain region, heretofore mentioned in the Centre Democrat, was in Bellefonte this week to dispose of the state 10,000 acres of wild lands, in the sections aforesaid, and which are now depleted of timber by lumber operations in the past twenty years.

The editor of the Democrat is perfectly familiar with this field, and knows it will constitute one of the best preserves the state can become owner of. A new growth of forest trees is rapidly coming on, and in forty years it will be high like the original timber covering, and ultimately have a stand of timber of great value. In this territory are some of the finest trout streams in the central part of the state, namely, that once royal trout stream, Poe Creek, with its branch, Little Poe; Swift run; Weiker and Cherry runs. For deer, and other large game, this territory was not excelled. Under state care, all these conditions are likely to be restored. Wardens will see to it that the wanton destruction of game, fish, and timber will not have a repetition. To these 10,000 acres will be added thousands upon thousands more in our county, and the many thousands already purchased by the state in adjoining counties will constitute a natural park under state ownership, that future generations will enjoy the benefits of and feel grateful to us of the present that this wise action was taken.

Turnpike Viewers. On Wednesday the following board of viewers H. C. Campbell and Joseph Hoy, of College; Nathaniel Bierly, of Boggs; Daniel Hall, of Fleming and S. D. Ray, of Bellefonte inspected the Bald Eagle, Nittany and Brushvalley Turnpike which extends from near Huston, Clinton county, a distance of about eight miles, across the mountains into Miles township, as a petition has been presented to the court to have the same vacated. They were accompanied by C. M. Bower, attorney for petitioners; Clem Dale, and C. G. and S. D. Furst of Lock Haven, representing the company; County Coms. Daniel Heckman, with County Solicitor J. C. Meyer; and Wm. G. Rankle, Esq., as master. Testimony and argument on the matter will take place in Bellefonte, June 18th. There is considerable sentiment in Miles township against the condemnation of this highway. Some of the other favors it.

Condo Bill Passed. The bill that was passed by both branches of the legislature at Harrisburg to reimburse ex-sheriff John P. Condo, of this county, for the amount of the judgment, costs and expenses obtained against him by the estate of Emma R. Goodman, for the destruction of her property at Woodward, in the effort to capture Wm. Ettinger, the desperado, was signed by Governor Stone on Wednesday of last week. The Commissioners of Centre county are thereby instructed to pay the amount of said judgment, together with the costs and expenses thereto, and the amount of same will be passed upon by Judge Love and will then be paid out of the county treasury. It is now receiving the attention of the court. The amount may reach near the \$3000 mark.

Hurt in a Run-off. Tuesday afternoon as Frank Carson, of Potters Mills, was driving home from Milroy, his horse became frightened from some cause, and ran off. Besides being a prominent man in the county he belonged to one of the pioneer families, his great-grand-father, Thomas Sankey, locating in Penns valley over one hundred years ago and died in 1794. The deceased was a son of James Sankey. Henry Sankey was born in Centre county, on June 19, 1834. He was one of the oldest to shoulder a musket in defence of his country at the outbreak of the Civil War. His wife, Emily, survives him. He also leaves the following children: Edith at home, James A. BANK REORGANIZED.

The Centre County Banking Company has been reorganized upon a basis that maintains its established character and presages bright prospects for the future. Under this reorganization the present owners and proprietors of this banking house are, William P. Humes and his sister Miss Mira Humes (representing the entire estate of the late E. C. Humes.) Mrs. Katharine W. Curtin (representing the entire estate of the late Governor, Curtin, deceased), John M. Shugert (who since the death of his father has been filling and in the future will continue to fill the office of Cashier so ably administered in the past by his deceased father, J. D. Shugert), Mr. James Harris (formerly of the late hardware firm of James Harris & Co.), Thomas A. Shoemaker, and John M. Dale, Esq. On Tuesday of this week a meeting of these partners was held at their banking house, and Messrs. William P. Humes, James Harris, John M. Shugert, Thomas A. Shoemaker, John M. Dale and John Blanchard, the last named representing the interest of Mrs. Katharine W. Curtin, were elected directors of the bank for the ensuing year. John M. Shugert continues as the cashier of the reorganized bank, and at this meeting Thomas A. Shoemaker was elected president and John L. Kurtz, so long and so faithfully and efficiently connected with this institution, was elected vice president. With the active management of this board of directors and officers there can be no doubt that the high standing of this old banking institution, so long established in Centre County, will be fully maintained and will be broadened in its influence and usefulness.

INTERESTING LECTURE.

The lecture by Hon. A. O. Furst, at Centre Hall, on the Passion Play, on Tuesday evening, in spite of the rain, was attended by a fair audience. The lecture was given in the Presbyterian church for the benefit of the church. The judge in his last summer's tour of Europe took in the village of Oberammergau where the Passion Play is produced every tenth year, in accordance with a vow made by the inhabitants of that German village, that if the Lord would stay the ravages of a disease that was threatening to carry off the entire population, they would for all time continue to produce the Passion Play in commemoration of the events surrounding the persecutions, trials and crucifixion of the Saviour. And for over two and a half centuries, up to this time, the citizens of Oberammergau have remained true to their vow, and most devoutly, in living characters, present all the occurrences of that, the greatest, event in the world's history. The lecturer, for fully one and three quarters of an hour held the audience, as he graphically described this world-renowned play. Several communities in this county have had the good fortune to listen to a lecture upon this subject, and those who have an opportunity, and fail to avail themselves of it, lose a rare treat, told in plain language by Mr. Furst, that almost makes an audience think they are beholding the real crucifixion.

Haines Twp.

This section of the county will show up well for good crops, even if the caterpillars are numerous.

This end of the valley is likely to have one of the largest fruit orchards in county. One farmer intends putting out about 100 acres in apples, peaches, etc. Our farmers, with present facilities for reaching eastern markets will find fruit-growing more profitable than raising grain.

BIG EJECTMENT SUIT.

Heirs of Burkhart Moser Sue for Coal Lands.

The preliminary action to a gigantic ejectment suit of Mrs. Elizabeth Albright and 330 other heirs of the late Burkhart Moser against Lehigh Coal and Navigation company, which will be tried at Pottsville this week, was entered at court there on Tuesday. The Moser heirs allege that the defendant company is a trespasser and has no title to coal lands over which it claims ownership in East Tamaqua, Rahn township, Schuylkill county, and to coal tracts in Carbon county, the total value of which to the plaintiff, who claims ownership, aggregates from \$8,000,000 to \$10,000,000.

The Mussers, (Mosers) and Stivers, of Pennsylv., claim an interest in these ten millions.

Good Record.

Rev. T. L. Bickle, who has accepted a call from a congregation in Philadelphia during his pastorate in Bellefonte received into the church 88 new members, baptized 38, and performed 14 marriage ceremonies. He also was instrumental in paying \$2,200 of a debt of 19 years' standing and improving the parsonage at a cost of \$750, besides greatly increasing the charitable and benevolent contributions of the church. Though yet a young man, Rev. Bickle is already regarded a strong advocate of church work.
